 Now first- and second-graders can really sharpen their skills. Announcing Brain Quest Math and Brain Quest Reading, a natural extension of Brain Quest into single-subject tutorials. Using the same curriculum-based, question-and-answer format that has made Brain Quest America's #1 educational bestseller with over 16 million copies in print, Math and Reading concentrate on the two subjects that are of paramount importance for parents, teachers, and especially the kids. Math is as focused as flash cards, but with far more range, interactivity, and educational value. Each grade comprises two decks. 1st Grade has five questions to

a card, covering Numeration, or the basics of numbers; Bits & Pieces, including shapes and equivalents; Computation-addition and subtraction; Measurements; and Problem-Solving. 2nd Grade, with seven questions to a card, adds two new categories to the original five-Super Computation, which has more complicated operations, and Fun with Numbers. Reading takes a thorough approach to working on the fundamentals of reading and language arts. First comes an original one-page story illustrated in full-color, with 56 stories per grade. Following the story card is a comprehension card, quizzing the reader about the story, its characters, and content. Following that card is a second question card-five questions for 1st Grade, seven for 2nd Grade-on Grammar, Word Choice, Phonics, Vocabulary, Extensions, and Mixed Bag. A strong foundation in math, a strong foundation in reading-that's

what elementary education is all about. Making it fun to learn is what Brain Quest is all about-that, and reinforcing the idea that It's O.K. to Be Smart!

### **Summer Brain Quest: Between Grades 4 & 5** Workman Publishing

Get ready for Kindergarten! It's fun to stay summer smart and stop summer slide with Summer Brain Quest, which offers a whole program of curriculum-based activities and learning adventures structured like a game and captured in a workbook.

*A Whole Year of Curriculum-Based Exercises and Activities in One Fun Book!* Workman Publishing

The manager's must-have guide to excelling in all aspects of the job Mind Tools for Managers helps new and experienced leaders develop the skills they need to be more effective in everything they do. It brings together the 100 most important leadership skills—as

voted for by 15,000 managers and professionals worldwide—into a single volume, providing an easy-access solutions manual for people wanting to be the best manager they can be. Each chapter details a related group of skills, providing links to additional resources as needed, plus the tools you need to put ideas into practice. Read beginning-to-end, this guide provides a crash course on the essential skills of any effective manager; used as a reference, its clear organization allows you to find the solution you need quickly and easily. Success in a leadership position comes from results, and results come from the effective coordination of often competing needs: your organization, your client, your team, and your projects. These all demand time, attention, and energy, and keeping everything running smoothly while making the important decisions is a lot to handle. This book shows you how to manage it all, and manage it well, with practical wisdom and expert guidance. Build your ideal team and keep them motivated. Make better decisions and boost your strategy game. Manage both time and stress to get more done with less. Master effective communication, facilitate innovation, and much more. Managers wear many hats and often operate under a tremendously diverse set of job duties. Delegation, prioritization, strategy, decision making, communication, problem solving, creativity, time management, project management and stress management are all part of your domain. Mind Tools for Managers helps you take control and get the best out of your team, your time, and yourself.

**Brain Quest Workbook: Grade 2** Workman Publishing

Hone your reading skills with a fun story deck and Q&A! Sharpen your skills while you play! Here are 56 accessible, entertaining, illustrated stories designed just for 2nd graders—a biography about astronaut Sally Ride, a letter to a congresswoman, a scientific article about fossils, a story about life on a big ranch. Following each story card is a reading comprehension card with lively questions about content, character, and more. And then comes a card with questions on grammar, phonics, word choice, and other ELA topics. Brain Quest Reading Grade 2 is an excellent way for kids to hone their skills and become accomplished, enthusiastic readers - all in the form of a fun game to play with a friend, a parent, or by yourself. Vetted by a panel of America's highest award-winning teachers, and embraced by kids and parents because it flat-out works, Brain Quest opens a world

of information and education with its fast-paced question-and-answer format, bright full-color illustrations, and lively attitude.

**Brain Quest Workbook: Kindergarten** Workman Publishing

Workbook is "jam-packed with activities based on reading comprehension, writing opinions, ancient history, fractions, exponents, climate, and more."--Back cover.

**Summer Brain Quest: Between Grades K & 1** Workman Publishing

The Force is strong with this series! Introducing a line of workbooks that marries the iconic popularity of Star Wars with the unique mix of editorial quality, fun presentation, and rigorous educational standards that Workman applied to the BRAIN QUEST Workbooks. Twelve titles launch the series—three each for Pre-K through 2nd Grade—and dig deep into core subjects, including numbers, ABCs, phonics, and reading readiness for younger grades, and math, reading, and writing for the older ones. The material, which aligns with national Common Core State Standards, is designed to reinforce essential concepts and lessons taught in schools. Any child, not just fans of Star Wars—but yes, those fans will be especially delighted (as will reluctant learners)—will love the "is for Anakin" approach to phonics. Kids will practice learning numbers by counting and circling X-wing starfighters and clone troopers. Master place values by sorting groups of Wookiees. There are math problems—Yoda is holding 7 lightsabers. 5 of the lightsabers are blue. The rest are green. How many green lightsabers is he holding? And Language Arts—Circle the correct homophone in this sentence: Luke is a Jedi knight/night. Featuring favorite characters like Luke Skywalker, Queen Amidala, Yoda, and Obi-Wan Kenobi, and other creatures, monsters, Jedi, and Sith, the workbooks are filled with thousands of original illustrations drawing from all six Star Wars movies and the expanded Star Wars universe. Learn well, you will.

**Brain Quest Workbook: 4th Grade Revised Edition** Workman Publishing Company

"A whole year of curriculum-based exercises and activities in one fun book!"--Cover.
