I know the images are going to be - or at least are meant to be - special. Since I am shooting film with the Nikon F4 in the second decade of the 21st century, I also know the images are going to be different than what most people shoot. The Nikon F4 is such an elegant work of art itself, it helps me to think more artistically when I create photographs. It's just one of those few cameras that is beautiful to behold and a joy to use.
