"Tales of an Inland Empire Girl is a searing, beautiful memoir that illuminates the struggles of parents who are beaten down by life and their arduous working-class jobs and of children who are trapped in the middle of their parents' battles. A compelling read-raw, honest, and hopeful. I wish this book existed when I was growing up. It would have been my life preserver." -liz gonzález, author of *Dancing in the Santa Ana Winds* "In her first novel, Juanita E. Mantz goes back to the old house to unshackle the

ghosts that still inhabit the charred curtains and broken windows of her youth. We meet The Wonder Twins, a Wolfman Jack stand in, The Flintstones, a young Wonder Woman with tinfoil wristbands & Nancy Drew incognito via unexpected introductions into Mantz's life growing up in The Inland Empire. This is as creative as autobiography gets without veering from the hard truths herein. Maybe you saw the cartoon once, and thought it fantasy, but read this book and then firmly believe that underdogs can fly." - Dennis Callaci, author of *100 Cassettes* "Tales of an Inland Empire Girl is deep and funny and true. A remarkable story of resilience and love told in bright

prose, and written from a place of rigorous vulnerability that draws us in from the start." -Brett Paesel, author of Los Angeles Times bestseller, *Mommies Who Drink* "Mantz takes readers into a deeper journey of a childhood and coming of age filled with turbulence and tight-knit family love, and she writes with blazing grit, flashing joy-de-vivre, and an occasional comic overtone that feels natural coming from this self-professed punk-rock girl. This collection of stories spares no stone unturned, no watershed truth - both hard and celebratory - unexamined. And through it all, shines an anthem call of what matters most in life: the unbreakable bonds

of family, and this family's enduring love for one another." -Ruth Nolan, born in the IE and editor of *No Place for a Puritan: the Literature of California's Deserts* "Tales of an Inland Empire Girl, set in the fast-growing Eastern region of Southern California and told in Mantz's smack-in-your-face honesty, lures one into the places of childhood--of first home and lasting memories. One learns to live, however awkward life might be, in a house 'the color of dirt', finding a place to call one's own in a Plastic Cheese chair, and love, even through girl fights. Through dexterous use of language, Mantz tosses her readers into a reality where a little girl finds herself in

tears of frustration and shame with two left shoes, a drunken dad and screaming mom, but loves deeply anyway, and deals with her situations with twin-powered bravado and punk rock: 'I feel as if I could dance forever, ' says Mantz." - Hồng-Mỹ Basrai, author of *Behind the Red Curtain*

1842. Joshua Weyland is languishing in America and desperate to return to England and his fiancé. He ships home on a small brig but when it founders on rocks off the coast of Cornwall and he narrowly escapes with his life, it's clear to him that the ship had been deliberately wrecked. Who could be responsible? From the eccentric doctor and his daughter who nurse him back to health, to the local fishermen, tin miners and 'Preventers' tasked with subduing smuggling activity, Joshua has plenty of questions which could land him in serious trouble. When an epic storm erupts and another ship is in peril, Joshua is forced to fight for his life to avert

disaster and get to the bottom of the mystery. Dynamite Date Delacorte Press Connect students in grades 5 and up with science using Confusing Science Terms. This 80-page book helps students differentiate between confused word pairs or triples and perplexing science terminology. The book includes terms from the areas of physical, life, earth, and space science. It encourages students to use a science vocabulary journal to construct their own meanings for confusing terms, write sentences using the terms, and create visual representations for them. Students increase their knowledge and understanding of science concepts

through vocabulary building while improving science literacy. This book includes decoding activities and alternative methods of instruction, such as hands-on and small-group activities, games, and journaling, which allow for differentiated instruction. The book supports National Science Education Standards. Hum New York, Gracia Publishing Company [1913] Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred. One of the most cherished stories of all time, To Kill a Mockingbird has been translated into

more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

This collection is the first to offer a close study of fan

generations, which are defined not only by fans' ages, but by their entry point into a canon or their personal politics. The contributors further the conversation about how generational fandom is influenced by and, in turn, influences technologies, industry practices, and social and political changes. As reboot culture continues, as franchises continue expanding over time, and as new technologies enable easier access to older media, Fandom, the Next Generation offers a necessary investigation into transgenerational fandoms and intergenerational fan relationships.  Long ago, the mysterious bearers of a golden, magical jewel retreated to the Lamasery of the Winds. Many think the lamasery has been destroyed, but the truth is stranger by far. Caught between dimensions, its powers persist and grow. But

are they powers of good - or welling, insidious evil? Returning at last you his rightful kingdom, Prince Jemany faces a final conflict in his desperate battle to reunite the sacred Crystals of the Orok and defeat his rival, the anit-god Toth Vexrah. In an icy, midwinter city, ravaged by terrorism, brutal murder and impending war, Jem struggles for clues to his last, most mysterious, and most powerful prize, the searing, sun-like crystal of the sky god Adonis. Tunnel of Gold

McFarland

When Jem Coulter is caught in a miners' riot, he learns the worst: the Midas mine is no longer producing the gold the town relies on to stay alive. Will, the son of the mine's owner, tells Jem the only way to get the Midas working again is to blast deep into the ground. An exciting follow-up to *Badge of Honor* (book 1), *Tunnel of Gold* will entertain readers ages 8 to 14 with its fast-moving plot and colorful characters, and teach

them historical details about life in the post-Gold Rush days of 1860s California.

The Heir of Redclyffe tells the story of the Byronic Guy Morville, heir to the Redclyffe baronetcy, and his

cousin Philip Morville, a conceited hypocrite who enjoys an unwarrantedly high reputation. When Guy raises money to secretly pay off the debts of his blackguard uncle, Philip spreads the rumour that Guy is a reckless gambler. As a result Guy's proposed marriage to his guardian's daughter Amy is called off and he is disowned by his guardian. Guy bears the situation with a new-found Christian fortitude until the uncle clears his character, enabling him to marry Amy after all.

Out of the Garden

Harper Collins

*NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia

Loberti* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter

flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and

Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

The Heir of Redclyffe
Verso

The 1980s is remembered as a time of big hair, synthetic music, and microwave cookery. It is also remembered as the heyday of conservative politics, socioeconomic

inequality, and moral panics. It is dichotomously remembered as either a nostalgic age of innocence or a regressive moral wasteland, depending on who you ask, and when. But, most of all, it is remembered. In retro fashion trends, in '80s-based film and television narratives, and through countless rebooted movies, video games, superheroes, and even political slogans imploring us to Make America Great Again (Again). More than merely a historical period, "the '80s" has grown into a contested myth, ever-evolving through the critical and expressive lens of popular culture. This book explores the many shapes the '80s mythos has taken across a diverse array

of media. Essays examine television series such as *Stranger Things*, *Cobra Kai*, and *POSE*, films such as *Dallas Buyers Club*, *Summer of '84*, and *Chocolate Babies*, as well as video games, pop music, and toys. Collectively, these essays explore how representations of the 1980s influence the way we think about our past, our present, and our future.

The Black Rocks of Morwenstow Kregel Publications

NEW YORK TIMES BESTSELLER • The seventh book in Diana Gabaldon's acclaimed *Outlander* saga, the basis for the Starz original series. "All you've come to expect from Gabaldon . . . adventure, history, romance, fantasy."—The Arizona

Republic Jamie Fraser, former Jacobite and reluctant rebel, is already certain of three things about the American rebellion: The Americans will win, fighting on the side of victory is no guarantee of survival, and he'd rather die than have to face his illegitimate son—a young lieutenant in the British army—across the barrel of a gun. Claire Randall knows that the Americans will win, too, but not what the ultimate price may be. That price won't include Jamie's life or his happiness, though—not if she has anything to say about it. Meanwhile, in the relative safety of the twentieth century, Jamie and Claire's daughter, Brianna, and her husband, Roger

MacKenzie, have resettled in a historic Scottish home where, across a chasm of two centuries, the unfolding drama of Brianna's parents' story comes to life through Claire's letters. The fragile pages reveal Claire's love for battle-scarred Jamie Fraser and their flight from North Carolina to the high seas, where they encounter privateers and ocean battles—as Brianna and Roger search for clues not only to Claire's fate but to their own. Because the future of the MacKenzie family in the Highlands is mysteriously, irrevocably, and intimately entwined with life and death in war-torn colonial America.
