The Origins of Our Discontents Teachers College Press

The Ground Is Moving The death of George Floyd at the hands of police in the summer of 2020 shocked the nation. As riots rocked American cities, Christians affirmed from the pulpit and in social media that "black lives matter" and that racial justice "is a gospel issue." But what if there is more to the social justice movement than those Christians understand? Even worse: What if they've been duped into preaching ideas that actually oppose the Kingdom of God? In this

powerful book, Voddie Baucham, a preacher, professor, and cultural apologist, explains the sinister worldview behind the social justice movement and Critical Race Theory—revealing how it already has infiltrated some seminaries, leading to internal denominational conflict, canceled careers, and lost livelihoods. Like a fault line, it threatens American culture in general—and the evangelical church in particular. Whether you're a layperson who has woken up in a strange new world and wonders how to engage sensitively and effectively in the conversation on race or a pastor who is grappling with a polarized congregation, this book offers the clarity and understanding to either hold your ground or reclaim it.

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • NATIONAL BOOK AWARD LONGLIST • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People • *The Washington Post* • Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY *The New York Times Book Review* • *O: The Oprah Magazine* • NPR • Bloomberg • *Christian Science Monitor* • *New York Post* • *The New York Public Library* • *Fortune* • *Smithsonian Magazine* • *Marie Claire* • *Town & Country* • *Slate* • *Library Journal* • *Kirkus Reviews* • *LibraryReads* • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health

costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

Critical Race Theory (CRT) is an international movement of scholars working across multiple disciplines; some of the most dynamic and challenging CRT takes place in Education. This collection brings together some of the most exciting and influential CRT in Education. CRT scholars

examine the race-specific patterns of privilege and exclusion that go largely unremarked in mainstream debates. The contributions in this book cover the roots of the movement, the early battles that shaped CRT, and key ideas and controversies, such as: the problem of color-blindness, racial microaggressions, the necessity for activism, how particular cultures are rejected in the mainstream, and how racism shapes the day-to-day routines of schooling and politics. Of interest to academics, students and policymakers, this collection shows how racism operates in numerous hidden ways and demonstrates how CRT challenges the taken-for-granted assumptions that shape educational policy and practice. The chapters in this book were originally published in the following journals: International Journal of Qualitative Studies in Education; Race Ethnicity and Education; Discourse: Studies in the Cultural Politics of Education; Critical Studies in Education.
