Jorge Luis Borges's Fictions introduced an entirely new voice into world literature. It is here that we find the astonishing accounts of 'Funes the Memorious', the man who can forget nothing; 'Pierre Menard, Author of the Quixote', who recreates Miguel de Cervantes's epic word-for-word; a society run on the basis of an all-encompassing game of chance in 'The Lottery in Babylon'; the mysterious world of 'TI n, Uqbar, Orbis Tertius' which seems to be supplanting our own; and the 'Library of Babel', which contains every possible book in the whole universe. Here too are the philosophical detective stories and the haunting tales of Irish revolutionaries, gaucho knife fights and dreams within dreams which proved so influential (and yet impossible to imitate). This collection was eventually to bring Borges international fame; over fifty years later, it remains endlessly intriguing.

This ebook is a series of texts, which were written in imitation of biblical books of prophecy, but expressing the poets own personal romantic and revolutionary beliefs. It is not exactly known when the work was written. One assumes it was composed in London between 1790 and 1793, a period of political conflict arising immediately after the French Revolution. The book is about the first person narrators visit to Hell, a concept taken by Blake from Dantes Inferno and Miltons Paradise Lost. Apart from the opening Argument and the Song of Liberty, the entire book is written in prose. The Marriage of Heaven and Hell was influenced by the mysticism of Swedish theosophist Emanuel Swedenborg and is also in part a satire on Emanuel Swedenborgs writings, especially on Heaven and Hell from which Blake adapted the title. William Blake (1757 - 1827) was a British poet, painter, visionary mystic, and engraver, who illustrated and printed his own books. Blake proclaimed the supremacy of the imagination over the rationalism and materialism of the 18th-century. Largely unrecognised during his lifetime, Blake is now considered a seminal figure in the history of both the poetry and visual arts of the Romantic Age.

A special 75th anniversary edition of Richard Wright's powerful and unforgettable memoir, with a new foreword by John Edgar Wideman and an afterword by Malcolm Wright, the author's grandson. When it exploded onto the literary scene in 1945, Black Boy was both praised and condemned.

Orville Prescott of the New York Times wrote that “if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy.” Yet from 1975 to 1978, *Black Boy* was banned in schools throughout the United States for “obscenity” and “instigating hatred between the races.” Wright’s once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a Black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him—whites indifferent, pitying, or cruel and Blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he headed north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of *Black Boy*, Wright sits poised with pencil in hand, determined to “hurl words into this darkness and wait for an echo.” Seventy-five years later, his words continue to reverberate. “To read *Black Boy* is to stare into the heart of darkness,” John Edgar Wideman writes in his foreword. “Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear.” One of the great American memoirs, Wright’s account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time.

The human face of poverty The poor in India are, too often, reduced to statistics. In the dry language of development reports and economic projections, the true misery of the 312 million who live below the poverty line, or the 26 million displaced by various projects, or the 13 million who suffer from tuberculosis gets overlooked. In this thoroughly researched study of the poorest of the poor, we get to see how they manage, what sustains them, and the efforts, often ludicrous, to do something for them. The people who figure in this book typify the lives and aspirations of a large section of Indian society, and their stories present us with the true face of development.

A. J. Cronin’s famous story is a soul-stirring novel of pride and greed, and its terrible retribution. When her father forced her to leave school, and cut off all her contact with the past and future, Mary Brodie’s whole life became the narrow compass of her family’s cold, comfortless house in a small Scottish town. Her mean and ambitious father tyrannised over his timid, obliging wife, his cowed, overworked younger daughter and his spineless son. Four people were held in Brodie’s merciless grip until, like a breath of the outside world Brodie so much despised, came the young Irishman in whom Mary found a forbidden freedom, and who brought to her mother and sister much needed release... In the magnificent narrative tradition of *The Citadel*, *The Stars Look Down* and Cronin’s other classic novels, *Hatter’s Castle* is a great book by a much-loved author.

What is the relationship between common-sense, or 'folk', psychology and contemporary scientific psychology? Are they in conflict with one another?

Or do they perform quite different, though perhaps complementary, roles? George Botterill and Peter Carruthers discuss these questions, defending a robust form of realism about the commitments of folk psychology and about the prospects for integrating those commitments into natural science.

Their focus throughout the book is on the ways in which cognitive science presents a challenge to our common-sense self-image - arguing that our native conception of the mind will be enriched, but not overturned, by science. *The Philosophy of Psychology* is designed as a textbook for upper-level undergraduate and beginning graduate students in philosophy and cognitive science, but as a text that not only surveys but advances the debates on the topics discussed, it will also be of interest to researchers working in these areas.

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America’s foremost deal-maker. “I like thinking big. I always have. To me it’s very simple: If you’re going to be thinking anyway, you might as well think big.”—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker’s art. And throughout, Trump talks—really talks—about how he does it. Trump: *The Art of the Deal* is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: *The Art of the Deal* “Trump makes one believe for a moment in the American dream again.”—The New York Times “Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet.”—Chicago Tribune “Fascinating . . . wholly absorbing . . . conveys Trump’s larger-than-life demeanor so vibrantly that the reader’s attention is instantly and fully claimed.”—Boston Herald “A chatty, generous, chutzpa-filled autobiography.”—New York Post
