The American Republic Berghahn Books

Written with the goal of stirring the interest and imagination of the students who will read it, the World Studies (4th ed.) student text provides a chronological narrative of world history that should reveal the hand of God at work in the nations, beginning with the birth of the Church, the rise of Islam, and a survey of nations around the world from 1,000 A.D. to the present. Carefully chosen photos, maps, art, and margin boxes enhance the student's learning experience and spark interest for further study. - Publisher.

The Living Well with Dementia Course: A Workbook for Facilitators will be an indispensable guide to providing support to people after they have received a dementia diagnosis. The workbook provides facilitators with a realistic but positive approach to helping people with dementia understand and adjust to their condition, helping them to live as well as possible. This workbook outlines the Living Well with Dementia course, a post-diagnostic course for people who have recently received a diagnosis of dementia. Its session-by-session structure, along with e-resources including handouts for course participants, will help facilitators provide a realistic but positive approach to support after a diagnosis. Aimed at facilitators, and drawing on the authors' many years of clinical and research experience, The Living Well with Dementia Course workbook will be of great assistance to healthcare professionals and support workers in many different settings, including specialist NHS dementia services, primary care services and the voluntary and community sector.

A Laboratory Manual of Classroom Activities, Demonstrations, and Minilabs for Introductory Archaeology BJU Press

Heritage Studies 1 Student Text is a colorful, easy-to-read presentation of social studies that integrates civics, culture, economics, geography, and history. Beginning with the framework of God's redemptive plan, the book includes an age-appropriate

study of civics and government and then covers United States history from Native Americans to the Plymouth Colony -- all from the perspective of a Christian worldview. The final chapter contrasts the past and the present, noting changes that have taken place in the way we live. Each chapter includes a poem, eye-catching artwork, maps, graphs, and photos, quick-check questions, and an extended hands-on activity to enhance learning. - Publisher.

Assessment of the First Year [July 1, 1974-June 30, 1975] Cinius Yayınları

With contributions Francesco Bandarin, Minja Yang and Mechthild Rössler This publication is the fourth in the Heritage Studies series and aims to reflect upon the many dimensions of sustainability and sustainable development within the Heritage Studies discourse. Sustainability as a concept and sustainable development as a goal are presented in official policies within UNESCO's understanding of heritage, in its paradigmatic reflections and in the diversity of theories and methods, including many different and sometimes conflicting understandings of sustainability within this discourse. Thus, the contributors to this publication discuss sustainability as it directly concerns the potential of different approaches to World Heritage and Intangible Heritage. The inclusion of the four dimensions of sustainability - environmental, economic, social and cultural - into the Heritage Studies discourse opens a new perspective on the discourse itself.

Experiencing Archaeology Eric Clearinghouse for Social

Today, many general-education archaeology courses are large, lecture-style class formats that present a challenge to providing students, particularly non-majors, with opportunities to learn experientially. This laboratory-style manual compiles a wide variety of uniquely designed, hands-on classroom activities to acquaint advanced high school and introductory college students to the field of archaeology. Ranging in length from five to thirty minutes, activities created by archaeologists are designed to break up traditional classroom lectures, engage students of all learning styles, and easily integrate into large classes and/or short class periods that do not easily accommodate traditional laboratory work.

In 2015, the General Assembly of State Parties to the World Heritage Convention passed a ground-breaking Sustainable Development policy that seeks to bring the World Heritage system into line with the UN's sustainable development agenda (UNESCO 2015). World Heritage and Sustainable Development provides a broad overview of the process that brought about the new policy and the implications of its enactment. The book is divided into four parts. Part I puts the policy in its historical and theoretical context, and Part II offers an analysis of the four policy dimensions on which the policy is based - environmental sustainability, inclusive social development, inclusive economic development and the fostering of peace and security. Part III presents perspectives from IUCN, ICOMOS and ICCROM - the three Advisory Bodies to the World Heritage Committee, and Part IV offers 'case study' perspectives on the practical implications of

the policy. Contributions come from a wide range of experienced heritage professionals and practitioners who offer both 'inside' perspectives on the evolution of the policy and 'outside' perspectives on its implications. Combined, they present and analyse the main ideas, debates and implications of the policy change. This book is key reading for all heritage professionals interested in developing a better understanding of the new Sustainable Development policy. It is also essential reading for scholars and students working in the area.

A Workbook for Facilitators Routledge

This second edition of 'Textile Conservator's Manual', now revised and available in paperback, provides an in-depth review of the current practice, ethics and materials used in textile conservation. Concentrating on decorative art objects from the major cultures, the book gives practical instruction and a wide variety of case histories. While the format has been simplified, the text has been expanded and updated to include changes brought about by recent developments in the conservation of material. This new information will increase the reader's ability to interpret signs of ageing and past activity on the object. New case histories in Part Two represent major investigations into the technical history. A basis is provided from which to develop practical skills, taking into account the needs of the object, its essential characteristics of appearance and, above all, its structure. The book covers a wide range of decorative objects, from a fragment of linen 4000 years old to a theatrical backcloth of the twentieth century. This book is practical and thought-provoking, not only about what is being done and how, but also why.

Textile Conservator's Manual Routledge

World Heritage Sites are some of the most recognised locations around the world. They include natural sites such as the Grand Canyon and the Great Barrier and cultural ones such as the Pyramids at Giza, the Walled City of Baku in Azerbaijan and the Historic Centre of Riga in Latvia. The responsibility to manage them successfully and ensure that the resources are not damaged by visitors, war or environment is therefore vital. *Managing World Heritage Sites* covers the management issues encountered at cultural and natural UNESCO World Heritage Sites). WHS sites are high profile and as their designation states they are unique. They are often government owned and subject to political debate, they have iconic status and are therefore crucial to national tourism

industries, and often involve a large number of stakeholders within their management structures. This text considers all of these aspects in arriving at solutions for site management principles. In 12 chapters and 5 case studies it covers issues such as WHS designation, marketing, visitor management, revenue generation and management. Each chapter will examine the management issues associated with managing heritage within the WH Sites, making clear use of management practices to apply the theory. *Managing World Heritage Sites*: Includes international case studies such as the Grand Canyon, Taj Mahal, Angkor Wat, Statue of Liberty, Yosemite National Park. Is authored by an international contributor team of well known and respected experts in this field Has a user friendly and logical structure including aims, introduction, case study, conclusion, references and websites and examples best practice. 5 specific case study chapters including a location map, an explanation of key issues, conclusion, and questions for self-study * Covers the management issues encountered at cultural and natural world heritage sites including designation, marketing, visitor management, revenue generation and management. * Illustrated with international case studies including Grand Canyon, Taj Mahal, Angkor Wat, Statue of Liberty, Yosemite National Park. * International contributor team of well known and respected experts in this field

World Heritage and Sustainable Development Routledge

"This case writing workbook offers something unique in the world of case writing manuals. The third edition of *The Case Writing Workbook: A Guide for Faculty and Students* provides eleven standalone chapters that focus specifically on challenges related to the case writing process. The book is meant for day-to-day use as a model of the case writing process, with exercises, worksheets, and training activities that will guide you through the entire course of writing both a traditional case and instructor's manual or a concise/short case and its associated teaching note. Brief explanatory notes will lead you step-by-step through all the developmental exercises, including readying the case for publication and teaching it in the classroom or online. Designed as an individualized workshop to assist case authors to structure their writing, this book combines the easy-to-understand, student-focused language with new material covering the latest developments and challenges in the world of case writing. These

include: A fresh focus on writing and teaching concise cases, which are particularly suited to the world of blended learning. Emphasis on secondary research methodology, particularly using digital technologies and social media. A new case study running throughout the book, which restructured worksheets and notes to support it. Enhanced online case teaching information and discussion of the development of multi-media cases, particularly using video. Complete instructor's materials to support the text are available online, including PowerPoint presentations, guidance on embedding cases within the curriculum, a sample syllabus that incorporates cases within it, and selected student assignment and handouts. Finishing all the book's assignments will result in a complete case and instructor's manual that can be tested in the classroom and submitted to a conference or journal. The Case Writing Workbook is a must for the shelf of any academic or student conducting qualitative research and looking to enhance their skill set, and any instructor building working with cases in their teaching"--

Living in Australia's Remote Areas and in Aboriginal Communities Routledge

Heritage is a growing area of both tourism and study, with World Heritage Site designations increasing year-on-year. This book reviews the important interrelations between the industry, local communities and conservation work, bringing together the various opportunities and challenges for different destinations. World Heritage status is a strong marketing brand, and proper heritage management and effective conservation are vital, but this tourism must also be developed and managed appropriately if it is to benefit a site. As many sites are located in residential areas, their interaction with the local community must also be carefully considered. This book: - Reviews new areas of development such as Historic Urban Landscapes, Intangible Cultural Heritage, Memory of the World and Global Geoparks. - Includes global case studies to relate theory to practice. - Covers a worldwide industry of over 1,000 cultural and natural heritage sites. An important read for academics, researchers and students of heritage studies, cultural studies and tourism, this book is also a useful resource for professionals working in conservation, cultural and natural heritage management.

Managing World Heritage Sites Walter de Gruyter GmbH & Co KG

Trans Dilemmas presents the findings of a three-year research project which examined the lived experiences of trans people in Australia's Northern Territory. The book argues that whilst trans people, who live in remote areas, experience issues which may not be distinct from those living in urban areas and the inner-city, these issues can be aggravated by geographic and demographic factors. By conducting online surveys and in-depth interviews, Stephen Kerry brings to light the issues for transgender people which are compounded by living in sparsely populated, remote communities. Namely social isolation, maintaining relationships with friends, family and partners, and the difficulties accessing health care. The book also includes significant findings on the experiences and treatment of Australia's trans Aboriginal people, also known as sistergirls and brotherboys. An analysis of first-person narratives by sistergirls and brotherboys reveals the racism within predominantly white trans communities and transphobia within traditional Aboriginal communities, which they are uniquely faced with. Trans Dilemmas represents an important contribution to contemporary research into the lives of transgender Australians. It gives a voice to those transgender people living in the more isolated communities in Australia, which up until now, have been largely unheard. For students and researchers in Queer Studies and Gender Studies, this is valuable reading.

Resources in Education IGI Global

Selected materials produced by Title IX Ethnic Heritage Studies Program projects, funded from 1974 through 1978, are evaluated in this catalog. The materials were selected by three panels of evaluators using three areas of criteria: (1) appropriateness for use in learning situations; (2) ethnic authenticity of content, and (3) technical quality for potential dissemination. An introduction describes the purpose of the evaluation project, development of evaluation instruments, selection of panelists who evaluated materials, and process and results of the evaluation. One hundred and two projects (comprised of 438 pieces of materials) are evaluated. These evaluations are organized by state or territory and, within each state or territory, by the institution that received the grant. Headings for each entry include information on the project title and address, name of project director, ethnic group or groups on which the project focused, audience and grade level for the project, the project's subject (curricular) area, the format of

the materials developed (i.e., print or nonprint), the amount of funding, the titles of materials accepted, and availability information for each piece of material. The heading information is followed by a description of the project materials. The final and major portion of the entry for each project presents evaluative comments and suggestions made by members of the three panels. Four indexes facilitate use of the analyses--ethnic group, geographic area, subject area, and materials titles. Appendices include evaluation instruments and a list of Ethnic Studies projects. (Author/NE)

Heritage Studies Routledge

The Primary STEM Ideas Book is designed to promote the integrated teaching of STEM in the primary classroom by providing teachers with lesson ideas for investigations and projects. The statutory requirements of the National Curriculum for science, mathematics and design and technology are comprehensively covered through a variety of practical, stimulating and engaging activities, which have all been tried and tested in the primary classroom. The interrelationship between the STEM subjects is strongly integrated throughout, allowing children's knowledge and skills to develop with confidence in these key subjects through activities which only require easily accessible resources generally found in the classroom. Written by subject specialists with years of classroom experience teaching STEM, each chapter contains: A rationale showing links to the National Curriculum Key subject knowledge Brief session plans Ideas for supporting higher and lower attaining children Follow up ideas to provide extra inspiration Including 'how to' guides and other photocopiable resources, this book is perfect for creating integrated lessons, group work and discussions relating to STEM. The Primary STEM Ideas Book provides easy to follow instructions and helps spark fresh inspiration for both new and experienced teachers in primary STEM education.

Trans Dilemmas Routledge

Science 5 Student Text, 4th ed. helps the student develop a biblical worldview as it relates to science concepts. The course focuses on minerals and rocks, fossils, matter and heat, sound and light, weather, biomes, ecosystems, and the respiratory and circulatory systems. Throughout the course, the student will have opportunities to develop his science process skills as he participates in hands-on activities and projects. The student will

also learn how to view science from a biblical perspective through the worldview-shaping lesson from Answers in Genesis that is included with each chapter. - Publisher.

1976: July-December Routledge

Chinese Heritage Sites and their Audiences provides a Chinese perspective on tourists' relationship to heritage. Contributing to ongoing debates within heritage and tourism studies, the book offers insights into how and why visitors engage with such sites. Drawing on interviews with domestic tourists, local residents and heritage officials at the World Heritage sites of West Lake, Xidi and Hongcun, Zhang argues that tourists have agency: when they visit heritage sites, they are doing cultural, social and emotional work, whilst also negotiating cultural meanings. Providing an examination of the complex interactions between locals and tourists, the author then considers how tourists navigate and interpret heritage sites. Finally, Zhang examines whether the government or locally controlled tourism enterprises are more effective in facilitating meaningful cultural interaction between tourists and locals. Overall, the book demonstrates the interrelation between tourism and heritage, and the tensions that are created when the ways in which sites are used differ from the expectations of UNESCO and national or regional site managers. Chinese Heritage Sites and their Audiences pays particular attention to ongoing debates about heritage performances, the importance of emotions and the agency of tourists, and will thus appeal to academics and students engaged in the study of heritage, tourism, landscape architecture and anthropology.

Climate change adaptation for natural World Heritage sites: a practical guide UNESCO

Heritage Studies 1

The UNESCO Training Manual for the Protection of the Underwater Cultural Heritage in Latin America and the Caribbean Pearson College Division

Heritage is all around us, not just in monuments and museums, but in places that matter, in the countryside and in collections and stories. It touches all of us. How do we decide what to preserve? How do we make the case for heritage when there are so many other priorities? Playing with the Past is the first ever action-learning book about heritage. Over eighty creative activities and games encompass the basics of heritage practice, from management and decisionmaking to community

engagement and leadership. Although designed to ‘train the trainers’, the activities in the book are relevant to anyone involved in caring for heritage.
