This book is a pioneering work presenting Christian themes in Indian art from the beginnings of Christianity in India till today. The authors have, in the main, dealt with paintings and sculptures, but have supplemented this with one chapter on architecture, particularly that of church buildings, and one on popular art, including stamps. Over 1,100 rare coloured illustrations make this publication a unique reference book. It is the first complex treatment of the theme done in the last 25 years. Special emphasis is given to artists who as Hindus, Muslims and Parsees have chosen to paint Biblical themes. Already in the 16th century the encouraging and surprising encounter between European Christian prints and Indian miniature paintings took place. The Muslim Emperor Akbar invited three Jesuit missions from Goa to the Mogul court. Fascinated by European Madonnas and engravings, especially with Christian themes, he ordered his paintings to copy them in various ways. This was the start of a revolutionary fusion in Indian miniatures. *The Order for the Visitation of the Sick* Peter Owen Publishers

Godavari is a novel based in India during the period of the 1980s. The story focuses on a week spent in a holiday resort in Maharashtra just prior to the outbreak of communal riots in cities across India. Ma, who is the mother in the family of five vacationing at the hill resort, is an educated, sensitive, middle-aged woman who constantly seeks to understand people and events through the prism of history. Ma tries hard to enjoy the vacation but is unable to do so due to her anxiety over her children as well as over her

husband's flirtations with the young Worli woman, Usha who looks after the villa and the family when they are there. Ma is fascinated with the ethnicity of the Worlis, who are low caste tribal people populating the hills and valleys around the hill station. Her conversations with Usha and her father reveal the depth of oppression and indignity that these people suffer not least because they are poor, but because of the rigid caste system among Hindus. Ma learns of how the Worli's face their oppressors and seek redemption by protesting for higher wages spurred on by Godavari, the almost mythical mother figure who is, in fact, a political worker but is seen by the Worlis as a goddess. Communal riots break out in some cities and the family, fearing for their safety, leaves the resort and goes back to Mumbai. Here Ma meets up with an old family friend who is a film director and another who is a character actor. She seeks to understand the roots of the riots through them. She also goes to a Mumbai tenement housing complex with a boy from a militant political organization whom she had met at the resort. Through him Ma begins to comprehend the reality of the unhappy situation: that the parties to the conflict do not really understand each other's religious practices and communal leaders play on the obvious weaknesses of the other for their own ends. Ma's relationship with her family and specifically her husband leaves her bereft. She feels unable to reconcile her own feelings with the reality of society, history, communality, and indeed, of growing old. The terrain of the resort is portrayed vividly as are the people who live there. Usha's character is charming and strong. The brutality borne by the lower castes is the subtext of the novel. Indeed, the novel reveals that although discrimination exists on so many levels, people seek and find hope through the act of confronting prejudices intellectually, as in the case of Ma, and by organizing and protesting as in the case of the Worlis.

Iblees ki Majlis-e-Shoora is a conversation between Iblees (the devil) and the five members of his advisory council. It is one of the final works of Allama Iqbal. The work consists of 64 amazingly dramatized, well composed couplets. Here, Iblees presides over the clandestine session and leads the conversation. He boasts how successfully he has misled Mankind throughout history by introducing ideas and doctrines such as Imperialism, Capitalism, Fascism etc., which have ultimately landed the human society in ruins. His advisers point towards a few emerging trends such as Western democracy and Marxism that they saw as potential threats to the evil regime of Iblees. Summarily dismissing all these apprehensions of his advisers, Iblees concludes, that the revolutionary spirit of Islam is the greatest threat to his evil empire and hence the most crucial task ahead was to stop the waves of Muslim resurgence. He instructs them to keep the followers of Islam totally preoccupied with vain spiritual rituals, complex philosophical debates and narrow theological intricacies. Allama Iqbal, an advocate of universal human fraternity, envisaged the revival of the original Islamic civilization, globally. His works, exposed the limitations of the socio-political and economic concepts introduced by the West.

The study of South Asian Art requires not only expert knowledge of an art historian, but also sound philological proficiency and cultural competence of an Indologist. This calls for a close co-operation of specialists in both fields. The present volume of interdisciplinary character is just this: a solid exemplification of this vital principle. The volume presents a collection of stimulating and inspiring papers linked by a common theme which incorporates various aspects of art, religion, myths, parables, symbols, literature and visual culture of the region of South Asia. The researchers interests go, in certain aspects, far beyond the geographical boundaries of South Asia and reach out to South-East Asia and even to Europe and Far East, revealing close cultural linkages and influences. The collection offers an entirely new material which explores a range of important motives and themes concerned with the art and visual culture of the region of South Asia, and partially with South-East Asia. The authors examine a wide range of aspects of South Asian art, including sculpture, painting and decorative art, related to religious practice, temple consecration rituals, mythology and cult, eroticism, politics and power as well as the history and spread of artistic and mythological motives from South Asia to other parts of the world.

Iqbal's Poetry Test Prep Books
 Published ahead of Paul Scott's *Raj Quartet* and long before *Midnight's Children*, Abdullah Hussein's ambitious saga of social struggle *The Weary Generations* was a bestseller in Urdu. Published in 1963 and now beyond its 40th edition, it has never been out of print. A vivid depiction of the widespread disillusionment and seismic upheavals of the Partition era that lead to the creation of Pakistan and Bangladesh, there has never been a more opportune time to discover one of the most important writings about the post-colonial trauma in the region. Naim, son of a peasant, marries Azra, the daughter of a rich landowner. Fighting for the British during World War I he loses an arm. Invalided home, he becomes angered at the subjugation of his countrymen under the Raj and aligns himself with the opposition. His ideals are swept away after Independence in 1947 when he realizes that, as Muslims, his family is no longer safe in their Indian home and that they must migrate to the newly created Pakistan. Regarded as one of the half-

dozen most influential novels dealing with Partition or post-colonial malaise, this is an immensely powerful novel in its own right and is essential reading for English language readers seeking to comprehend the historical origins of the tensions in the Indian subcontinent.

Real Magic Zondervan

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

 Evil Eye, Jinn Possession, and Mental Health Issues raises awareness of the cultural considerations, religion and spirituality involved in the assessment of Muslim patients with mental health problems. The belief that Jinn spirits can cause mental illness in humans through affliction or possession is widely accepted among Muslims, meaning this belief is a crucial, but frequently overlooked, aspect of mental health problems with Muslim patients in psychiatric care. This book explores the nature of such beliefs, their relationship to mental health and the reasons for their importance in clinical practice. The book argues that it is vital to consider mental disorders as a multifactorial affair, in which spiritual, social, psychological and physical factors may all play a role. It suggests differential diagnostic skills may have an important part to play in offering help to those who believe their problems are caused by possession, and provides accessible literature on clinical issues and practice, interventions, management and evidence-based practice to help health workers achieve a better understanding of Muslim beliefs about possession and how to work with patients that hold such beliefs. Evil Eye, Jinn Possession, and Mental Health Issues is an essential manual for mental health professionals, social workers and

psychologists. It should also be of interest to academics and students in the healthcare sciences.

Call of the Marching Bell Routledge
 He came to the Honey Garden looking for Cyrion. He was a man in grave danger, convinced only one man alive could help him. A man he had heard about in song and story. A man practically everyone knew something about. A man he had never met. CYRION Some said he was the stolen son of a western king, raised by nomads in the desert. A freelance swordsman, a sorcerer, a master of disguise, some said he attracted bizarre, uncanny events as some persons attract misfortune. He with hair like the sky of earnest sunrise, his fair complexion, his whiplash reactions and quicksilver elegance was like a being from another world. A legend. A myth. But was he real?

And was he for hire?

Originally published as "The Instruction of Ptah-Hotep" and also as "The Maxims of Ptahhotep," the work is believed by some scholars to be the oldest book in the world. Authorship is attributed to Ptahhotep, a vizier under King Isesi of the Egyptian Fifth Dynasty (ca. 2414-2375 BC). It is a collection of maxims and advice in the sebayt ("teaching") genre on human relations and are provided as instruction for his son. The work survives today in papyrus copies, including the Prisse Papyrus which dates from the Middle Kingdom and is on display at the Bibliotheque Nationale in Paris. There are considerable differences between the Prisse Papyrus version and the two texts at the British Museum. The 1906 translation by Battiscombe Gunn, published as part of the "Wisdom of the East" series and which is reprinted here, was made directly from the Prisse Papyrus, in Paris, rather than from copies. Some lessons include: Learning by listening to everybody and knowing that human knowledge is never perfect are a leitmotif. Avoiding open conflict wherever possible should not be considered weakness. Justice should be pursued and in the end it will be a god's command that prevails. Greed is the base of all evil and should be guarded against, while generosity towards family and friends is praiseworthy."
