"Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the DUH! Book of Management and Supervision, the author disagrees with many accepted leadership principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. Her challenging and controversial concepts illustrated with poignant stories suggest common-sense and immediately applicable alternatives more suitable in today's workplace"--Back cover.

A Native Narrative Harper Collins

Much literary scholarship has been devoted to the flowering of Native American fiction and poetry in the mid-twentieth century. Yet, Robert Warrior argues, nonfiction has been the primary form used by American Indians in developing a relationship with the written word, one that reaches back much further in Native history and culture. Focusing on autobiographical writings and critical essays, as well as communally authored and political documents, *The People and the Word* explores how the Native tradition of nonfiction has both encompassed and dissected Native experiences. Warrior begins by tracing a history of American Indian writing from the eighteenth century to the late twentieth century, then considers four particular moments: Pequot intellectual William Apess's autobiographical writings from the 1820s and 1830s; the Osage Constitution of 1881; narratives from American Indian student experiences, including accounts of boarding school in the late 1880s; and modern Kiowa writer N.

Scott Momaday's essay "The Man Made of Words," penned during the politically charged 1970s. Warrior's discussion of Apess's work looks unflinchingly at his unconventional life and death; he recognizes resistance to assimilation in the products of the student print shop at the Santee Normal Training School; and in the Osage Constitution, as well as in Momaday's writing, Warrior sees reflections of their turbulent times as well as guidance for our own. Taking a cue from Momaday's essay, which gives voice to an imaginary female ancestor, Ko-Sahn, Warrior applies both critical skills and literary imagination to the texts. In doing so, *The People and the Word* provides a rich foundation for Native intellectuals' critical work, deeply entwined with their unique experiences. Robert Warrior is professor of English and Native American studies at the University of Oklahoma. He is author of *Tribal Secrets: Recovering American Indian Intellectual Traditions* (Minnesota, 1994) and coauthor, with Paul Chaat Smith, of *Like a Hurricane: The Indian Movement from Alcatraz to Wounded Knee. Winner of the 2003 Trillium Book Award "Stories are wondrous things," award-winning author and scholar Thomas King declares in his 2003 CBC Massey Lectures. "And they are dangerous." Beginning with a traditional Native oral story, King weaves his way through literature and history, religion and politics, popular culture and social protest, gracefully elucidating North America's relationship with its Native peoples. Native culture has deep ties to storytelling, and yet no other North American culture has been the subject of more erroneous stories. The Indian of fact, as King says, bears little resemblance to the literary Indian, the dying Indian, the construct so powerfully and

often destructively projected by White North America. With keen perception and wit, King illustrates that stories are the key to, and only hope for, human understanding. He compels us to listen well

*The Convert* is about the British Suffrage movement, which the author knew well. Part witty and scathing commentary on the upper classes, part political rhetoric quoted directly from open-air meetings, and part muck-raking realism, it moves back and forth between the personal and the political until the two can no longer be distinguished. *The Convert* uses as its frame the political "conversion" of Vida Levering, a beautiful, upper middle-class woman. We follow Vida's growing discontent with "country weekend" society and her increasing awareness of the common lot of women. Forthright and direct, Elizabeth Robins discusses issues that must have been shocking in 1907: unwed motherhood, the effects of the inequality of women, and the essential disrespect that underlies chivalry. Reminiscent of Jane Austen and foreshadowing the work of Virginia Woolf, *The Convert* is a fascinating novel. It provides us with a sense of history and a feeling of pride in what women could and did accomplish. It is also disturbing because far too many of the issues are still relevant.

In *The Inconvenient Indian*, Thomas King offers a deeply knowing, darkly funny, unabashedly opinionated, and utterly unconventional account of Indian-White relations in North America since initial contact. Ranging freely across the centuries and the Canada-U.S. border, King debunks fabricated stories of Indian savagery and White heroism, takes an oblique look at Indians (and cowboys) in film and popular culture, wrestles with the history of Native American resistance and his own experiences as a Native rights activist, and articulates a profound, revolutionary understanding of the cumulative effects

of ever-shifting laws and treaties on Native peoples and lands. Suffused with wit, anger, perception, and wisdom, *The Inconvenient Indian* is at once an engaging chronicle and a devastating subversion of history, insightfully distilling what it means to be "Indian" in North America. It is a critical and personal meditation that sees Native American history not as a straight line but rather as a circle in which the same absurd, tragic dynamics are played out over and over again. At the heart of the dysfunctional relationship between Indians and Whites, King writes, is land: "The issue has always been land." With that insight, the history inflicted on the indigenous peoples of North America—broken treaties, forced removals, genocidal violence, and racist stereotypes—sharpens into focus. Both timeless and timely, *The Inconvenient Indian* ultimately rejects the pessimism and cynicism with which Natives and Whites regard one another to chart a new and just way forward for Indians and non-Indians alike.

In 1967, then-unknown writers David Godfrey and Dennis Lee founded a small press they grandly named "The House of Anansi," after an African trickster spider-god. Their goal was to publish groundbreaking new Canadian work in three core genres: literary fiction, poetry, and topical nonfiction. Forty years later, Anansi is not only going strong but enjoying a fascinating creative renaissance, bolstered by both its important backlist and its renewed commitment to seeking out the best new writers and ideas to publish alongside its established ones. Assembled by award-winning writer Lynn Coady, *The Anansi Reader* features

excerpts from ten of the best books from each decade of the existence of the press, for a total of 40 entries. Samples from Lynn Crosbie's *Queen Rat*, Northrop Frye's *The Educated Imagination*, and Kevin Connelly's *Drift* are among the treasures included. In a thoughtful coda, Coady shows readers the future with selections from seven exciting works-in-progress coming from Anansi in the next two years.

HOW TO NOT TELL A WAR STORY is a collection of short stories about veterans who went to war but left without a war story to tell. Forty years after their experience, these veterans begin to question if there is something more to say about their military service. Among other things, they come to appreciate the lovers, friends, and family who helped them shape a new, post-war identity. " . . . when the courage of NFL star Tillman was referred to, or Jessica Lynch was rescued, they all found themselves thinking back to their long-ago tours. Did they have stories? Maybe memory had played tricks on them, obscuring what would come to light at last. Back then, they hadn't studied forms for the narration of danger, but now, more aware, could they reshape their experience for the new era? What, after all, about their friend, Butterball?" Explore with Michael Lund the lives of these veterans who discover being in the service is not something to be edited out of a personal history, but an experience that stays in memory, not an ending but the beginning of a measure of peace, no matter how short the stint, or inglorious. Michael Lund is the author of nine novels about Route 66 and the generation that grew up in the Midwest in the 50s, including *Route 66 to Vietnam: A Draftee's Story*, all published by Beach House Books.

Winner of the American Indian Library Association Youth Literature Awards, Best Picture Book. Trickster Coyote is having his friends over for a festive solstice get-together in the woods when a little girl comes by unexpectedly. She leads the party-goers through the snowy woods to a shopping mall -- a place they have never seen before. Coyote gleefully shops with abandon, only to discover that filling your shopping cart with goodies is not quite the same thing as actually paying for them. The trickster is tricked and goes back to his cabin in the woods -- somewhat subdued -- though nothing can keep Coyote down for long. When the world says, "Let your emotions lead you," we as Christ-followers must find a different course, navigating through the minor whirlpools, unpredictable winds, and sometimes ferocious hurricanes. Christ's words and actions guide our ships into deeper waters and beyond to the other shore. This book explores scriptural anchoring points, personality influence, and past

experiences to give us a new vision of the weighted tension between letting loose with our feelings or cinching up and ignoring them altogether. As human beings, we are created with

emotional dimension, and within Christ, we are called to surrender these feelings, using them in a healthy and biblical way.
