Vincent Ferrer (1350–1419), a celebrated Dominican preacher from Valencia, was revered as a living saint during his lifetime, receiving papal canonization within fifty years of his death. In *The Saint and the Chopped-Up Baby*, Laura Ackerman Smoller recounts the fascinating story of how Vincent became the subject of widespread devotion, ranging from the saint's tomb in Brittany to cult centers in Spain, Italy, France, Germany, and Latin America, where Vincent is still venerated today. Along the way, Smoller traces the long and sometimes contentious process of establishing a stable image of a new saint. Vincent came to be epitomized by a singularly arresting miracle tale in which a mother kills, chops up, and cooks her own baby, only to have the child restored to life by the saint's intercession. This miracle became a key emblem in the official portrayal of the saint promoted by the papal court and the Dominican order, still haunted by the memory of the Great Schism (1378–1414) that had rent the Catholic Church for nearly forty years. Vincent, however, proved to be a potent religious symbol for others whose agendas did not necessarily align with those of Rome. Whether shoring up the political legitimacy of Breton or Aragonese rulers, proclaiming a new plague saint, or trumpeting their own holiness, individuals imposed their own meanings on the Dominican saint. Drawing on nuanced readings of canonization inquests, hagiography, liturgical sources, art, and devotional materials, Smoller tracks these various appropriations from the time of Vincent's 1455 canonization through the eve of the Enlightenment. In the process, she brings to life a long, raucous discussion ranging over many centuries. *The Saint and the Chopped-Up Baby* restores the voices of that conversation in all its complexity.

In 1973, Jane Caprin takes her three children from their family home and joins a cult, Sam Fife's "The Move." *Cult Child* is told from the voice of the youngest daughter, Sila Caprin, a victim of severe physical, sexual and mental trauma under the guise of Sam Fife's religious doctrines. Sila's life consists of fighting to maintain just a glimmer of her own humanity. With an older brother who runs away, a sister who is often silent in the hopes of being unnoticed, a mother who believes everything is God's will, Sila fights to survive in a world where she is insignificant and unprotected -- until one day her sister becomes a victim of an act that in its horror becomes their savior. Based on real life events.

Cult Following Bonnier Zaffre Ltd.

Blindsided when a child suddenly announces a transgender identity, many parents today find their families under assault by an insidious predator: the billion-dollar gender industry. "Do you want a live son (daughter) or a dead daughter (son)?" Nearly every parent whose child has fallen into the gender industry's clutches has heard the same emotionally manipulative threat: agree to your child's immediate social and medical transition, or prepare for the child's suicide. Schools, healthcare providers, politicians, and an aggressive activism machine are coercing people-and especially children-down a destructive path of medicalization in the name of transgender medicine. Caught in the maelstrom of gender identity politics, medical experimentation, and a cultural zeitgeist that paints the family as an oppressor, parents are lied to from every quarter, and told they must consent to their children's gender transition and medicalization. But there is a different-and saner-path. A growing cadre of parents are saying, "No," to the gender machine's unethical and deceptive narrative. Based on sound principles of psychology and child development, as well as on strategies used by parents who have pulled their children back from the gender cult's destructive ideology, *Desist, Detrans, & Detox: Getting Your Child Out of the Gender Cult* provides a roadmap to help families navigate the treacherous terrain of gender indoctrination, and bring their children back to reality and safety.

Memoir of a Cult Child Peter Lang

This 2018 30th anniversary edition honors the 40th anniversary of the tragedy in Jonestown, Guyana. On November 18th, 1978, over 900 people including a U.S. congressman Leo Ryan died because of Cult Leader Jim Jones. Over 300 were children forced to drink cyanide-laced Kool-Aid by their parents who believed they were doing God's will. The techniques of undue influence have evolved dramatically, and continue to do so. Today, a vast array of methods exist to deceive, manipulate, and indoctrinate people into closed systems of obedience and dependency. If you are reading this updated book for the first time, please know that you have found a safe, respectful, compassionate place. This book can help you protect or regain your sanity, freedom, and health. It can also help you protect others from the use of mind control techniques. In this 30th anniversary volume you will find: • New stories of people who fell under the sway of cults and other forms of undue influence but who were able to break free. • New information on the many sophisticated ways that social media are now used for mind control. • Updates on the many types of organizations that use mind control. • Information on the neuroscience behind mind control. • A look at what legislators, courts, mental health professionals, and ordinary citizens can do to resist mind control and make our world a safer place. Sadly, the essential information in this book is still not widely known or understood. People around the world remain largely unprepared for the new realities of mind control. But you are far from helpless. There is a great deal you can do to stay safe, sane, and whole - and to help the people you care about to do the same. And if someone you love is already part of a mind control group, there is much you can do to help them break free and rebuild their life. This book will give you the tools you need. As you read this book, you will learn to develop, use, and trust your critical thinking skills; your intuition; your bodily and emotional awareness; your ability to ask the right questions; and your skill at doing quick, useful research. You will also learn to create a healthy balance of openness and skepticism. As you will see, the entire process begins and ends with discernment.

With historic resignation of Joseph Ratzinger, the deposed Pope Benedict who was convicted of crimes against humanity, it becomes evident that Satanism is mingled with Christianity and so many other religions. High profile members of some respectable Christian denominations, charity, character-building and other organizations are implicated in the practice of Satanism and cult religions. Satanism and cult religions have also infiltrated all areas of life; including world politics, economy, education, different cultures, laws and social orders. With various studied cases like the association of UNO with Lucis Trust which was once known as Lucifer Trust in 1923, results of research works prove that Satanism and cult religions are both strongholds that are used to subdue nations all over the world with exception of none. This book makes serious attempts to expose some of these strongholds, proving the facts that the official reports about missing people and the discoveries of mass graves of school children in many areas are all governments' efforts to cover up truths about human ritual sacrifices that are taking place everywhere in the world.

Cargo Cult Calvary Rock Resource

In February of 1977, during a weekend visit to her uncle's home in Riverside Valley, California, Celena was taken in the night. Two radicalized women planned the kidnapping. Both were members of the Synanon cult's Kidnatchers group in Marin. One of the women, Celena would learn, was her mother, whom she had not seen for two and half years. Leaving Los Angeles, she came to enter a strange, secluded world where childhood was an experiment, and no relationship was sacred. Immersed in the strange and deviant society of Synanon, Celena would spend the next five years subject to the unpredictable whims of Charles Dederich, the cult's shadowy leader. In a series of scenes, Synanon Kid chronicles cult living from a young girl's perspective and her search for identity and belonging in a world of physical and familial displacement. From the African American communities of South Central Los Angeles to the racially integrated, yet rural and isolated world of Synanon, Celena tries to make sense of and navigate the dichotomy of the mainstream blue-collar life into which she was born and the counterculture lifestyle she inherited. A haunting tale of estrangement, Synanon Kid, is a coming-of-age story of hope, survival, and determination. It is also a story of the unconditional love between a mother and daughter and how that love helped a young girl to grow and flourish against the odds of her distorted childhood.

Martyrdom, Murder, and Magic Hodder & Stoughton

Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice, radios and refrigerators - ships that will never arrive? Of all the stories spun about the island peoples of Melanesia, tales of cargo cult are among the most fascinating. The term cargo cult, Lamont Lindstrom contends, is one of anthropology's most successful conceptual offspring. Like culture, worldview and ethnicity, its usage has steadily proliferated, migrating into popular culture where today it is used to describe an astonishing roll-call of people. It's history makes for lively and compelling reading. The cargo cult story, Lindstrom shows, is more significant than it at first appears, for it recapitulates in summary form three generations of anthropological theory and Pacific studies. Although anthropologists' enthusiasm for the notion of cargo cult has waned, it now colors outsiders' understanding of Melanesian culture, and even Melanesians' perceptions of themselves. The repercussions for contemporary Islanders are significant: leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist. Of particular interest to this history is Lindstrom's argument that accounts of cargo cult are at heart tragedies of thwarted desire, melancholy anticipation and crazy unrequited love. He makes a convincing case that these stories expose powerful Western scenarios of desire itself—giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar.

Cult Child of the 90's Routledge

Martyrdom, Murder, and Magic: Child Saints and Their Cults in Medieval Europe is a comprehensive history of child saints and their cults from late Antiquity to the end of the fifteenth century. The child martyrs of the persecutions, including the Holy Innocents, were the first child saints recognized by the Church and their cults spread throughout Europe in the early Middle Ages. Alongside these cults, medieval society also venerated child «martyrs», victims of political or domestic violence. The increasing role of the papacy in the canonization process after the tenth century resulted in the veneration of saintly child confessors in the high Middle Ages, but from the end of the twelfth century, most children worshipped as saints were the alleged victims of ritual murder by Jews. This book considers the formation and transformation of child saints and their cults in the context of popular belief and the history of childhood.

Are corporations cults? Do they control our behavior, thoughts, information and emotions? Zubaty makes a pretty good case for that. Should the legal status of corporate persons be challenged as a religious violation? a gross infringement of the supposed boundary between church and state? He makes a pretty good case for that. Have we done a good job of keeping religion out of government but a miserable job of keeping government out of religion? He makes a pretty good case for that. Is Darwinism a science? Or a religion? You'll get vertigo over his take on that. Copyright © Libri GmbH. All rights reserved.

Sarah was the first of five wives and was often used to set the example. Sarah's husband was given Warren's prized daughter as his third wife who became Warren's source to control Sarah's family. As the Leadership adjusted, her world turned upside down. Rich was taken to a secret project to begin "Zion," and only those who are worthy could go. Rich came for her children, but Sarah was not worthy. She wasn't allowed to see or have contact with her children. Sarah came to realize Warren Jeffs was grooming her daughter to eventually become his wife. She wrote a letter, refusing to give permission. While traveling on a four-wheeler, the vehicle flipped and fell on her. She was in the hospital fighting for a month to survive told she would most likely be a paraplegic if she did survive. A few months later, still trying to heal from the accident, Sarah was told God no longer had a use for her. Therefore Sarah was cast out, thrown into a world she was taught to abhor and fear from birth.
