A classic text about the social study of food, this is the first English language edition of Jean-Pierre Poulain's seminal work. Tracing the history of food scholarship, *The Sociology of Food* provides an overview of sociological theory and its relevance to the field of food. Divided into two parts, Poulain begins by exploring the continuities and changes in the modern diet. From the effect of globalization on food production and supply, to evolving cultural responses to food – including cooking and eating practices, the management of consumer anxieties, and concerns over obesity and the medicalization of food – the first part examines how changing food practices have shaped and are shaped by wider social trends. The second part provides an overview of the emergence of food as an academic focus for sociologists and anthropologists. Revealing the obstacles that lay in the way of this new field of study, Poulain shows how the discipline was first established and explains its development over the last forty years. Destined to become a key text for students and scholars, *The Sociology of Food* makes a major contribution to food studies and sociology. This edition features a brand new chapter focusing on the development of food studies in the English-speaking world and a preface, specifically written for the edition.

She is no longer the lonely little girl she once was, with her games of make-believe and imaginary friend, Sam. Then Alice's world is shattered in a tragic accident, and Sam creeps out of the shadows and back into her life. At first Alice is comforted by his presence: a best friend to help fill the void in her heart. Perhaps even help her find someone real to share her life with. But Alice and Sam know he can only exist if she wants him there. So when Alice decides it's time for him to leave, who will get hurt in order for him to stay alive? A compelling novel that fans of page-turners such as Clare Mackintosh's *I LET YOU GO* and S. K. Tremayne's *THE ICE TWINS* will be gripped by.

The Higher Education Act of 1965 (HEA; P.L. 89-329) authorizes numerous federal aid programs that provide support to both individuals pursuing a postsecondary education and institutions of higher education (IHEs). Title IV of the HEA authorizes the federal government's major student aid programs, which are the primary source of direct federal support to students pursuing postsecondary education. Titles II, III, and V of the HEA provide institutional aid and support. Additionally, the HEA authorizes services and support for less-advantaged students (select Title IV programs), students pursuing international education (Title VI), and students pursuing and institutions offering certain graduate and professional degrees (Title VII). Finally, the most recently added title (Title VIII) authorizes several other programs that support higher education. The HEA was last comprehensively reauthorized in 2008 by the Higher Education Opportunity Act of 2008 (HEOA; P.L. 110-315), which authorized most HEA programs through FY2014. Following the enactment of the HEAO, the HEA has been amended by numerous other laws, most notably the SAFRA Act, part of the Health Care and Education Reconciliation Act of 2010 (P.L. 111-152), which terminated the authority to make federal student loans through the Federal Family Education Loan (FFEL) program. Authorization of appropriations for many HEA programs expired at the end of FY2014 but has been extended through FY2015 under the General Education Provisions Act. This report provides a brief overview of the major provisions of the HEA.
