Tracker-Forty Years of Skateboard History Gingko Press
A funny and fact-filled look at decomposition in all of its slimy glory, illustrated with dazzling full-color art by Gilbert Ford. Vultures, fungi, dung beetles, and more aid in this fascinating and sometimes smelly aspect of the life cycle that's right under our noses. What's that terrible smell? It's the revolting scent of rot. But being rotten isn't necessarily bad. If nothing ever rotted, nothing new could live. Decomposition may seem like the last stop on the food chain, but it's just the beginning. When dead plants and animals decay, they give life to a host of other creatures, and each one helps ecosystems thrive. Decomposition

happens in the forest, the ocean--even in your stomach and between your teeth! From vultures and sharks to bacteria, maggots, mushrooms, and more, discover the dirty rotten truth about one of nature's most fascinating processes.

Stoned Beyond Belief DisposableA History of Skateboard ArtLong time skateboard artist Sean Cliver has put together this staggering survey of over 1000 skateboard graphics from the early 80s to the start of the 00s, creating an indispensable insiders history as he did so. Alongside his own history, Sean has assembled a wealth of recollections and stories from prominent artists and skateboarders such as Andy Howell, Barry McGee, Ed Templeton, Steve Caballero, and Tony Hawk. The end result is a

fascinating historical account of art in the skateboard subculture, as told by those directly involved with shaping its legendary creative face. Now, 10 years after its first printing, the graphics and stories within are as provocative as they day they were first conceived. The Disposable Skateboard Bible 10th Anniversary Edition

"Eleven-year-old Carolina moves with her family from Puerto Rico to upstate New York, where she attends Silver Meadows camp with her cousin, finds an abandoned cottage, and reclaims parts of the life she left in Puerto Rico"--

Once a skinny and weak child, Gino Bartali rose to become a Tour de France champion and one of cycling's greatest stars. But all that seemed unimportant when his country came under the grip of a brutal dictator and entered World War II on the side of Nazi Germany. Bartali might have appeared a mere bystander to the harassment and hatred directed toward Italy's Jewish people, but secretly he accepted a role in a dangerous plan to help them. Putting his own life at risk, Bartali used his speed and endurance on a bike to deliver documents Jewish people needed to escape harm. His inspiring story reveals how one person could make a difference against violence and prejudice during the time of the Holocaust.

How to Skateboard and Not Kill Yourself Simon and Schuster
A Kirkus Reviews Best Book of the Year! A multicultural family story that celebrates kindness and differences Lila is excited for her cousins Takeo and Rosie to visit. They're going to ride bikes, paint, and camp together! But when the cousins arrive, everything's wrong: Rosie and Takeo are better painters than Lila, have skateboards instead of bikes, and don't want to camp outside. Lila is terribly disappointed until the cousins make her a surprise: a big banner for their "best cousin" Lila! Inspired by the author's own large, diverse family, *When the Cousins Came* is a sensitive story about insecurity, hosting, and friendship. Katie Yamasaki's tale, paired with bright mixed-media art, reminds children that negative thoughts and anxiety over exclusion don't always translate to reality, and that even when plans go wrong you can still have a good time together.

"The Tracker book is so important because future generations will be able to learn about skateboarding history--who was involved with it, and how it all happened. It will blow their minds."--Christian Hosoi
Back in 1975, the Tracker Fultrack was the first truck in history made specifically for skateboarding by skateboarders to incorporate high quality, performance and strength. Trackers truly were (and still are) the Trucks You Can Trust. Four decades later, those four words continue to be the driving force of the brand. TRACKER - Forty Years of Skateboard History is a collection of photos and stories about Tracker and its rich history from the perspective of the people who worked there, as well as the professional riders and photographers who made Tracker a major icon in the skateboard world. This coffee table size book features a skateboarding historic timeline from the early 1900's to the present. There are over 1492 color and black and white photos, drawings and scans illustrating the skateboarding story of Tracker Trucks in this 388 page, hardcover book.

A Visual History Skatebook

A world-champion freestyle skateboarder traces the history of skating as well as the story of his own life, describing his family of overachievers, his father's disapproval of the author's skating ambitions, the disability that challenged his career, and his successes as an extreme sports person and multi-million-dollar skateboard company owner.

Push Gingko Press Editions

Skateboard graphics took a quantum leap in offensive potential after the sport was reborn in the '90s. Artists such as Marc McKee, Todd Francis, Johnny 'Mojo' Munneryn, Winston Tseng and others brought dark humour and politically incorrect topics to the forefront of their illustrations, aiming to raise serious issues and skewer values. Agents Provocateurs asks new questions of this boundary-pushing artistic genre and its place over the years. Did it save skateboarding? Are these controversial topics still relevant 20 years later?

Skatebook Smak Museum

Full pricing information is provided. This book is a required reference for skateboarders, past and present.

Skateboard Museum Zine Collection Abrams

To be a skateboarder today is a much different experience than it was for much of the 1990s. The photographs, quotes, and anecdotal text in '93 til captures a time in skateboarding when making a livable income as a professional skater was a luxury and public understanding of skateboarding was at an all-time low. It was a time when skateboarding was searching for an identity, a time before Instagram and big corporate influences. Street skating was coming of age, testing its limitations and aligning itself with a new and innovative style of hip-hop culture that was emerging. Looking back, many skaters today feel as though the '90s were the golden years of skateboarding. '93 til is a captivating portal into a decade and a culture that is remembered with warmth and nostalgia. Much of the photography that Pete has unearthed for '93 til was buried in boxes for close to two decades and hasn't never been seen or published before. The 250-page book also contains several timeless images from his years shooting for SLAP and Transworld Skateboarding Magazine that will be familiar to the initiated. In addition to his stunning action shots are plenty of portraits and unguarded, candid moments that span from the late '80s up through 2004. The book reveals a raw, unapologetic perspective of a world that no longer exists. Also included in the book alongside Pete's imagery are quotes and anecdotes from legends like Tony Hawk, Arto Saari, Jamie Thomas, Guy Mariano, Nyjah Huston, Geoff Rowley, Stevie Williams and others. Pete moved on from his career in skate photography in 2004 and is currently

living in Brooklyn.

Skateboard Retrospective Ten Speed Press

The Collected Photography of David Arnoff Roaring Brook Press

Now in a more compact format, *Back in the Day* is a timeless and nostalgic collection of photographs documenting the skateboarding scene in the 1970s. William Sharp began taking surfing photographs in southern California in the early seventies and was quickly drawn into the nascent skateboard scene, shooting friends emulating surfing moves on pavement. By 1975 he was brought in as a staff photographer for the magazine *Skateboard World*. During the next five years he documented the meteoric rise of the movement, capturing thousands of photographs along the way. *Back in the Day* features hundreds of Sharp's astounding photos from this era. The work is priceless, not only for its documentary value, but for the beautiful and poetic images captured and later developed by Sharp himself (many in black and white). Pipes in Arizona, aqueducts in California, pools all over the place, the locales and images must be seen to be believed. Ozzie Ausband signed on as an editor of the project, collecting present day quotes and assisting with the paring down of Sharp's massive photo archive. Sharp's epic photos are populated by the vanguard of the scene such as Tony Alva, Jay Adams, Jerry Valdez, Steve Caballero, and Jay Smith, among many others. This is a must have for fans and collectors of the original large format released in 2017.

Disposable A History of Skateboard Art

Made for Skate Yearling

Skateboarding is both a sport and a way of life. Creative, physical, graphic, urban and controversial, it is full of contradictions – a billion-dollar global industry which still retains its vibrant, counter-cultural heart. *Skateboarding and the City* presents the only complete history of the sport, exploring the story of skate culture from the surf-beaches of '60s California to the latest developments in street-skating today. Written by a life-long skater who also happens to be an architectural historian, and packed through with full-colour images – of skaters, boards, moves, graphics, and film-stills – this passionate, readable and rigorously-researched book explores the history of skateboarding and reveals a vivid understanding of how skateboarders, through their actions, experience the city and its architecture in a unique way.
