Perspectives on Discourse Analysis: Theory and Practice provides the student/reader with the basic theoretical knowledge and the empirical tools of some of the most relevant approaches to the analysis of discourse. It has been mainly conceived of as a general (university) course on Discourse Analysis, but it can also be useful for any person or group whose

main concern is to acquire the basic necessary knowledge and skills for analyzing any type of discourse. The subject matter of the book could not only be of use for linguists or prospective linguists: given its interdisciplinary character, its findings can be (and in fact are) used and applied by practitioners and scholars from different fields, such as sociology, psychology, medical science, computer science, and so on. Thus the book can be used by any person who, having certain linguistic knowledge, is interested in exploring the fascinating world of discourse. All the chapters contain both a theoretical and an empirical section, the latter containing examples of analysis, as well as exercises (Practice) and self-evaluation questions, whose answers can be found at the end of the book (in the Practice key and Key to self-evaluation questions sections). The book is divided into 12 chapters. The first two introduce basic information about discourse analysis and text linguistics, as well as the necessary techniques

for gathering data, including a very brief introduction to corpus linguistics. Chapters 3-11 present and discuss some of the most prominent and well-known approaches to discourse analysis, namely Pragmatics, Interactional Sociolinguistics, Conversation Analysis, The Ethnography of Communication, Variation Analysis and Narrative Analysis, Functional Sentence Perspective, Post-Structuralist Theory and Social Theory, Critical Discourse Analysis and Positive Discourse Analysis, and Mediated Discourse Analysis. Finally, Chapter 12 deals with crucial and further issues, such as the type of discourse chosen for the analysis, the strategies and functions of discourse, or the problem of choosing an appropriate unit of analysis which will suit the aims of research. *Perspectives on Discourse Analysis: Theory and Practice* may prove of value to all those who are professionally involved in the area of discourse and pragmatic studies, or simply to those who wish to acquire the necessary basic knowledge and techniques for analyzing any type of discourse,

from medical, journalistic or political discourse to computer-mediated, humoristic, or hegemonic discourse (where the use and abuse of power is an important issue), just to name a few of the innumerable possibilities. A desirable and intended effect of this book is also the development of an open and tolerant mind, which will eventually lead to a better understanding of the different and varied manifestations of language, culture and communication in human society. *The Empire Writes Back* Springer Science & Business Media In this challenging book, Firdous Azim, provides a feminist critique of orthodox accounts of the 'rise of the novel' and exposes the underlying orientalist assumptions of the early English novel. Whereas previous studies have emphasized the universality of the coherent and consistent subject which found expression in the novels of the eighteenth century, Azim demonstrates how certain categories: women and people of colour, were silenced and excluded. *The Colonial Rise of the Novel* makes an important and provocative contribution

to post-colonial and feminist criticism. It will be essential reading for all teachers and students of English literature, women's studies, and post-colonial criticism. *Critical Theory Today* Transcript Publishing Born and raised in Kashmir, Agha Shahid Ali (1949–2001) came to the United States in the mid-1970s to pursue graduate study in literature; by the mid-1980s, he had begun to establish himself as one of the most important American poets of the late 20th century. *Mad Heart Be Brave: On the Poetry of Agha Shahid Ali* is the first comprehensive examination of all stages of his career, from his earliest work published in India but never reissued in the U.S., through his seven poetry volumes from American publishers, ultimately collected as *The Veiled Suite*. The essays, written by a range of poets and scholars, many of whom knew and studied with Ali, consider his early free verse poetry; his transition into writing more formalist poetry; his correspondence with poets Anthony Hecht and James Merrill; his literary engagement with the political realities of

contemporary Kashmir; his teaching and mentorship of young poets; and Ali's championing of the ghazal, a traditional Eastern poetic form, in English. Some essays have a predominantly scholarly focus, while others are more personal in their tone and content. All exhibit a deep appreciation for Ali's life and work. Contributors to this volume include Sejal Shah, Rita Banerjee, Amanda Golden, Ravi Shankar, Abin Chakraborty, Amy Newman, Christopher Merrill, Jason Schneiderman, Stephen Burt, Raza Ali Hassan, Syed Humayoun, Feroz Rather, Dur e Aziz Amna, Mihaela Moscaliuc, Reginald Dwayne Betts, Mahwash Shoaib, Shadab Zeest Hashmi, Grace Schulman, and Ada Limón. *Mad Heart Be Brave* closes with a long biographical sketch and elegy by Agha Shahid Ali's friend Amitav Ghosh and a comprehensive bibliography assembled by scholar Patricia O'Neill with Reid Larson.

The concepts of 'youth' and the 'postcolonial' both inhabit a liminal locus where new ways of being

in the world are rehearsed and struggle for recognition against the impositions of dominant power structures. Departing from this premise, the present volume focuses on the experience of postcolonial youngsters in contemporary Britain as rendered in fiction, thus envisioning the postcolonial as a site of fruitful and potentially transformative friction between different identity variables or sociocultural interpellations. In so doing, this volume provides varied evidence of the ability of literature—and of the short story genre, in particular—to represent and swiftly respond to a rapidly changing world as well as to the new sociocultural realities and conflicts affecting our current global order and the generations to come. Contributors are: Isabel M. Andrés-Cuevas, Isabel Carrera-Suárez, Claire Chambers, Blanka Grzegorzcyk, Bettina Jansen, Indrani Karmakar, Carmen Lara-Rallo, Laura María Lojo-Rodríguez, Noemí Pereira-Ares, Gérald Préher, Susanne Reichl, Carla Rodríguez-González, Jorge Sacido-Romero, Karima Thomas

Introduction 1.1. Brief introduction to home and belonging as a general idea Home has a significant function in our lives. Thinking of home we associate notions like shelter and comfort and when we come home we want to feel safe and welcome. John McLeod argues in this sense that "to be 'at home' is to occupy a location where we are welcome, where we can be with people very much like ourselves."¹ We are looking for who we are, where we come from and try to find our place in life. When one is born in a country but moves to another where is one's home country then? This question is hard to answer, because migration is always a process which implies a struggle of identities. When the 2nd generation is born in the host country- where do they

belong if the host country does not accept them as full members? The term home is highly complicated in a complex and multicultural world like ours. 1.2. Procedure and approach of my analyses I have centered my term paper on an attempt to identify and characterize the concepts of home and belonging in postcolonial literature. Comparing how the idea of home and belonging is presented in the novels *White Teeth* by Zadie Smith and *Small Island* by Andrea Levy, I have tried a text- extrinsic approach. Furthermore, I have analysed the authors' intentions with regard to the time of publication and the time of the narrative. However, the main aspect of my analyses is which concepts of home and belonging exist and which of them can be found in the novels of my comparison. I have chosen *White Teeth* because it is a novel that deals with the colonial past and the postcolonial present and I have selected *Small Island* because it is a novel that deals with migration in the past. *Small Island* is set at the beginnin

Feature Films in English Language Teaching deals with the use of motion pictures in the advanced EFL (English as a foreign language) classroom. It provides a general introduction to film literacy and explains the rationale, methods, and objectives of working with feature films. In addition, the book contains in-depth considerations on sixteen selected films, which are grouped regionally (Australia, New Zealand, South Africa, USA, Great Britain). Each chapter describes the topical focus of the film and its central theme and provides background information on social, historical, political, and geographical issues. A profound analysis of selected scenes lays the foundation for

considerations on the teaching potential of the film. In a download section, the chapters are complemented with ready-to-use teaching materials on film-specific aspects (narrative, dramatic and cinematographic dimensions), which are organised as pre-/while-/post-viewing activities. A glossary on technical terms for film analysis completes the volume. *The Colonial Rise of the Novel* W. W. Norton & Company

Can Scotland be considered an English colony? Is its experience and literature comparable to that of overseas postcolonial countries? Or are such comparisons no more than patriotic victimology to mask Scottish complicity in the British Empire and justify nationalism? These questions have been heatedly debated in recent years, especially in the run-up to the 2014 referendum on independence, and remain topical amid continuing campaigns for more autonomy and calls for a post-Brexit "indyref2." *Gaelic Scotland in the Colonial Imagination* offers a general introduction to the emerging field of postcolonial Scottish studies, assessing both its potential and limitations in order to promote further interdisciplinary dialogue. Accessible to readers from various backgrounds, the book

combines overviews of theoretical, social, and cultural contexts with detailed case studies of literary and nonliterary texts. The main focus is on internal divisions between the anglophone Lowlands and traditionally Gaelic Highlands, which also play a crucial role in Scottish-English relations. Silke Stroh shows how the image of Scotland's Gaelic margins changed under the influence of two simultaneous developments: the emergence of the modern nation-state and the rise of overseas colonialism.

Australian Made
University of Michigan Press

Australian Made is a collection of essays about the writers, the readers and the texts of multicultural Australia. Presenting the work of critics and scholars from both Australia and abroad, this collection creates a synergy between local and international perspectives as it explores what it means for a writer or a reader to be 'Australian' and a text to be 'Australian made'. *Genre in a Changing World* Routledge
In a globalized neo-colonial world an insidious and often debilitating crisis of knowledge not

only continues to undermine the quality of research produced by scholars but to also perpetuate a neo-colonial and oppressive socio-cultural, political economic, and educational system. The lack of attention such issues receive in pedagogical institutions around the world undermines the value of education and its role as a force of social justice. In this context these knowledge issues become a central concern of critical pedagogy. As a mode of education that is dedicated to a rigorous form of knowledge work, teachers and students as knowledge producers, anti-oppressive educational and social practices, and diverse perspectives from multiple social locations, critical pedagogy views dominant knowledge policies as a direct assault on its goals. *Knowledge and Critical Pedagogy: An Introduction* takes scholars through a critical review of the issues facing researchers and educators in the last years of the first decade of the twenty-first century. Refusing to assume the reader's familiarity with such issues but concurrently rebuffing the

tendency to dumb down such complex issues, the book serves as an excellent introduction to one of the most important and complicated issues of our time.

NATIONAL BESTSELLER •

The blockbuster debut novel from "a preternaturally gifted" writer (The New York Times) and author of *On Beauty* and *Swing Time*—set against London's racial and cultural tapestry, reveling in the ecstatic hodgepodge of modern life, flirting with disaster, and embracing the comedy of daily existence. Zadie Smith's dazzling debut caught

critics grasping for comparisons and deciding on everyone from Charles Dickens to Salman Rushdie to John Irving and Martin Amis. But the truth is that Zadie Smith's voice is remarkably, fluently, and altogether wonderfully her own. At the center of this invigorating novel are two unlikely friends, Archie Jones and Samad Iqbal. Hapless veterans of World War II, Archie and Samad and their families become agents of England's irrevocable transformation. A second marriage to Clara Bowden, a beautiful, albeit tooth-challenged, Jamaican half his age, quite literally gives Archie a second lease on life, and produces Irie, a knowing child whose personality doesn't quite match her name (Jamaican for "no problem"). Samad's late-in-life arranged marriage (he had to wait for his bride to be born), produces twin sons whose separate paths confound Iqbal's every effort to direct them, and a renewed, if selective, submission to his Islamic faith. "[White Teeth] is, like the London it portrays, a restless hybrid of voices, tones, and textures...with a raucous

energy and confidence.”

The Oxford Handbook of Postcolonial Studies provides a comprehensive overview of the latest scholarship in postcolonial studies, while also considering possible future developments in the field. Original chapters written by a worldwide team of contributors are organised into five cross-referenced sections, 'The Imperial Past', 'The Colonial Present', 'Theory and Practice', 'Across the Disciplines', and 'Across the World'. The chapters offer both country-specific and comparative approaches to current issues, offering a wide range of new and interesting perspectives. The Handbook reflects the increasingly multidisciplinary nature of postcolonial studies and reiterates its continuing relevance to the study of both the colonial past—in its multiple

manifestations— and the contemporary globalized world. Taken together, these essays, the dialogues they pursue, and the editorial comments that surround them constitute nothing less than a blueprint for the future of a much-contested but intellectually vibrant and politically engaged field.

This volume examines the various processes at work in expressing silence and excessive speech in contemporary novels in English, covering the whole spectrum from effusiveness to muteness. Even if in the postmodern episteme language is deemed inadequate for speaking the unspeakable, contemporary authors still rely on voice as a mode of representation and a performative tool, and exploit silence not only as a sign of absence, block or withdrawal, but also as a token of presence and resistance. Logorrhoea and reticence are not necessarily antithetical as compulsive verbosity may work as a smokescreen to sidestep the real issues, while silences and gaps may reveal more than they hide. By submitting their texts to both

expansion and retention, hypertrophy and aphasia, writers persistently test the limits of language and its ability to make sense of individual and collective stories. The present volume analyses

the complex poetics of silence and speech in fiction from the 1960's to the present, with special focus on Will Self, Graham Swift, John Fowles, Kazuo Ishiguro, Jenny Diski,

Lionel Shriver, Michèle Roberts, Margaret Atwood, Jonathan Safran Foer, Salman Rushdie, Arundhati Roy, Zadie Smith, Jamaica Kincaid, Ryhaan Shah and J.M. Coetzee.
