Lakeland, the historical African American community of College Park, was formed around 1890 on the doorstep of the Maryland Agricultural College, now the University of Maryland, in northern Prince George's County. Located less than 10 miles from Washington, D.C., the community began when the area was largely rural and overwhelmingly populated by European Americans. Lakeland is one of several small, African American communities along the U.S. Route 1 corridor between Washington, D.C., and Laurel, Maryland. With Lakeland's central geographic location and easy access to train and trolley transportation, it became a natural gathering place for African American social and recreational activities, and it thrived until its self-contained uniqueness was undermined by the federal government's urban renewal program and by societal change. The story of Lakeland is the tale of a community that was established and flourished in a segregated society and developed its own institutions and traditions, including the area's only high school for African Americans, built in 1928.

THE first of an exciting new book series from the V8 Sleuth team, 'Bathurst: Every Car, The

Photographic History, 1990-1999' is a must-have for any motorsport fan. This 256-page hardcover collector's book brings to life 'The Great Race' in the 1990s and, at its core, includes a photo of every single car to compete in the Bathurst 1000 in the 1990s across the Group A, five-litre V8, Super Touring and V8 Supercar categories. In addition to the cars that took the start on race day, this book also includes images of those cars that didn't start the race despite taking part in practice and/or qualifying. This series of books has been inspired by V8 Sleuth's sold-out books from previous years documenting every Holden and every Ford to compete in the Bathurst 1000. In addition to Holden and Ford, a variety of manufacturers take centre stage within the pages of this book focused on the 1990s. BMW, Toyota, Nissan, Audi, Volvo and many more will bring readers many amazing memories of the cars that have tackled Mount Panorama. Also included in the special publication is: Information on each car's photo, with driver names, team names, make and model, race times, qualifying times and positions and assorted notes listed for each. An introduction chapter for each year's race, from the 1990 Tooheys 1000 right through to the 1999 FAI 1000. A dedicated statistical section breaking down the achievers in the Bathurst 'Great Race' from 1990 to 1999. As a special bonus, the 1999 Bob Jane T-Marts Bathurst 500 for Super Tourers is also included in the book alongside the 1000-kilometre races with images of every car from that often over-looked race. This is a unique Bathurst book that is a must-have for the collection of hardcore and casual motorsport and Bathurst 1000 fans alike. This book is the first in a new series of publications by the V8 Sleuth team that will focus on the history of the Bathurst 'Great Race' by decade and based upon the 'every car, every race' format.

Ben Brooksby is a fifth-generation farmer from St Helens Plains in western Victoria. When he was younger, he struggled with anxiety and other mental health issues, as do so many others in rural communities. A simple social media post helped him to turn things around. After he shared a photo on Instagram showing himself naked in a truck full of lentils, he received a huge response, with other farmers wanting to share their own photos - and their stories. As the Naked Farmer movement grew, Ben met people from all around the country who wanted to get naked for mental health. As they got their kits off, they also opened up about their struggles. This is a heartwarming, moving and candid collection of stories of the challenges our farmers are facing, and the way these communities are banding together in response.
