Notes for lovers, parents, managers, and astrologers will add depth and additional insights into the important relationships in your life. Without saying a word, your hands speak volumes about your personality. For example, the shape and size of your hand can help you gain insight into your strengths and weaknesses. Do you have a long palm with long, slender fingers? If so, you have a water hand, which means you are a sensitive, sympathetic, and intuitive

person who probably relies on emotions to make decisions. You may have to be careful of being overly self-critical. Do you have a short palm with short fingers? Then you've got an earth hand, and you are practical, reliable, and productive, although you may have to watch out for becoming too single-minded or authoritarian. Palmistry is also fun?in any social gathering, mention that you read palms and you'll soon have a crowd of people eager to find out more about themselves.

Palmistry Quick & Easy is just that: quick and easy. With its detailed question-and-answer format, you'll gain a deeper understanding of yourself and the people around you?just by listening to what their hands have to say.
