For hundreds of thousands of years, Great Auks thrived. And then they were gone ... For hundreds of thousands of years Great Auks thrived in the icy seas of the North Atlantic, bobbing on the waves, diving for fish and struggling up onto rocky shores to mate and hatch their fluffy chicks. But by 1844, not a single one of these magnificent birds was alive. In this stunningly illustrated non-fiction picture book, award-winning author and illustrator Jan Thornhill tells the tragic story of these birds that "weighed as much as a sack of potatoes and stood as tall as a preteen's waist." Their demise came about in part

because of their anatomy. They could swim swiftly underwater, but their small wings meant they couldn't fly and their feet were so far back on their bodies, they couldn't walk very well. Still the birds managed to escape their predators much of the time ... until humans became seafarers. Great Auks were pursued first by Vikings, then by Inuit, Beothuk and finally European hunters. Their numbers rapidly dwindled. They became collectors' items — their skins were stuffed for museums, to be displayed along with their beautiful eggs. (There are some amazing stories about these stuffed auks — one was stolen from a German museum during WWII by Russian soldiers; another was flown to Iceland and given a red-carpet welcome at the airport.) Although undeniably tragic, the final demise of the Great Auk led to the birth of the conservation movement. Laws were eventually passed to prevent the killing of birds during the nesting season, and similar laws were later extended to other wildlife species. Jacqueline Woodson's National Book Award and Newbery Honor winner is a powerful memoir that tells the moving story of her childhood in mesmerizing verse. A President Obama "O" Book Club pick Raised in South Carolina and New York, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world. Woodson's eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with her, creating the first sparks of the gifted writer she was to become. Includes 7 additional poems, including "Brown Girl Dreaming." Praise for Jacqueline Woodson: "Ms. Woodson writes with a sure understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery."—The New York Times Book Review

BBC Radio 4 Book of the Week

Benjamin Zephaniah, who has travelled

the world for his art and his humanitarianism, now tells the one story that encompasses it all: the story of his life. In the early 1980s when punks and Rastas were on the streets protesting about unemployment, homelessness and the National Front, Benjamin's poetry could be heard at demonstrations, outside police stations and on the dance floor. His mission was to take poetry everywhere, and to popularise it by reaching people who didn't read books. His poetry was political, musical, radical and relevant. By the early 1990s, Benjamin had performed on every continent in the world (a feat which he achieved in only one year) and he hasn't stopped performing and touring since. Nelson Mandela, after hearing Benjamin's tribute to him while he was in prison, requested an introduction to the poet that grew into a lifelong relationship, inspiring Benjamin's work with children in South Africa. Benjamin would also go on to be the first artist to record with The Wailers after the death of Bob Marley in a musical tribute to Nelson Mandela. *The Life and Rhymes of Benjamin Zephaniah* is a truly extraordinary life story which celebrates the power of poetry and the importance of pushing boundaries with the arts.

Under the Moon & Over the Sea Penguin UK

This innovative book takes an alternative look at 12 occupations and the people who fill them. It's aim is to open up children's imaginations to the possibility that there are many more roles open to them than they may think. It doesn't just simply depict male nurses, female engineers and similar familiar stereotype-busting examples, but more broad-ranging examples of unusual people doing unusual jobs, such as Sikh lollipop man, a female clown and a black British Space Scientist. Benjamin Zephaniah's lyrical and amusing text also draws on his own experience of being stereotyped and misjudged because of the colour of his skin and the style of his hair.

Prodepta Das is a master of photographing people in everyday situations and he brings to this project all the skill that made *We Are Britain* such an outstanding book. Jobs featured: Lollipop man, Clown, Space Scientist, Lawyer, Conversational, Farmer, Vet, Pilot, Illustrator, Chef, Museum Director, Architect.
