Vatican Council The Documents of Vatican II With Notes and Index The 16 documents of the Second Vatican Council (1963-65) are included in this volume together with Notes and an Index. Ideal for students. Vatican Council II: The conciliar and post conciliar documents

The sixteen documents of the Second Vatican Council are the most important texts produced by the Catholic church in the past four hundred years. They shape virtually every aspect of church life today. But hardly anyone ever reads them... —From the Introduction In this indispensable guide, Edward P. Hahnenberg outlines each of the documents produced by the Second Vatican Council. Offering the background for each work, its language and context, this book provides a clear and concise overview of the Council's work and its significance in the life of the church. Each document's history, content, major concerns and effects are considered. Significant quotes provide a sample of the language, and contemporary topics provide discussion opportunities. Scripture scholars and students—and every Catholic—will find this a valuable resource.

The Four Constitutions Princeton University Press

This Companion will assist the reader in apprehending a coherent and synthetic interpretation of the teaching of Vatican II.

Commentary on the Documents of Vatican II.: Constitution on the sacred liturgy, by J. A. Jungmann Liturgical Press

This unique collection presents an insightful liturgical study and review of each of the sixteen documents of the Second Vatican Council.

Vatican II Cambridge University Press

Fifty years ago, the Catholic Church made radical changes. As he opened the biggest gathering of Roman Catholic bishops in history, Pope John the 23rd said it was time to throw open the windows of the church. The Second Vatican Council sent the church hurtling into the 20th Century. After three years of meetings, the Council produced 16 documents - a bold manifesto

for modernisation and renewal. It changed the language and style of the mass, permitting Catholics to worship in their own tongue, rather than in Latin. It also called for a new engagement with other faiths, the secular world and with the experiences of Catholics across the globe - men and women, rich and poor. Yet Vatican II is being misquoted, misinterpreted! The actual documents of Vatican Council II are required reading for anyone who wants to know what the Catholic Church really teaches. The volume has given us a very readable presentation of the sixteen basic documents of Vatican Council II.

A Concise Commentary on the Eight Key Texts of the Second Vatican Council OUP Oxford

This study edition of Irish Dominican Austin Flannery's (+2008) earlier translation contains all sixteen documents of the Second Vatican Council, plus the forty-nine later documents from popes and Vatican congregations that implemented the details of the Council's decisions. Flannery attempted to include all documents of general interest that form part of the postconciliar process—documents which might be described as organically linked with the conciliar process. This is the translation used in The Catechism of the Catholic Church and the text that both students of the Council and students of the Catechism will want for the complete reference of the Council and its decisions. Special features of the study edition: Larger page size, with larger print and more generous margins Focus questions after each Council document help the reader comprehend the main points Creative questions assist the reader in applying the content of the Council documents to personal experience or to future development in the Church

Decree on the ministry and life of priests Oxford University Press

This volume is a sequel to Matthew Lamb and Matthew Levering's *Vatican II: Renewal within Tradition* (OUP 2008). That volume led readers on a guided tour of the Second Vatican Council's sixteen conciliar documents, examining each document in light of Church Tradition. But that is only half the story. The meaning of the Second Vatican Council has been fiercely contested since before it was even over, and since its completion has seen a battle for the soul of the Church waged through the interpretation of Council documents. The Reception of Vatican II looks at those

same sixteen conciliar documents from the opposite perspective. Paying close attention to reforms and new developments, the essays in this volume show how the Council has been received and interpreted over the course of the more than fifty years since it concluded. The contributors to this volume represent various schools of thought but are united by a commitment to restoring the view that Vatican II documents should be interpreted and implemented in line with Church Tradition. The central problem facing Catholic theology today, these essays argue, is a misreading of the Council that posits a sharp break with previous Church teaching and calls for a wholesale overhaul of Catholic doctrine. In order to combat this reductive way of interpreting Vatican II, these essays provide a thorough, instructive overview of the debates inspired by the Council and offer a way forward for its ongoing reception of the Council. The Reception of Vatican II will shed new light on the ongoing legacy of one of the most important religious events of the twentieth century.

The Documents of Vatican II Cambridge University Press

On an otherwise ordinary Sunday morning in 1964, millions of Roman Catholics around the world experienced history. For the first time in centuries, they attended masses that were conducted mostly in their native tongues. This occasion marked only the first of many profound changes to emanate from the Second Vatican Council (1962-1965). Known popularly as Vatican II, it would soon give rise to the most far-reaching religious transformation since the Reformation. In this groundbreaking work of cultural and

historical sociology, Melissa Wilde offers a new explanation for this revolutionary transformation of the Church. Drawing on newly available sources—including a collection of interviews with the Council's key bishops and cardinals, and primary documents from the Vatican Secret Archive that have never before been seen by researchers—Wilde demonstrates that the pronouncements of the Council were not merely reflections of papal will, but the product of a dramatic confrontation between progressives and conservatives that began during the first days of the Council. The outcome of this confrontation was determined by a number of factors: the Church's decline in Latin America; its competition and dialogue with other faiths, particularly Protestantism, in northern Europe and North America; and progressive clerics' deep belief in the holiness of compromise and their penchant for consensus building. Wilde's account will fascinate not only those interested in Vatican II but anyone who wants to understand the social underpinnings of religious change.

The Sixteen Documents of Vatican II Crossroad Publishing Company

During four years in session, Vatican Council II held television

audiences rapt with its elegant, magnificently choreographed public ceremonies, while its debates generated front-page news on a near-weekly basis. By virtually any assessment, it was the most important religious event of the twentieth century, with repercussions that reached far beyond the Catholic church. Remarkably enough, this is the first book, solidly based on official documentation, to give a brief, readable account of the council from the moment Pope John XXIII announced it on January 25, 1959, until its conclusion on December 8, 1965.

The Basic Sixteen Documents St Pauls BYB

A lively debate continues in the Roman Catholic Church about the character of the teaching provided by the Second Vatican Council (1962-1965). Did it represent a decisive rupture with previous doctrine, or the continuation of its earlier message under new conditions? Much depends on whether the Council texts are read in the light of subsequent events, which shook and sometimes smashed the life, worship and devotion of traditional Catholicism - rather than considered for themselves, in their own right as documents with a prehistory that historians can know. In this work Dominican scholar and writer Aidan Nichols maintains that the Council texts must be interpreted in the light of their genesis, not their aftermath. They must be seen in the light of the public debates in the Council chamber, not the hopes (or fears) of individuals behind the scenes. On this basis, he provides a concise commentary on the eight most significant documents produced by the Council, documents which cover pretty comprehensively all the major aspects of the Church's life. Nichols describes the Council as a gathering where the Conciliar minority - guarded, prudent, and concerned for explicit continuity at all points with the preceding tradition - played a beneficial role in steadying the Conciliar majority, enthused as the latter was by the movements of biblical, patristic and liturgical 'return to the sources' and a desire to reach out to the world of the (then) present-day in generosity of heart. The texts that emerged from this often impassioned debate remain susceptible to a reading of a classically Christian kind. That is precisely what Nichols offers in this book.

The Basic Sixteen Documents : Constitutions, Decrees, Declarations Ignatius Press

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby

God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

The Second Vatican Council on Other Religions Ave Maria Press
The sixteen official documents—constitutions, decrees, and declarations—of the Second Vatican Council are now available from Liturgical Press in the most popular and widely used inclusive-language edition translated by Irish Dominican Austin Flannery (+October 21, 2008). As the worldwide Church continues to celebrate the fiftieth anniversary of the Council (1962-65), there is a great need in college classrooms and parish faith formation groups—as well as for individuals—to again have access to these documents in contemporary English. As Flannery wrote in his introduction to the 1996 edition, “The translation of the texts of the Vatican documents in the present volume differs from that in the previous publication in two respects. It has been very considerably revised and, in place, corrected. It is also, to a very large extent, in inclusive language. “I say 'to a very large extent,' because we have used inclusive language in passages about men and women but not, however, in passages about God, except where the use of the masculine pronoun was easily avoidable.”

Introductions and Commentaries by Catholic Bishops and Experts. Responses by Protestant and Orthodox Scholars Createspace Independent Pub

Brings together the key documents of the Second Vatican Council so that readers may better understand the Church's positions on different issues, including its relationship to the secular world, human rights, and the liturgy.

Vatican Council II Liturgical Press

Vatican Council II: The Conciliar and Postconciliar Documents is now available in the widely used study edition translated by Irish Dominican Austin Flannery (+October 21, 2008). In a New and Definitive Translation, with Commentaries and Notes by Catholic, Protestant, and Orthodox Authorities Vatican Council II

From 1962 to 1965, in perhaps the most important religious event of the twentieth century, the Second Vatican Council met to plot a course for the future of the Roman Catholic Church. After thousands of speeches, resolutions, and votes, the Council issued sixteen official documents on topics ranging from divine revelation to relations with non-Christians. In many ways, though,

the real challenges began after the council was over and Catholics began to argue over the interpretation of the documents. Many analysts perceived the Council's far-reaching changes as breaks with Church tradition, and soon this became the dominant bias in the American and other media, which lacked the theological background to approach the documents on their own terms. In *Vatican II: Renewal Within Tradition*, an international team of theologians offers a different reading of the documents from Vatican II. The Council was indeed putting forth a vision for the future of the Church, but that vision was grounded in two millennia of tradition. Taken together, these essays demonstrate that Vatican II's documents are a development from an established antecedent in the Roman Catholic Church. Each chapter contextualizes Vatican II teachings within that rich tradition. The resulting book is an indispensable and accessible companion to the Council's developments, one that focuses on theology and transcends the mass-media storyline of "liberal" versus "conservative."
