This book is the first detailed history of the Russian Symbolist movement, from its initial hostile reception as a symptom of European decadence to its absorption into the mainstream of Russian

literature, and eventual disintegration. It focuses on the two generations of writers whose work served as the seedbed of Existentialism in thought and of Modernism in prose and the performing arts, and reassesses their achievements in the light of modern research. At the centre of the study are the texts themselves, with prose quoted in English translation and

poetry given in the original Russian with prose translations. There is a valuable bibliography of primary sources and an extensive chronological appendix. This book will fill a long-felt gap, and will be invaluable to students and teachers of Russian and comparative literature, Symbolism, Modernism, and pre-revolutionary Russian culture.

Clearing a Path for the Gospel addresses numerous apologetics issues facing the Lutheran church in the twenty-first century. It explains how all truth is measured relative to some standard, and then it examines various standards of truth. It explains when the apologist can use reason to defend Biblical teachings and when the apologist must argue strictly from what is revealed in the Bible. A History of Russian

Offering an edition of secular poems taken from the earliest, fifteenth-century manuscript, this book seeks to evaluate Moses Dar??'s poetry in the light of the Andalusian-Hebrew poetical tradition and within the context of Hebrew literary activity in the Muslim East.

A lack of confidence in the clarity or perspicuity of Scripture is apparent in Western Christianity. In

this New Studies in Biblical Theology volume, Mark Thompson restates the doctrine of the clarity of Scripture. He surveys past and present objections, engages with contemporary hermeneutical challenges, and expounds the living God as the Guarantor of his accessible, written Word.

The concept of well-being has emerged as a key category of social and political thought, especially in the fields of

moral and political philosophy, development studies and economics. This book takes a critical look at the notion of well-being by examining what well-being means, or could mean, to people living in a number of different regions including Sudan, Nepal, Papua New Guinea, India, Sierra Leone and the UK. The contributors take issue with some of the assumptions behind Western concepts of well-being. They explore what characterises a 'good life' and how this idea has

been affected by globalisation and neoliberalism. The book makes a major contribution to social theory by presenting new analytical models that make sense of the changing shapes of people's life and ethical values.

This study analyzes several passages in the Former Prophets (2 Sam 19:12-44; 2 Kgs 2:1-18; Judg 8:4-28) from a literary perspective, and

argues that the text presents Transjordan as liminal in Israel's history, a place from which Israel's leaders return with inaugurated or renewed authority. It then traces the redactional development of Samuel-Kings that led to this literary symbolism, and proposes a hypothesis of continual updating and combination of texts, beginning early in Israel's monarchy and continuing until the final formation of the Deuteronomistic History. Several source documents may be

isolated, including three narratives of Saul's rise, two distinct histories of David's rise, and a court history that was subsequently revised with pro-Solomonic additions. These texts had been combined already in a Prophetic Record during the 9th c. B.C.E. (with A. F. Campbell), which was received as an integrated unit by the Deuteronomistic Historian. The symbolic geography of the Jordan River and Transjordan, which even extends into the New Testament, was

therefore not the product of a deliberate theological formulation, but rather the accidental by-product of the contingency of textual redaction that had as its main goal the historical presentation of Israel's life in the land. *Walking with Giants* Walter de Gruyter This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. The autobiography has as its primary focus political history, in particular the history of the ANC in South Africa and in exile. The author records in a refreshingly straightforward way how he and his peers

experienced life in South Africa in the 1950's. His politicization in Cradock through such events as the 1952 Defiance Campaign and later at the University of Fort Hare give the background for his recruitment into the ANC underground. A true non-racialist with a broad view of the world, he reflects a generation of South Africans who were educated in the East European socialist countries. He was widely read and knowledgeable about global affairs; he understood the politics of

most African countries and hoped to contribute to the building of a new South Africa.

Believers know that when we die we enter heaven and will spend eternity there with God and the saints who have gone before us. But what actually happens in heaven? What are we going to be doing there? Won't it get boring at some point? According to Scripture, a large part of our experience of heaven

will be a continual revealing of God's glory. Not just his glory in the moment, but during all of time. The mysteries of providence, the hidden movements of God throughout history, and the forgotten and unnoted works of even the most obscure of God's people will be unveiled so that we can see how wise, loving, gracious, and powerful our God is. And though we will experience perfection in heaven, we will never be omniscient, which means we will always be learning more

about God's glory, inspiring us to return joyful praise and thanksgiving. If your vision of heaven has been limited to clouds and harps and angels, it's time to expand that view with the truth found in this biblically based look at the afterlife.

A real-life romantic comedy about getting dumped and getting over it Isabel Gillies, the New York Times bestselling author of Happens Every

Day, has written another irresistibly moving and funny memoir: *A Year and Six Seconds: A Love Story*. When our story opens, it's a dark and slushy winter in New York City, where Isabel is arriving by airplane from Ohio, two toddlers in tow, to move in with her parents; her husband has left her for another woman. In subsequent scene after hilarious scene, Isabel shares her valiant, misguided, and bumbling attempts to understand her own part in the disintegration of her

marriage and to feel strong and loveable. And, one by one, she begins to cross items off a staggering single mom to-do list that includes: change last name, get bank account, get work, have breakdowns only in front of best friend and not in front of children, find rare preschool slot for son midyear in Manhattan, get along with three generations of family in tight quarters, find a man who can plant one great and romantic kiss, accept self, accept love, be happy. She cries,

she dates, she (and her mother and father and children) get the flu, and then, just when she least expects it, Isabel falls in love. With humility and a refreshing sense of humor, Isabel stumbles many times but also laughs, forgives, discovers new treasures from old friends, marries again, and more than that, finds good love itself within and around her.

Address to the Christian Nobility of the German Nation is one of the tracts written by Martin Luther in 1520. In this work, he defined for the first time the signature doctrines of the priesthood of all believers and the two kingdoms. After the church made a strong

attempt at drawing distinct lines on saying who had authority in the spiritual sphere and its matters. This division of Christians into spheres motivated Luther to write on the "three walls" the "Romanists" created to protect themselves from reform: "Spiritual Power over Temporal" - The first wall of the "Romanists" that Luther criticized was that of the division of the spiritual and temporal state. "Authority to Interpret Scripture" - In the second part of the letter to the Christian

nobility of the German nation, Luther debates the point that it is the Pope's sole authority to interpret, or confirm interpretation of, scriptures "Authority to Call a Council" - The final part to Luther's letter is the largest demonstration of his desire to see authority in control over the spiritual sphere shift to the temporal sphere.

From the opening sequence, in which mid-nineteenth-century Indian fishermen hear the possibility of redemption

in an old woman's madness, No Aging in India captures the reader with its interplay of story and analysis. Drawing on more than a decade of ethnographic work, Lawrence Cohen links a detailed investigation of mind and body in old age in four neighborhoods of the Indian city of Varanasi (Banaras) with events and processes around India and around the world. This compelling exploration of senility—encompassing not only the aging body but also larger cultural

anxieties—combines insights from medical anthropology, psychoanalysis, and postcolonial studies. Bridging literary genres as well as geographic spaces, Cohen responds to what he sees as the impoverishment of both North American and Indian gerontologies—the one mired in ambivalence toward demented old bodies, the other insistent on a dubious morality tale of modern families breaking up and abandoning their elderly. He shifts our attention

irresistibly toward how old age comes to matter in the constitution of societies and their narratives of identity and history.

Siberia has no history of independent political existence, no claim to a separate ethnic identity, and no clear borders. Yet, it could be said that the elusive country 'behind the Urals' is the most real and the most durable part of the Russian landscape. For centuries, Siberia has been represented as Russia's alter ego, as the

heavenly or infernal antithesis to the perceived complexity or shallowness of Russian life. It has been both the frightening heart of darkness and a fabulous land of plenty; the 'House of the Dead' and the realm of utter freedom; a frozen wasteland and a colourful frontier; a dumping ground for Russia's rejects and the

last refuge of its lost innocence. The contributors to *Between Heaven and Hell* examine the origin, nature, and implications of these images from historical, literary, geographical, anthropological, and linguistic perspectives. They create a striking, fascinating picture of this enormous and mysterious land.
