One of the most important 21st century skills is the ability to negotiate constructive resolutions in

the face of conflicts of interest. Negotiation is a form of communication that requires more than just language ability. It requires being able to listen to, and communicate with, others within a milieu of diverse language abilities, academic, professional and cultural backgrounds in an increasingly global society. Added to this is the reality that the majority of English spoken globally is English as a Lingua Franca (ELF). Model United Nations (MUN) simulations are uniquely positioned to help students develop their language ability and their global competencies, as well as being ideal opportunities for participants to experience ELF in an intensely communicative context. A common goal in MUN simulations is to prepare students to solve complex problems that are associated with living in a technological, competitive, and globally connected world. This volume provides researchers, negotiation practitioners, and language teachers with insights and best practices in MUN event and delegate preparation. Application of these best practices will significantly enrich the pedagogic environments designed for MUN delegates, especially in ELF contexts.

In the Loop is divided into three parts: Part 1, "Idioms and Definitions"; Part 2, "Selected Idioms by Category"; and Part 3, "Classroom Activities." The idioms are listed alphabetically in Part 1. Part 2 highlights some of the most commonly used idioms, grouped into categories. Part 3 contains classroom suggestions to help teachers plan appropriate exercises for their students. There is also a complete index at the back of the book listing page numbers for both main entries and cross-references for each idiom.

The Turning of English Idioms Into French at Sight: Or, Sequel to Any Grammar Exercises, a Work Intended for Those Who Have Already Some Knowledge of Palala Press

In recent decades the explosive growth of globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as a practical guide for interpreters and as a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations.

Indonesian Idioms and Expressions is a collection of Indonesian expressions, including proverbs, slang, quotations and acronyms, that offers a commentary on their origins, as well as insights into Indonesian culture, customs, and history. The book is an informal compendium designed to be both educational and easy to read. There are four parts in the book, and the chapters hit on various linguistic themes, among them wisdom, characters, animals, food, slang, family affairs, and politics. Entries include the expression in Bahasa Indonesia, a translation, an equivalent expression in English, and an explanation if necessary. The idea is to learn about Indonesian through the texture and content of its language, rather than the headlines—often bad ones—that tend to dominate
