Which sort of seducer
could you be? Siren?

Rake? Cold Coquette?
Star? Comedian?
Charismatic? Or Saint?
This book will show you
which. Charm,
persuasion, the ability
to create illusions:
these are some of the
many dazzling gifts of
the Seducer, the
compelling figure who
is able to manipulate,
mislead and give
pleasure all at once.
When raised to the
level of art, seduction,
an indirect and subtle
form of power, has
toppled empires, won
elections and enslaved
great minds. In this
beautiful, sensually
designed book, Greene
unearths the two sides
of seduction: the
characters and the
process. Discover who
you, or your pursuer,
most resembles. Learn,
too, the pitfalls of the
anti-Seducer. Immerse
yourself in the twenty-

four manoeuvres and
strategies of the
seductive process, the
ritual by which a
seducer gains mastery
over their target.
Understand how to
'Choose the Right
Victim', 'Appear to Be
an Object of Desire'
and 'Confuse Desire
and Reality'. In
addition, Greene
provides instruction on
how to identify victims
by type. Each
fascinating character
and each cunning
tactic demonstrates a
fundamental truth
about who we are, and
the targets we've
become - or hope to
win over. The Art of
Seduction is an
indispensable primer
on the essence of one
of history's greatest
weapons and the
ultimate power trip.

Though Mercy can shift her shape into that of a coyote, her loyalty never wavers. So when her former boss and mentor, Zee, asks for her help, she’s there for him. A series of murders has rocked a fae reservation, and Zee needs her unique gifts, namely her coyote sense of smell,

to sniff out the killer. But when Zee is accused of murdering the suspect Mercy outed, he’s left to rot behind bars by his own kind. Now it’s up to Mercy to clear his name, whether he wants her to or not. Mercy’s loyalty is under pressure from other directions, too. Werewolves are not known for their patience, and if Mercy can’t decide between the two she cares for, Sam and Adam may make the choice for her... *Lynn Viehl, New York Times bestselling author

Post-Cinematic Affect is about what it feels like to live in the affluent West in the early 21st century. Specifically, it

explores the structure of feeling that is emerging today in tandem with new digital technologies, together with economic globalization and the financialization of more and more human activities. The 20th century was the age of film and television; these dominant media shaped and reflected our cultural sensibilities. In the 21st century, new digital media help to shape and reflect new forms of sensibility. Movies (moving image and sound works) continue to be made, but they have adopted new formal strategies, they are viewed under massively changed conditions, and they address their spectators in different ways than was the

case in the 20th century. The book traces these changes, focusing on four recent moving-image works: Nick Hooker's music video for Grace Jones' song *Corporate Cannibal*; Olivier Assayas' movie *Boarding Gate*, starring Asia Argento; Richard Kelly's movie *Southland Tales*, featuring Justin Timberlake, Dwayne Johnson, and other pop culture celebrities; and Mark Neveldine and Brian Taylor's *Gamer*.  Brennan Clayton lived a life of privilege and comfort, until experimenting with drugs in college led to him quitting school to live the life of an addict. His days are spent doing odd jobs for cash to pay for his habit. One night, he overdoses and nearly dies. Doctor Lucas Martel works nightshift in the emergency room at Eureka Hospital. He's reclusive and

brilliant at his job, and he's all too aware that not everything in Eureka is as it seems. He's also a vampire, one who chooses to blend in with humans rather than feed on them. Something strange is happening to the homeless and addicts on the streets of Eureka; many have gone missing or ended up dead, and others have overdosed on drugs so strong, no human cure can counteract them. Not normally concerned with human tragedies, the vampires can't stand back and let this play out, or they risk exposing their world to the humans. Brennan must face his demons, and Lucas will discover many things about himself, and what he believes to be true: a seedy underground of

rogue vampires and drugs that must be stopped, at any cost. *Warning: contains references to drug use and abuse.

E. Schwab, New York Times bestselling author of *The Invisible Life of Addie La Rue* A National Bestseller Indie Next Pick Out on the Yorkshire Moors lives a secret line of people for whom books are food, and who retain all of a book's content after eating it. To them, spy novels are a peppery snack; romance novels are sweet and delicious. Eating a map can help them remember destinations, and children, when they misbehave, are forced to eat dry, musty pages from dictionaries. Devon is part of The Family, an old and reclusive clan of book eaters. Her brothers grow up feasting on stories of valor and adventure, and Devon—like all other book eater

women—is raised on a carefully curated diet of fairy tales and cautionary stories. But real life doesn't always come with happy endings, as Devon learns when her son is born with a rare and darker kind of hunger—not for books, but for human minds. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. *Gender in the Vampire Narrative* Youcanprint Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book

takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

A dystopian novel for the digital age, The

Word Exchange offers an inventive, suspenseful, and decidedly original vision of the dangers of technology and of the enduring power of the printed word. In the not-so-distant future, the forecasted "death of print" has become a reality. Bookstores, libraries, newspapers, and magazines are things of the past, and we spend our time glued to handheld devices called Memes that not only keep us in constant communication but also have become so intuitive that they hail us cabs before we leave our offices, order takeout at the first growl of a hungry stomach, and even create and sell language itself in a marketplace called the Word Exchange. Anana

Johnson works with her father, Doug, at the North American Dictionary of the English Language (NADEL), where Doug is hard at work on the last edition that will ever be printed. Doug is a staunchly anti-Meme, anti-tech intellectual who fondly remembers the days when people used email (everything now is text or videoconference) to communicate—or even actually spoke to one another, for that matter. One evening, Doug disappears from the NADEL offices, leaving a single written clue: ALICE. It's a code word he devised to signal if he ever fell into harm's way. And thus begins Anana's journey down the proverbial rabbit hole . . . Joined by Bart, her

bookish NADEL colleague, Anana's search for Doug will take her into dark basements and subterranean passageways; the stacks and reading rooms of the Mercantile Library; and secret meetings of the underground resistance, the Diachronic Society. As Anana penetrates the mystery of her father's disappearance and a pandemic of decaying language called "word flu" spreads, *The Word Exchange* becomes a cautionary tale that is at once a technological thriller and a meditation on the high cultural costs of digital technology.
