Bristol Motor Speedway: Racin' The Way It Was chronicles former race track vice president & general manager Ron Scalf's years of experience at the World's Fastest Half-Mile from 1988-1996. "Having known Ron Scalf for more than two decades, I can personally attest that "Racin' The Way It Was" is a tale honestly told. It is vividly constructed of vignettes brimming with humor, intelligence and irony that, when molded into a whole, form a memorable image of NASCAR and Bristol Motor Speedway. ---Scott Pratt, best-selling author of the Joe Dillard series.

The post-war era was British speedway's golden age. Ten million spectators passed through the turnstiles of a record number of tracks at the sport's peak. With league gates as high as 80,000, speedway offered a colourful means of escape from the grim austerity of the times. A determinedly clean image, with no betting and rival fans mingling on the terraces, made speedway the family night out of choice. The sport thrived despite punitive taxation and Government threats to close down the speedways as a threat to industrial productivity. A three-division National League stretched from Exeter to Edinburgh and the World Championship Final attracted a capacity audience to Wembley. Test matches against Australia provided yet another international dimension. Even at the height of its popularity, speedway was a sporting edifice built on unstable foundations, which crumbled alarmingly as the 1950s dawned and Britain's economic and social recovery brought competing attractions like television.

This is a pictorial scrapbook of memories of speedway between the years 1974 to 1978- a collection of photos taken by journalist and trackside photographer, Keith Lawson. The photos have been scanned from rescued negatives that had long been neglected in a box in his attic but the current trend of nostalgia for the golden age of speedway drove him to spend hundreds of hours on the task, so they could be shared and enjoyed. Anyone involved in speedway at this time, will love the trip down memory lane.

'Reg Fearman is the man who knows all of speedway's secrets ... and is prepared to reveal them. He has taken a unique, full-throttle, white-knuckle ride to the top as an international rider, a world-class team manager, a successful promoter and a formidable administrator. He has never ducked a confrontation, on or off the speedway track; he knows the glamorous and the murky side of a tough, fabulously exciting and sometimes cruel sport, and he spares no one's blushes ... not even his own' - John Chaplin, speedway's leading historian. 'From humble origins in London's East End, this is the story of how Reg Fearman became

a local hero with West Ham, the cockney giants of speedway, and went on to represent his country, first as a rider at the tender age of 17, and then as an international manager. A captivating mixture of sporting achievement, politics and business and social history, it also looks at how speedway was resurrected from the doldrums of the late 1950s and dragged into a new 'Jet Age' golden era, a time which paved the way for the heights that the sport has enjoyed in the twenty-first century as a global phenomenon. Including a plethora of untold truths, revelations and a rich treasure trove of photographs, Reg lays bare for the first time the sensational inside story of the resurrection of speedway ... warts and all!' - Dr Brian Belton, JP and author

Having arrived in Britain in the late 1920s, dirt-track racing soon established itself as an incredibly popular national sport. By the end of 1928, there were more than 50 tracks throughout Britain. Many venues were opened and run sporadically over the next seven decades, particularly during the heyday of speedway after World War II, when interest was phenomenally high. As a result, the sport has taken place at numerous locations throughout the country. Featuring more than 300 venues, this new edition is fully updated with new tracks, updated track information, and a host of new illustrations. Every track is afforded statistical information, including address, years of operation, track lengths, promoters, and club successes. The more important homes of Speedway, for example Belle Vue, Swindon, Wembley, and Coventry, all receive highly detailed synopsis.

2015 was a tumultuous year for all at The Abbey: we had to adapt our pits to the eventual loss of our away pit complex; manage when three members of the seven man squad were injured in our first meeting; enjoy watching "Rider of the Year" Greg Zengota emerge from a good 3rd heat leader into a real star, both on and off the track; welcome Darcy Ward to the team mid-season and then marvel at his amazing skills as he turned the season around for the Robins; cope with the dreadful news that emerged from Poland one Sunday afternoon that Darcy had been terribly injured in a track crash and would not ride again; manage the end of the season and playoff disappointment; resurrect the training track in the centre green and stage a junior championship round during the "Farewell" meeting; and then face up to the fact that delays would almost certainly mean that we would be racing at the old place for at least part of 2016. 330 pages, 1084 photographs and

It started on a cold, frosty morning in 1951 in Christchurch, New Zealand, with a seventeen-year-old-boy, a crate of sheep's kidneys and a dream. The boss of the city's Belfast meatworks, had arrived an hour early to set up for the day, when he noticed one of his workers packing up a crate on the countertop. The young lad was battling to move it so the boss went over to help. When asked what time he'd started, the boy replied 'Five o'clock this morning'. Stunned, and amused, the boss told him he'd be earning a good bonus at the end of the week, and wondered aloud what he'd spend it on. But the boy knew, and immediately replied, 'I'm going to race speedway in England.' And he did. That

boy was Barry Briggs, and it was just the start of his great adventure. Little did he know he was soon to become the legendary speedway racer more commonly known as Briggo, and later as Barry Briggs MBE. From dangerous encounters in the jungles of Liberia to teaching Steve McQueen to slide a speedway bike, Briggo's incredible story is one of strength, determination and a life lived firmly in the fast lane.

Leigh Adams has been one of the most successful speedway riders in the world. Having been a regular World Championship contender since 1996, he's spent over twenty years racing in the top leagues throughout Europe - winning countless individual and team honours. Leaving his family behind in Australia, teenager Adams arrived in Britain to ride for the Poole Pirates in 1989 where we made an immediate impact. He soon established himself as one of Australia's leading riders and a top-scorer for his team. Although he's raced for a variety of clubs, it's Swindon where he's regarded as a legend and he holds many club records. Famed for his professionalism and classy style, he reveals who really taught him the most during his early days, talks candidly about his clashes and rivalries with the top riders, his disputes with some of the sport's officials and the extraordinary lengths some teams go to in order to secure an advantage. From the training ground in Midura, Australia, to the glamour of the Millennium Stadium in Wales, the Australian also reflects on the triumphs, frustrations and bitter disappointment which is part and parcel of speedway racing. This remarkable biography combines Leigh's own revealing insight, with recollections from his rivals, family and team-mates to present an unrivalled account of life as an international speedway rider.

This Eddie Rickenbacker Era book is first and foremost an in-depth look of his ownership of the Indianapolis Motor Speedway from 1927-1945 and not intended to be another biography of Rickenbacker's life. A list of books of Eddie's military life or his ordeal about being lost 23 days in the South Pacific, which I highly recommend reading, follows. Throughout the book, I listed key dates and headlines in United States history, in politics, sports and entertainment, that is intended to serve as a point-of-reference timeline throughout the Eddie Rickenbacker Era. Don't cringe on certain typos—I purposely capitalize the “R” in Race in

various places as my way of showing reverence to the Indianapolis 500. Other grammar and punctuation irregularities are my humorous middle finger to those former “composition 101” profs who used so much red ink correcting my themes.

There has been an explosion in the quantity of sports history literature published in recent years, making it increasingly difficult to keep abreast of developments. The annual number of publications has increased from around 250 to 1,000 a year over the last decade. This is due in part to the fact that during the late 1980s and 90s, many clubs, leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements. It is also the result of the growing popularity and realisation of the importance of sport history research within academe. This international bibliography of books, articles, conference proceedings and essays in the English language is a one-stop for the sports historian to know what is new.
