The World Almanac and Book of Facts Fern Michaels' Godmothers Bundle: The Scoop, Exclusive, Late Edition, Deadline & Breaking News

Beloved New York Times bestselling author Fern Michaels sweeps readers from war-torn France to the dawn of Hollywood's golden age in this spellbinding novel of love and deception. . . When Reuben Tarz meets Marchioness Michelene Fonsard, known as Madame Mickey, he is a wounded American soldier desperate to escape the hell of the French trenches. Madame Mickey offers another option—for Reuben and his best friend, Daniel Bishop, to live at her lavish chateau, where she will help them heal in body and soul. Madame Mickey's sophistication captivates the ambitious Reuben, and their affair is as tender as it is sensual. Then Mickey's young niece, Bebe Rosen, arrives from California, scattering chaos in her wake. Bebe is instantly smitten with Reuben—and what Bebe wants, she gets. But every wish has consequences, and every sin has its price. And amid a tangle of seduction and betrayal, each will find a love powerful enough to change a life—or to destroy it. . . "Well-drawn characters. . . beautifully executed."--Affaire de Coeur

Why? Sarah Crichton Books

From New York Times bestselling author Kasey Michaels comes an engaging Regency romance.

Pleased to meet you ... Immediate attraction. Instant love. Strangers one moment, lovers the next. Possible, or only a romantic dream? Adam Dagenham, Marquis of Daventry, can barely believe his good fortune when he meets, woos, and hastily weds the beautiful and irresistible Sherry Victor. But can such a hasty union last when outside forces plant seeds of mistrust in a groom's head? How does a woman prove herself innocent when she doesn't know how or why she's been branded as guilty? Yes, the devil can be in the details, even in love and marriage... and as Adam and Sherry find out, the only way to beat this particular devil is by learning that trust and love go hand-in-hand. Are they up to the battle? ... hope you guess my name.

This book discusses unique ion channels and transporters that are located within epithelial tissues of various organs including the kidney, intestine, pancreas and respiratory tract. The authors will show, that each of these channels and transporters play crucial roles in transepithelial ion and fluid transport across epithelia and their responsibility in maintaining homeostasis. The reader gains an understanding of the fundamentals of epithelial ion transport, in terms of function, modelling, regulation, trafficking, structure and pharmacology. This is the third of three volumes highlighting the importance of epithelial ion channels and transporters in basic physiology and pathophysiology of human diseases. The focus of this volume lies with different ion channel and transporter families. Additionally, this volume benefits from pharmaceutical contributors and their insights into recent pre-clinical drug discovery efforts and results from clinical trials. Overall, these chapters offer a more thorough coverage of individual epithelial ion channels and transporters from the 1st Edition, along with eleven new chapters. That makes Volume 3 an insightful contribution for physiology students,

scientists and clinicians.

No matter how many times female comedians buck the conventional wisdom, people continue to ask: "Are women funny?" The question has been nagging at women off and on (mostly on) for the past sixty years. It's incendiary, much discussed, and, as proven in Yael Kohen's fascinating oral history, totally wrongheaded. In *We Killed*, Kohen pieces together the revolution that happened to (and by) women in American comedy, gathering the country's most prominent comediennes and the writers, producers, nightclub owners, and colleagues who revolved around them. She starts in the 1950s, when comic success meant ridiculing and desexualizing yourself; when Joan Rivers and Phyllis Diller emerged as America's favorite frustrated ladies; when the joke was always on them. Kohen brings us into the sixties and seventies, when the appearance of smart, edgy comedians (Elaine May, Lily Tomlin) and the women's movement brought a new wave of radicals: the women of SNL, tough-ass stand-ups, and a more independent breed on TV (Mary Tyler Moore and her sisters). There were battles to fight and preconceptions to shake before we could arrive in a world in which women like Chelsea Handler, Sarah Silverman, and Tina Fey can be smart, attractive, sexually confident—and, most of all, flat-out funny. As the more than 150 people interviewed for this riveting oral history make clear, women have always been funny. It's just that every success has been called an exception and every failure an example of the rule. And as each generation of women has developed its own style of comedy, the coups of the previous era are washed away and a new set of challenges arises. But the result is the same: They kill. A chorus of creative voices and hilarious storytelling, *We Killed* is essential cultural and social history, and—as it should be!—great entertainment.

Corporate Explorers Transform Disruption Into Opportunity With This Proven Framework Innovation used to be seen as a game best left to entrepreneurs, but now a new breed of corporate managers is flipping this logic on its head. These Corporate Explorers have the insight, resilience, and discipline to overcome the obstacles and build new ventures from inside even the largest organizations. Corporate Explorers are part entrepreneurs, using innovation disciplines to jump start cutting-edge ideas, and part change leaders, capable of creating support for investment. They see that corporations already own the ideas, resources, and—critically—the talent to build new ventures. Companies like Amazon, Microsoft, Bosch, LexisNexis, and Analog Devices enable managers to put these assets to use and gain an upper hand over startups that threaten to disrupt them. Corporate Explorer is a guidebook to the practices that enable these managers to go from idea into action. It demonstrates how success is not only possible but may offer entrenched companies better odds than venture-capital backed startups. This actionable and proven framework explains how managers can become successful corporate innovators; it includes tools to: Learn how to apply innovation practices with greater discipline Turn great ideas into a full-time job as an innovation leader

Experiment with and scale original business models Transform innovation programs into a thriving source of new business Attract, retain, and motivate entrepreneurial talent Energize employees by creating a realistic way to innovate These lessons come from the trailblazers of corporate innovation—Andrew Binns (Change Logic), Charles O'Reilly (Stanford Graduate School of Business), and Michael Tushman (Harvard Business School)—who have decades of experience helping entrepreneurial-minded executives activate employees to become Corporate Explorers. Entrepreneurs take notice—it's time for Corporate Explorers to set the pace and chart the course for disruption.

Phenomenology, Materiality, Cybernetics, Palimpsest, Cyborgs, Landscape Urbanism, Typology, Semiotics, Deconstruction - the minefield of theoretical ideas that students must navigate today can be utterly confusing, and how do these theories translate to the design studio? Landscape Theory in Design introduces theoretical ideas to students without the use of jargon or an assumption of extensive knowledge in other fields, and in doing so, links these ideas to the processes of design. In five thematic chapters Susan Herrington explains: the theoretic groundings of the theory of philosophy, why it matters to design, an example of the theory in a work of landscape architecture from the twentieth and twenty-first centuries, debates surrounding the theory (particularly as they elaborate modern and postmodern thought) and primary readings that can be read as companions to her text. An extensive glossary of theoretical terms also adds a vital contribution to students' comprehension of theories relevant to the design of landscapes and gardens. Covering the design of over 40 landscape architects, architects, and designers in 111 distinct projects from 20 different countries, Landscape Theory in Design is essential reading for any student of the landscape.

The Simpsons, Satire, and American Culture Harvest House Publishers

For almost thirty years, David Thomson's Biographical Dictionary of Film has been not merely "the finest reference book ever written about movies" (Graham Fuller, Interview), not merely the "desert island book" of art critic David Sylvester, not merely "a great, crazy masterpiece" (Geoff Dyer, The Guardian), but also "fiendishly seductive" (Greil Marcus, Rolling Stone). This new edition updates the older entries and adds 30 new ones: Darren Aronofsky, Emmanuelle Beart, Jerry Bruckheimer, Larry Clark, Jennifer Connelly, Chris Cooper, Sofia Coppola, Alfonso Cuaron, Richard Curtis, Sir Richard Eyre, Sir Michael Gambon, Christopher Guest, Alejandro Gonzalez Inarritu, Spike Jonze, Wong Kar-Wai, Laura Linney, Tobey Maguire, Michael Moore, Samantha Morton, Mike Myers, Christopher Nolan, Dennis Price, Adam Sandler, Kevin Smith, Kiefer Sutherland, Charlize Theron, Larry Wachowski and Andy Wachowski, Lew Wasserman, Naomi Watts, and Ray Winstone. In all, the book includes more than 1300 entries, some of them just a pungent paragraph, some of them several thousand words long. In addition to the new "musts," Thomson has added key figures from film history—lively anatomies of Graham Greene, Eddie Cantor, Pauline Kael, Abbott and Costello, Noël Coward, Hoagy Carmichael, Dorothy Gish, Rin Tin Tin, and more. Here is a great, rare book, one that encompasses the chaos of art, entertainment, money, vulgarity, and nonsense that we call the movies. Personal, opinionated, funny, daring, provocative, and passionate, it is the one book that every filmmaker and film buff must own. Time Out named it one of the ten best books of the 1990s. Gavin Lambert recognized it as "a work of imagination in its own right." Now better than ever—a masterwork by the man playwright David Hare called "the most stimulating and thoughtful film critic now writing."

The Siberian sturgeon, *Acipenser baerii* Brandt 1869 is the most widely farmed sturgeon species. Continuing from Volume 1, which focuses on the biology of the species, the present Volume 2 in turn examines farming aspects. It is divided into six parts, the first of which deals with reproduction and early ontogenesis, i.e. reproductive cycles, controlled reproduction, sperm cryoconservation, and weaning of larvae. The second covers the growing phase with a focus on food and feeding (management, fish meal replacement, potential endocrine disruptions, usefulness of prebiotics and immunostimulants, and nitrogen excretion). Production-related data are the focus of the third part and include: characteristics (countries, structures of production, evolution in production, economic features) of the gross production of the species (meat and caviar) worldwide, a method for assessing the quality of caviars, off-flavors management, and an example of production of fingerlings for restocking. Part four addresses selected long-term management issues: genetic variability of brood stocks, genome manipulation and sex control, and the advantages of hybrids. The next three chapters constitute the fifth part, which is devoted to health status (immunology and welfare). In closing, the absence of ecological risks of introducing the species in non-native waters is shown using two long-term documented examples (Russia and France). Three methodological chapters round out the volume, covering: in vitro incubation of ovarian follicles, a richly illustrated library of echographies and photos, and a detailed presentation of oxygen demand studies.

Acclaimed author Michael Grant delivers a stunning follow-up to the globally bestselling *Gone* series—perfect for fans of Stephen King's suspenseful writing. It's been four years since a meteor hit Perdido Beach and everyone disappeared. Everyone, except the kids trapped in the FAYZ—an invisible dome that was created by an alien virus. Inside the FAYZ, animals began to mutate and teens developed dangerous powers. The terrifying new world was plagued with hunger, lies, and fear of the unknown. Now the dome is gone and meteors are hitting earth with an even deadlier virus. Humans will mutate into monsters and the whole world will be exposed. As some teens begin to morph into heroes, they will find that others have become dangerously out of control...and that the world is on the brink of a monstrous battle between good and evil. Praise for the *Gone* series: "Exciting, high-tension stories. I love these books." —Stephen King "Intense, marvelously plotted, paced, and characterized." —ALA Booklist (starred review)

You have to remember, he reminded me, that Harvard is older than the U.S. government. You have to remember because Harvard doesn't let you forget. 1969: the height of counterculture and the year universities would seek to curb the unruly spectacle of student protest; the winter that Harvard University would begin the tumultuous process of merging with Radcliffe, its all-female sister school; and the year that Jane Britton, an ambitious twenty-three-year-old graduate student in Harvard's Anthropology Department and daughter of Radcliffe Vice President J. Boyd Britton, would be found bludgeoned to death in her Cambridge, Massachusetts apartment. Forty years later, Becky Cooper a curious undergrad, will hear the first whispers of the story. In the first telling the body was nameless. The story was this: a Harvard student had had an affair with her professor, and the professor had murdered her in the Peabody Museum of Archaeology and Ethnology because she'd threatened to talk about the affair. Though the rumor proves false, the story that unfolds, one that Cooper will follow for ten years, is even more complex: a tale of gender inequality in academia, a 'cowboy culture' among empowered male elites, the silencing effect of institutions, and our compulsion to rewrite the stories of female victims. *We Keep the Dead Close* is a memoir of mirrors, misogyny, and murder. It is at once a rumination on the violence and oppression that rules our revered institutions, a ghost story reflecting one young woman's past onto another's present, and a love story for a girl who was lost to history.
