How Your Government Really Works

Routledge

Liberty. Justice. Nature. Law. First formulated millennia ago by the founding philosophers of the Western tradition, these basic concepts of human thought remain central to our conception of ourselves, our place in the world, and our relationships with others—that is, our politics. Readers encountering such broad political concepts, their practical expressions in political movements and systems of government, the ideas of influential ancient and modern political thinkers—or simply familiar or unfamiliar catchphrases for which they would like a succinct yet informative explanation—will welcome this accessible encyclopedic guide. The major political concepts, themes, issues, movements, groups, and schools that have developed over time and shaped our modern world appear here in all their diversity, along with biographical entries and articles on the principal works of political theorists from Plato to John Rawls. Further, serious students and browsers alike will delight in the numerous entries on familiar quotations and political catchphrases, from the banality of evil and Big Brother to the war of all against all.

Encyclopedia of Politics of the American West Bloomsbury Publishing USA

Government and Politics is the component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty one

Encyclopedias. The Theme on Government and Politics in the Encyclopedia of Social Sciences and Humanities deals with the discipline of general and introductory descriptions on a wide range of political phenomena in rather conventional ways. It covers the following topics: The first two topics, “Forms and Modes of Government” and “Structures of Government”, deal with institutional and structural aspects of political phenomena. The third topic “Political Aspects of Government” is about dynamic political processes. The fourth “Ideas and Ideologies in Politics” investigates political thoughts and ideologies in the modern world. The fifth topic “International Politics” intend to give readers an international perspective, since contexts and systems which have international or transnational characters are obviously important background against which a political aspect of building a sustainable society must be considered. These two volumes are aimed at the following five major target audiences: University and College students Educators, Professional practitioners, Research personnel and Policy analysts, managers, and decision makers and NGOs.

An alphabetical listing of administrative agencies and departments with details about the office and its role in government as well as terms and definitions.

The Encyclopedia of Political Science Set
Routledge

This innovative and useful reference fills the need for practical information and conceptual analysis of the roles and functions of state government by providing accessible state-by-state and regional overviews of government and

politics. Features include substantive essays; in-depth profiles of each of the fifty states, the District of Columbia, and all U.S. territories; an encyclopedic A to Z section with entries covering the overarching concepts, structures, and processes that are important to state and local government, and politics in general; and a detailed section on data and statistics emphasizing historical and demographic trends that have helped shape regional and state government and politics. - Publisher.

Encyclopedia of Government and Politics
CQ Press

This all-encompassing encyclopedia provides a broad perspective on U.S. politics, culture, and society, but also goes beyond the facts to consider the myths, ideals, and values that help shape and define the nation.

Demonstrating that political culture is equally rooted in public events, internal debates, and historical experiences, this unique, three-volume encyclopedia examines an exceptionally broad range of factors shaping modern American politics, including popular belief, political action, and the institutions of power and authority. Readers will see how political culture is shaped by the attitudes, opinions, and behaviors of Americans, and how it affects those things in return. The set also addresses the issue of American "exceptionalism" and examines the nation's place in the world, both historically and in the 21st century. Essays cover pressing matters like congressional gridlock, energy policy, abortion politics, campaign finance, Supreme Court rulings, immigration, crime and punishment, and globalization. Social and cultural issues such as religion, war, inequality, and privacy rights are discussed as well. Perhaps most intriguingly, the

encyclopedia surveys the fierce ongoing debate between different political camps over the nation's historical development, its present identity, and its future course. By exploring both fact and mythology, the work will enable students to form a broad yet nuanced understanding of the full range of forces and issues affecting—and affected by—the political process.

Political Theory Oxford University Press

Presents a comprehensive reference to the role of women in American politics and government, including biographies, related topics, organizations, primary documents, and significant court cases.
Encyclopedia of World Political Systems
Princeton University Press

The Oxford Encyclopedia of American Political and Legal History brings together an unparalleled wealth of information about the laws, institutions, and actors that have governed America throughout its history. Entries key political figures, important legislation and governmental institutions, broad political trends relating to elections, voting behavior, and party development, as well as key court cases, legal theories, constitutional interpretations, Supreme Court justices, and other major legal figures. Emphasizing the interconnectedness of politics and law, the more than 430 expertly written entries in the Encyclopedia provide an invaluable and in-depth overview of the development of America's political and legal frameworks.

International Encyclopedia of Government and Politics SAGE

The SAGE Encyclopedia of Political Behavior explores the intersection of psychology, political science, sociology, and human behavior. This encyclopedia integrates theories, research, and case

studies from a variety of disciplines that inform this established area of study. Aimed at college and university students, this one-of-a-kind book covers voting patterns, interactions between groups, what makes different types of government systems appealing to different societies, and the impact of early childhood development on political beliefs, among others. Topics explored by political psychologists are of great interest in fields beyond either psychology or political science, with implications, for instance, within business and management. This title will be available online on SAGE Knowledge, the ultimate social sciences library.

Government and Politics - Volume I
CQ Press

This all-encompassing encyclopedia provides a broad perspective on U.S. politics, culture, and society, but also goes beyond the facts to consider the myths, ideals, and values that help shape and define the nation. Demonstrating that political culture is equally rooted in public events, internal debates, and historical experiences, this unique, three-volume encyclopedia examines an exceptionally broad range of factors shaping modern American politics, including popular belief, political action, and the institutions of power and authority. Readers will see how political culture is shaped by the attitudes, opinions, and behaviors of Americans, and how it affects those things in return. The set also addresses the issue of American "exceptionalism" and examines the nation's place in the world, both historically and in the 21st century. Essays cover pressing matters like congressional gridlock, energy policy, abortion politics, campaign finance, Supreme Court rulings, immigration, crime and punishment, and

globalization. Social and cultural issues such as religion, war, inequality, and privacy rights are discussed as well. Perhaps most intriguingly, the encyclopedia surveys the fierce ongoing debate between different political camps over the nation's historical development, its present identity, and its future course. By exploring both fact and mythology, the work will enable students to form a broad yet nuanced understanding of the full range of forces and issues affecting--and affected by--the political process. Offers approximately 225 entries covering U.S. politics, culture, society, and beliefs. Includes an introductory overview of the forces that have shaped and continue to shape American political culture and a concluding essay that gathers key thematic threads and looks toward the future. Covers the myriad ways in which American political culture influences other aspects of American society. Examines how cultural symbols and beliefs are manipulated to advance political interests and establish government authority. Connects new issues such as social media and sexual politics with the political culture.

Developed in partnership with the International Political Science Association this must-have, authoritative political science resource, in eight volumes, provides a definitive picture of all aspects of political life.

International Encyclopedia of Political Science Westview Press

The Encyclopedia of American Political History is the perfect single-volume source for students, researchers, and scholars at all levels seeking an accessible, easy-to-navigate reference on the forces that have shaped--and

continue to shape--American history. Particularly helpful to anyone hoping to understand the evolution and intricacies of the modern American political process, this key reference identifies the most significant personalities, trends, campaigns and elections, protests, and rebellions, laws, statutes, and policies in American political history.

Encyclopedia of Government and Politics SAGE

This is a brand-new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium. Providing a penetrating analysis of government and politics at a global, regional and nation-state level, the Encyclopedia assesses both traditional and contemporary approaches, and projects the paths of future research. The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject. Internationally respected contributors have been carefully selected to present contending approaches to related topics, both to clarify the political implications of the various methodologies, and to enrich the portrayal of political life. With its expanded, revised and updated coverage, Encyclopedia of Government and Politics is more than ever an indispensable tool for students, teachers, professional analysts and policy-makers.

The SAGE Encyclopedia of Political Behavior Infobase Publishing

The Oxford Encyclopedia of American Political and Legal History brings together, in one authoritative reference work, an unparalleled wealth of information about the laws, institutions, and actors that have governed America throughout its history. Embracing the

interconnectedness of politics and law, The Encyclopedia addresses all aspects of both spheres, from presidents and Supreme Court justices to specifics of policy history, critical legislation, and party formation. Entries capture the unique nature of the nation's founding principles embodied in the Constitution, the expansive nature of American democracy, political conflict, and compromise, and the emergence of the modern welfare and regulatory state, all of which evince the tensions, contradictions, and possibilities manifest throughout America's history. Clearly demonstrating how US politics and law have evolved since the colonial era, The Encyclopedia encourages readers to anticipate further changes. With over 450 articles by expert scholars, each signed entry features numerous cross references and discussion of political and legal history as well as additional sources for further study. This two-volume A-to-Z compendium is a reference work of unparalleled depth and scope and will introduce a new generation of readers to the complexities of this dynamic field of study. It also features extensive cross-referencing, a topical outline, and a subject index.

Encyclopedia of Political Thought Taylor & Francis US

Contains 150 articles that provide information about significant topics in American political history, including ideas, philosophies, movements, economics, religion, and more.

Encyclopedia of Political Communication SAGE Publications

Despite the significant control government exerts over Americans, few understand its organizational structure and the roles of its various departments and offices. For people to gain the full

benefits of government programs and avoid the snares lurking among government bureaucracy and arcane regulations, they must clearly understand the powers and functions of each part of the government. Encyclopedia of Federal Agencies and Commissions is a comprehensive guide to the various branches of the federal government, making information about them readily available and accessible. Clearly written entries cover all branches of the federal government as well as the history and inner workings of the agencies that function under them. Coverage includes: The executive branch The legislative branch The judicial branch Independent entities and commissions Quasi-official agencies. *The Concise Princeton Encyclopedia of American Political History* ABC-CLIO
 * Provides a balanced, comprehensive account of contemporary trends in world, regional and nation-state government and politics * Captures the global changes, both theoretical and factual, of the past three decades - to give an unprecedented overview of political science and political affairs * Clearly and incisively written to meet the needs of students, lecturers and practitioners at all levels * Helpful bibliographies - of new and classic material and suggestions for further reading * Extensive index of Topics and People `Provides a comprehensive introduction to both the theoretical and practical issues of government and politics. It will be an essential purchase for libraries with in-depth collections in these areas.' - Reference Reviews `This up-to-date and well executed work provides a sound introduction to all aspects of political study.' - Choice `This is a work of immense scholarship and usefulness.' - Political Studies `In

addition to copious citations to the research literature there are brief bibliographies listing major works "for further reading" at the conclusion of each article. This up-to-date and well-executed work provides a sound introduction to all aspects of political study.' - SUNY College at Purchase *Encyclopedia of American Government* Infobase Publishing
 The U.S. government is an ever-more-complex system that few American citizens comprehend in any detail. Even some of its most basic operations, seemingly clear in concept, are in reality intricate and obscure. Although textbooks explain how the government is supposed to work in theory, they don't reveal how it actually works in practice. This book offers a concise and objective explanation of government operations, mapping the federal government's branches, departments, agencies, corporations, and quasi-official bodies—and the bureaucracies that support them. The authors effectively bridge the gap between the government's ideal, balanced structure, laid out in the Constitution, and its actual institutionalized form today, making this a superb resource for students and citizens at large. Coverage of the government's inner workings includes such subjects as executive-branch appointments, domestic and foreign policy development and execution, the federal budget, the legislative process, the Congressional committee system, the drawing of Congressional districts, the levels of the federal judiciary, aides in all three branches, and the various government offices and oversight agencies.
