Science text book, explaining science fundamentals about the tattoo process.

What's Not Ta Like Scarecrow Press

How Alex Grey's visionary art is evolving the cultural body through icons of interconnectedness • Includes over 200 reproductions of Grey's artwork •

Contains spectacular photos of Grey's collaboration with the cult band TOOL plus his worldwide live-painting

performances • Offers Grey's reflections on how art evolves consciousness with a new symbology of the Networked Self • Winner of the 2013 Nautilus Silver Book Award in Photography and Art Revealing the interwoven energies of body and soul, love and spirit that illuminate the core of each being, Alex Grey's mystic paintings articulate the realms of consciousness encountered during visits to entheogenic heaven worlds. His painting Net of Being--inspired by a blazing vision of an infinite grid of Godheads during an ayahuasca journey--has reached millions as the cover and

interior of the band TOOL's Grammy award-winning triple-platinum album, 10,000 Days. Net of Being is one of many images Grey has created that have resulted in a chain reaction of uses--from apparel and jewelry to tattoos and music videos--embedding these iconic works into our culture's living Net of Being. The book explores how the mystical experience expressed in Alex Grey's work opens a new understanding of our shared consciousness and unveils the deep influence art can have on cultural evolution. The narrative progresses through a successive expansion of identity--from the self, to self and beloved, to self and community, world spirit, and cosmic consciousness, where bodies are transparent to galactic energies. Presenting over 200 images,

including many never-before-reproduced paintings as well as masterworks such as St. Albert and the LSD Revelation Revolution and Godself, the book also documents performance art, live-painting on stage throughout the world, and the "social sculpture" called CoSM, Chapel of Sacred Mirrors, that Grey cofounded with his wife and creative collaborator, artist Allyson Grey.

The Mammoth Book of Tattoos ABC-CLIO
Pioneering black-and-gray tattoo artist Freddy Negrete was twelve years old and confined in the holding cell of a Los Angeles juvenile facility when an older teenager entered—covered in tattoos. Freddy was in awe, not just of the art, but of what it symbolized, and he wanted what this kid had: the potent sense of empowerment and belonging

that came from joining a gang. The encounter drove Freddy to join the notorious gang La Sangra, and it didn't take long before he was a regular guest at LA County's juvenile detention facilities. By the age of twenty-one, Freddy had spent almost his whole life as a ward of the state in one form or the other. Enthralled by the black-and-gray tattoo style that in the 1970s was confined to the rebel culture of Chicano gangsters and criminals, Freddy started inking himself with hand-poked tattoos. Everyone wanted a piece of Freddy's black-and-gray style--gangbangers but also Hollywood starlets and film producers. In a riveting narrative that takes the reader from Freddy's days as a cholo gang member to evangelical preacher to Hollywood body art guru to

addiction counselor, Smile Now, Cry Later is, ultimately, a testament to that spark within us all, that catalyst which gives us the strength to survive, transform, and transcend all that can destroy us.
