Intégrer les archives d'un écrivain - ses carnets, son journal personnel, sa correspondance, les avant-textes de ses œuvres publiées, voire ses notes de lecture - dans l'analyse de son œuvre canonique permet, on le sait, d'éclairer celle-ci autrement, d'en dégager un sens jusque-là inaccessible. Au Canada, même si quelques initiatives d'envergure se sont développées au cours des vingt dernières années, le versant francophone des archives d'écrivains est demeuré peu exploré par les chercheurs, surtout en ce qui concerne les corpus hors Québec. Cet ouvrage propose un état présent des recherches menées dans plusieurs fonds d'archives et des études portant sur différents corpus ponctuels composés des avant-textes et autres documents appartenant aux dossiers génétiques d'œuvres publiées. Si les

études sur le corpus québécois (Roy, Guèvremont, Hébert, Ducharme, Aquin, Tremblay, etc.) dominant en nombre, celles portant sur l'Ontario (Poliquin), le Manitoba (Léveillé) et l'Acadie (Leblanc) sont aussi représentées. Les différentes collaborations permettent de mettre en lumière la multiplicité des perspectives sous lesquelles il est possible d'envisager les questionnements liés aux fonds d'archives - notamment génétique, thématique, sémiotique, historique, sociologique, diaristique -, tout en faisant ressortir la diversité et la richesse des différents fonds et les problèmes et lacunes qui leur sont inhérents. Une coédition avec le Centre de recherche en civilisation canadienne-française. Ce livre est publié en français. - Engaging with a writer's archives - their notebooks, personal journals, correspondence, drafts, and annotations - when analyzing their canonical work, enables us to shed a different kind of light on the latter, to penetrate a hitherto inaccessible meaning. Although some significant initiatives have emerged in Canada over the past

two decades, the Francophone aspect of writers' archives has remained relatively untouched by researchers, especially with regard to the corpus outside Quebec. This work provides insight into the present state of research into several archival collections and of studies into different unique collections comprising drafts and other documents that are part of genetic records of published works. While the studies on the Quebec corpus (Roy, Guèvremont, Hébert, Ducharme, Aquin, Tremblay, etc.) are more numerous, those on Ontario (Poliquin), Manitoba (Léveillé) and Acadia (Leblanc) are also represented. The various collaborations emphasize the range of possible approaches towards working with archives – including genetic, thematic, semiotic, historical, sociological, and diaristic – while highlighting the diversity and richness of different collections as well as their inherent problems and gaps. A copublication with the Centre de recherche en civilisation canadienne-française. This book is published in French.

Ghost Image is made up of sixty-three short essays—meditations, memories, fantasies, and stories bordering on prose poems—and not a single image. Hervé Guibert's brief, literary rumination on photography was written in response to Roland Barthes's *Camera Lucida*, but its deeply personal contents go far beyond that canonical text. Some essays talk of Guibert's parents and friends, some describe old family photographs and films, and spinning through them all are reflections on remembrance, narcissism, seduction, deception, death, and the phantom images that have been missed. Both a memoir and an exploration of the artistic process, *Ghost Image* not only reveals Guibert's particular experience as a gay artist

captivated by the transience and physicality of his media and his life, but also his thoughts on the more technical aspects of his vocation. In one essay, Guibert searches through a cardboard box of family portraits for clues—answers, or even questions—about the lives of his parents and more distant relatives. Rifling through vacation snapshots and the autographed images of long-forgotten film stars, Guibert muses, “I don’t even recognize the faces, except occasionally that of an aunt or great-aunt, or the thin, fair face of my mother as a young girl.” In other essays, he explains how he composes his photographs, and how—in writing—he seeks to escape and correct the inherent limits of his technique, to preserve those images lost to his technical failings as a photographer. With strains of Jean Genet and recurring themes that speak to the work of contemporary artists across a range of media, Guibert’s *Ghost Image* is a beautifully written, melancholic ode to existence and art forms both fleeting and powerful—a unique

memoir at the nexus of family, memory, desire, and photography.

Treasuries of France, and other sources. The works of Limoges were created for important ecclesiastical and royal patrons. The wealth of enameling preserved from

the Treasury of the abbey of Grandmont, just outside Limoges, is due chiefly to the Plantagenet patronage of Henry II and his queen, Eleanor of Aquitaine. Enamels created during their reign resonate with the elegant style of the court, and the dramatic history of Henry's monarchy is evoked by such works as the.

Next to containing numerous contributions on the use, manufacture and trade of glass in the Antique period, also the importance of glass in more recent historical periods, starting from the 15th century and ending in the 21st century, are dealt with in detail. Additionally, apart from contributions on stained

glass, on glass decoration and the use of enamelling, a substantial series of papers dealing with the chemical analysis of glass form part of this proceedings volume. -- Book Jacket.

The Originality of the Avant-Garde and Other Modernist Myths

Co-founder and co-editor of *October* magazine, a veteran of *Artforum* of the 1960s and early 1970s, Rosalind Krauss has presided over and shared in the major formulation of the theory of postmodernism. In this challenging collection of fifteen essays, most of which originally appeared in *October*, she explores the ways in which the break in style that produced postmodernism has forced a change in our various

understandings of twentieth-century art, beginning with the almost mythic idea of the avant-garde. Krauss uses the analytical tools of semiology, structuralism, and poststructuralism to reveal new meanings in the visual arts and to critique the way other prominent practitioners of art and literary history write about art. In two sections, "Modernist Myths" and "Toward Postmodernism," her essays range from the problem of the grid in painting and the unity of Giacometti's sculpture to the works of Jackson Pollock, Sol Lewitt, and Richard Serra, and observations about major trends in contemporary literary criticism.
