GIOVANNA CANTRELL

Irregular Migration from West Africa to the Maghreb and the European Union OECD Publishing

This report points to the growing number of labor migrants in Asia and examines the policy question of how to best safeguard their rights. Governments and stakeholders in both origin and destination countries have largely recognized their mutual interest in safeguarding labor migrants ...

[A Continent Moving West?](#) Springer

This report analyzes labor migration trends in Asia and puts them in the context of demographic and policy trends. It provides an overview of the population trends in different Asian countries and looks at policy settings in several sending and destination countries of labor migrants.

Acting on Opportunities to Increase Financial Inclusion and Foster Development of a Transnational Economy OECD Publishing

The 2021 edition of International Migration Outlook analyses recent developments in migration movements and the labour market inclusion of immigrants in OECD countries. It also monitors recent policy changes in migration governance and integration in OECD countries.

[The International Migration of Women](#) OECD Publishing

Migration and Remittances from Mexico: Trends, Impacts, and New Challenges, edited by Alfredo Cuecuecha and Carla Pederzini, is an indispensable resource for Mexico-U.S. migration studies. It includes a review of the most important available databases for the study of migration from Mexico and Latin America to the United States.

[International Migration Patterns in the Caribbean Basin](#) UN

South-South migration contributes significantly to the development of the emerging economies, the migration of receiving countries and, at the same time, generates a major share of remittance income flowing into the sending countries. By capturing field experience and observations from a number of research studies, this book provides a robust catalogue of data, practical experience and analysis focused on the significant issues, risks and challenges that are associated with this evolving phenomenon in international migration. The book also critically explores new theoretical perspectives by highlighting new policy directions for both sending and receiving countries relevant to making South-South migration more efficient, attractive and mutually beneficial.

Moving for Prosperity: Global Migration and Labor Markets OECD Publishing

World Migration Report 2020 United Nations

[Communicating Effectively about Migration](#) Routledge

This book comprises the historical overview of migration processes in Kyrgyzstan, contemporary migration trends in international migration and various social, economic and political impacts of migration. It presents the findings of longstanding, in-depth, comprehensive and empirical research. Insights are maximized by applying the multi-sited strategy of analyzing both the migrant's place of origin and that of destination. The primary goal of the book is to contribute to a better

understanding of the meanings and the impacts of contemporary international migration processes in Kyrgyzstan and their relevance for local livelihoods.

Trends and Gaps in the Academic Literature on EU Labour Migration Policies United Nations

In this open access book, experts on integration processes, integration policies, transnationalism, and the migration and development framework provide an academic assessment of the 2011 European Agenda for the Integration of Third-Country Nationals, which calls for integration policies in the EU to involve not only immigrants and their society of settlement, but also actors in their country of origin. Moreover, a heuristic model is developed for the non-normative, analytical study of integration processes and policies based on conceptual, demographic, and historical accounts. The volume addresses three interconnected issues: What does research have to say on (the study of) integration processes in general and on the relevance of actors in origin countries in particular?

What is the state of the art of the study of integration policies in Europe and the use of the concept of integration in policy formulation and practice? Does the proposal to include actors in origin countries as important players in integration policies find legitimation in empirical research? A few general conclusions are drawn. First, integration policies have developed at many levels of government: nationally, locally, regionally, and at the supra-national level of the EU. Second, a multitude of stakeholders has become involved in integration as policy designers and implementers. Finally, a logic of policymaking—and not an evidence-based scientific argument—can be said to underlie the European Commission's redefinition of integration as a three-way process. This book will appeal to academics and policymakers at international, European, national, regional, and local levels. It will also be of interest to graduate and master-level students of political science, sociology, social anthropology, international relations, criminology, geography, and history.

[Process and Contemporary Trends in Kyrgyzstan](#) National Academies Press

This publication analyses recent developments in migration movements and policies in OECD countries and selected non-OECD countries. It also includes two special chapters on the skills of immigrants and their use in the labour market as well as on the management of labour migration.

[Population Movements in the 21st Century](#) United Nations

The adoption by WHO's Member States of the Global Code of Practice in the International Recruitment of Health Personnel, and the implementation of it by so many countries, represent two of the biggest steps in recent years towards solving the shortage of health-care workers around the world. The countries' response has been a momentous achievement. Now, a third big step is being taken with the publication of this book. It underlines WHO's unwavering commitment to supporting the implementation of the Code and provides a wide range of detailed examples from the countries themselves of how they are tackling the many complex issues involved. It provides not just numerous insights into progress but also gives other countries valuable guidance and recommendations on how they, too, can implement the Code. Countries are encouraged to learn from the shared experiences, domestic solutions and multi-lateral cooperation described in this book, and move ahead to support and advance the Code's aspirational principles. By doing so, they

also strengthen the campaign towards Universal Health Care - a campaign that requires innovative solutions to the health workforce shortage in order to be successful. The crux of the Code is the development of human resources for health through all aspects of education, improved retention and fair recruitment practices while encouraging technical collaboration and financial support. WHO is playing a leading role in these initiatives and stands ready to assist all its Member States in implementing the Code. We strongly recommend this book to health policy-makers and decision-takers in governments, nongovernmental organizations and other partners and stakeholders, including civil society. They will find it an indispensable guide to a better future for health-care personnel and the people they serve.

Summary of a Workshop World Bank Publications

Dit boek beschrijft de toename van migratie uit Oost-europese landen in de periode van 2004-2007, na toetreding tot de EU. Het bevat nieuwe empirische 'casestudies' van migratiepatronen, zowel gebaseerd op veldwerk als op de analyse van bestaande statistieken.

Contexts, Levels and Actors Routledge

The current share of women in the world's international migrant population is close to one half. Despite the great number of female migrants and their importance for the development agenda in countries of origin, there has until recently been a striking lack of gender analysis in the economic literature on international migration and development. This volume makes a valuable contribution in this context by providing eight new studies focusing on the nexus between gender, international migration, and economic development.

The Impact of International Migration Lexington Books

This report documents the increase in labor migration in Asia and looks at how finance and technology can aid its positive impact on home countries. As diasporas increase, governments have reached out to citizens abroad to provide them with financial instruments. Remittance channels have long ...

World Migration Report 2020 Amsterdam University Press

This paper provides an overview of the 'state of the art' in the academic literature on EU labour migration policies. It forms part of the research agenda of Work Package 18 of the NEUJOBS project, which aims at reviewing legislation and practices regarding the labour market inclusion and protection of rights of different categories of foreign workers in European labour markets. Accordingly, particular attention is paid to the works of scholars who evaluate the status of rights of third-country national workers in relation to labour market access, employment security, social integration, etc., in European legislation on labour immigration. More specifically, the review has selected those scholarly works that focus specifically on analyzing the manner in which policy-makers have addressed the granting of rights to non-EU migrant workers, and the manner in which policy agendas--through the relevant political and institutional dynamics--have found their translation in the legislation adopted. This paper consists of two core parts. In the first section, it reviews the works of scholars who have touched on these research questions with respect to the internal dimensions of EU labour migration policies. The second section does the same for the external dimensions of these policies. Both sections start off by analysing the main trends in the literature that reviews these questions for the internal and external dimensions of European

migration policies as a whole, and then move on to how these 'trends' can (or cannot) be found translated in scholarly writings on labour migration policies more specifically. In the final section, the paper concludes by summarising the main trends and gaps in the literature reviewed, and indicates avenues for further research.

Free Movement of Workers and Labour Market Adjustment Recent Experiences from OECD Countries and the European Union Springer

Migration is a politically sensitive topic and an important aspect of contentious debates about social and cultural diversity, economic stability, terrorism, globalization, and nationalism. *Global Migration: The Basics* examines: history and geography of global migration the role of migrants in society impact of migrants on the economy and the political system policy challenges that need to be faced in confronting a rapidly changing world economy and society. This book challenges students of geography, political science, public policy, sociology, and economics to look beyond the rhetoric and consider the real and basic facts about migration. Through detailed examinations of the scholarly literature, demographic patterns, and public policy debates, *Global Migration: The Basics* exposes readers to the underlying causes and consequences of migration.

Non-metropolitan Migration in Botswana with an Emphasis on Gender Springer

Literaturangaben

An analysis of trends, literature and data sources OECD Publishing

Global Migration provides a clear, concise, and well-organized discussion of historical patterns and contemporary trends of migration, while guiding the readers through an often difficult and politicised topic. Aimed primarily at undergraduate and Master's students, the text encourages the readers to reflect on economic processes, politics, immigrant lives and raises debates about inclusion, exclusion, and citizenship. The text critically highlights the global character of contemporary migration and the importance of historical context to current processes and emphasises the role of gender, race and national ideologies in shaping migration experiences. Using over a decade of their own insight into teaching undergraduate migration courses in the US and the UK, and the knowledge and understanding of the subject they have acquired as migration researchers, the authors offer an accessible and student-friendly manner for readers to understand and explore the complex issue of migration. The book features numerous international case studies, a chapter dedicated to the perspective of the immigrants themselves, as well as key terms and further readings at the end of each chapter. Both theoretically and empirically informed *Global Migration* examines the subject in a holistic and expansive way. It will equip students with an understanding of the complex issues of migration and serve as a guide for instructors in structuring their courses and in identifying important bodies of scholarly research on migration issues.

Global Migration CIFOR

Even as the 2013-2017 "migration crisis" is increasingly in the past, EU countries still struggle to come up with alternative solutions to foster safe, orderly, and regular migration pathways, Europeans continue to look in the rear-view mirror. This Report is an attempt to reverse the perspective, by taking a glimpse into the future of migration to Europe. What are the structural trends underlying migration flows to Europe, and how are they going to change over the next two decades? How does migration interact with specific policy fields, such as development, border

management, and integration? And what are the policies and best practices to manage migration in a more coherent and evidence-based way?

[Immigration Policy and the Search for Skilled Workers](#) Routledge

This report is the ninth in the world migration report series which is designed as a substantive contribution to increasing the understanding of current and strategic migration issues throughout the world. It presents key data and information on migration as well as thematic chapters on highly topical migration issues. It is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues. The two parts are intended to provide both overview information that helps to explain migration patterns and processes globally and regionally, as well as insights and recommendations on major issues that policymakers are - or soon - will be grappling with.

International Migration Outlook 2014 National Academies Press

The contributions of this book examine contemporary dynamics of migration and mobility in the context of the general societal transformations that have taken place in Europe over the past few

decades. The book will help readers to better understand the manifold ways in which migration trends in the region are linked to changing political-economic constellations, orders of power and inequality, and political discourses. It begins with an introduction to a number of theoretical approaches that address the nexus between migration and general societal shifts, including processes of supranationalisation, EU enlargement, postsocialist transformations and rescaling. It then provides a comprehensive overview of the political regulation of migration through border control and immigration policies. The contributions that follow detail the dynamic changes of individual migration patterns and their implications for the agency of mobile individuals. The final part challenges the reader to consider how policies and practices of migration are linked to symbolic struggles over belonging and rights, describing a wide range of expressions of such conflicts, from cosmopolitanism to racism and xenophobia. This book is aimed at researchers in various fields of the social sciences and can be used as course reading for undergraduate, graduate and postgraduate courses in the areas of international migration, transnational and European studies. It will be a beneficial resource for scholars looking for material on the most current conceptual tools for analysis of the nexus of migration and societal transformation in Europe.
