Family Law Lectures Frank Brothers As provider networks on military bases are overwhelmed with new cases, civilian clinicians are increasingly likely to treat military families. However, these clinicians do not receive the same military mental-healthcare training as providers on military installations, adding strain

to clinicians' workloads and creating gaps in levels of treatment. Families Under Fire fills these gaps with real-world examples, clear, concise prose, and nuts-and-bolts approaches for working with military families utilizing a systems-based practice that is effective regardless of branch of service or the practitioner's therapeutic preference. Any civilian mental-health practitioner

who wants to understand the diverse needs of military personnel, their spouses, and their families will rely on this indispensable guidebook for years to come.
