 Global Petrochemical Market Outlook C
 Global petrochemical markets are bound to face numerous challenges in the second half of 2019 with the dispute between superpowers and the emergence of China's new mega refineries impacting trade flows, demand-supply dynamics and currency fluctuations. With more new capacities coming on stream soon, turmoil may be the new norm in global markets.  Global Petrochemical Market Outlook - VCMStudy
 The global petrochemicals market size was predicted at USD 441.0 billion in 2019 and is anticipated to witness a CAGR of 5.0% over the forecast period. The growth of the market for petrochemicals will be driven by rising demand for downstream products from end-use industries and capacity additions in the base chemical industry.
 Petrochemicals Market Size & Share | Industry Report, 2020 ...
 However, growing spot availability and bearish outlook on economic performance across Asia dented buying interest. There was market news that Zhejiang Petrochemical may start its new 260,000 mt/year ACN plant as early as late-March and many buyers were holding on to their spot purchase as they expect the price to trend lower.
