When Jesus Is in the Boat Thomas Nelson
 J. Richard "Dick" Steffy stood inside the limestone hall of the Crusader castle in Cyprus and looked at the wood fragments arrayed before him. They were old beyond belief. For more than two millennia they had remained on the sea floor, eaten by worms and soaking up seawater until they had the consistency of wet cardboard. There were some 6,000 pieces in all, and Steffy's job was to put them all back together in their original shape like some massive, ancient jigsaw puzzle. He had volunteered for the job even though he had no qualifications for it. For twenty-five

years he'd been an electrician in a small, land-locked town in Pennsylvania. He held no advanced degrees—his understanding of ships was entirely self-taught. Yet he would find himself half a world away from his home town, planning to reassemble a ship that last sailed during the reign of Alexander the Great, and he planned to do it using mathematical formulas and modeling techniques that he'd developed in his basement as a hobby. The first person ever to reconstruct an ancient ship from its sunken fragments, Steffy said ships spoke to him. Steffy joined a team, including friend and fellow scholar George Bass, that laid a foundation for the field of nautical archaeology. Eventually moving to Texas A&M University, his lack of the usual academic credentials caused him to

be initially viewed with skepticism by the university's administration. However, his impressive record of publications and his skilled teaching eventually led to his being named a full professor. During the next thirty years of study, reconstruction, and modeling of submerged wrecks, Steffy would win a prestigious MacArthur Foundation "genius" grant and would train most of the preeminent scholars in the emerging field of nautical archaeology. Richard Steffy's son Loren, an accomplished journalist, has mined family memories, archives at Texas A&M and elsewhere, his father's papers, and interviews with former colleagues to craft not only a professional biography and adventure story of the highest caliber, but also the first history of a field that

continues to harvest important new discoveries from the depths of the world's oceans.

Jesus: His Story in Stone is a reflection on still-existing stone objects that Jesus would have known, seen, or even touched. Each of the seventy short chapters is accompanied by a photograph taken on location in Israel. Arranged chronologically, the one-page meditations compose a portrait of Christ as seen through the significant stones in His life, from the cave where He was born to the rock of Calvary. While packed with historical and archaeological detail, the book's main thrust is devotional, leading the reader both spiritually and physically closer to Jesus.

Full description of a unique find, the bronze ram of a 5th century BC Greek warship off the Israeli coast. This beautiful publication examines the ram from metallurgical and stylistic perspectives, and then proceeds to a discussion of the changing role of the ram in ancient naval battles, and the type of ship that would have carried it.

What is a Galilean? What were the criteria of defining a person as a Galilean - archaeologically or with respect to literary sources such as Josephus or the rabbis? What role did religion play in the process of identity formation? Twenty-two articles based on papers read at conferences at Cambridge, Wuppertal and Yale by experts from 7 countries shed light on a complex region, the pivotal geographic and cultural context of both earliest Christianity and rabbinic Judaism. In these papers, ancient Galilee emerges as a dynamic region of continuous change, in which religion, 'ethnicity', and 'identity' were not static monoliths but had to be negotiated in the context of a multiform environment subject to different influences.

Jesus: His Story in Stone Selah Book Press

If scholars no longer necessarily find the essence and origins of what came to be known as Christianity in the personality of a historical figure known as Jesus of Nazareth, it nevertheless remains the case that the study of early Christianity is dominated by an assumption of the force of Jesus's personality on divergent communities. In *The Godman and the Sea*, Michael J. Thate shifts the terms of this study by focusing on the Gospel of Mark, which ends when Mary Magdalene, Mary the mother of James, and Salome discover a few days after the crucifixion that Jesus's tomb has been opened but the corpse is not there. Unlike the other gospels, Mark does not include the resurrection, portraying instead loss, puzzlement, and despair in the face of the empty tomb. Reading Mark's Gospel as an exemplary text, Thate examines what he considers to be retellings of other traumatic experiences—the stories of Jesus's exorcising demons out of a man and into a herd of swine, his stilling of the storm, and his walking on the water. Drawing widely on a diverse set of resources that include the canon of western fiction, classical literature, the psychological study of trauma, phenomenological philosophy, the new materialism, psychoanalytic theory, poststructural philosophy, and Hebrew Bible scholarship, as well as the expected catalog of New Testament tools of biblical criticism in general and Markan scholarship in particular, *The Godman and*

the Sea is an experimental reading of the Gospel of Mark and the social force of the sea within its traumatized world. More fundamentally, however, it attempts to position this reading as a story of trauma, ecstasy, and what has become through the ruins of past pain.

One of the most enjoyable dreams of childhood is that of finding a treasure. Here is a true story of a dream comes true. One day on the year 1986, when the sea level was low, two Israeli brothers, living in a kibbutz on the shores of the Sea of Galilee, found an ancient boat. Little did they know that archaeologists will enthusiastically crown their discovery as one of the most important reminders from Jesus' lifetime! Excavating the boat from the mud without damaging it was a difficult process which lasted 12 days and nights. The ancient wood was extremely fragile when exposed to the atmosphere and the boat had to be rescued by wrapping it in a mantle of fiberglass and insulating foam, which helped with both keeping it together, and floating it to its new location in the museum adjacent to the place where it was found. Since then, it is one of the highlights in every Christian pilgrimage tour to the Holy land. The "Jesus Boat" story for kids ties beautifully together this stunning discovery and the biblical text from Mark 4:35-41, about Jesus calming with his miraculous power a sea storm. "it was a boat much like this ancient one", it reveals, "that Jesus and his friends sailed out one night...".

Have you ever closed your Bible and

thought, What did I just read? Or maybe you have tried to read through the Bible in a year, but quit when it felt confusing or impersonal. The Bible Recap is here to help. Tara-Leigh Cobble, host of the popular Bible Recap podcast, walks readers through a one-year chronological Bible reading plan and explains each day's passage in an easy-to-understand way. Emphasizing how God's character can be seen throughout Scripture, the recaps are simple and short yet deep enough to help you understand the hard parts and press into knowing God better. As Cobble says, The primary role of Scripture is to show me who God is, and if I behold God, my life will naturally conform around what I learn about him. The Bible Recap will not only help you understand the entire narrative of the Bible, it will fortify your faith.

The Man Who Thought like a Ship Harper Collins

This book is about the sea of Galilee, the fishing boat, and the men who used it. They are all intertwined in the life of Jesus of Nazareth as he ministered to the people of Galilee, called some of his apostles from among their fisherman, and taught them his gospel.

This remarkable true story recounts one of the great discoveries of the century: finding a 2000-year-old boat from the Sea of Galilee. Shelley Wachsmann, a respected nautical archaeologist, shares the joy and drama he felt in discovering and excavating the first ancient boat from this biblical location. Through his perceptive eyes, we experience the adventure of a lifetime as he offers his personal account of first setting eyes on and then preserving this unique treasure. Wachsmann is a master storyteller, interweaving his own unforgettable story of this challenging excavation with the writings of the past. Jews and Christians alike will be captivated by his search for the boat's identity. Wachsmann - like a detective - hunts down clues that will reveal the boat's actual history. Since the boat turns out to be a 2000 year old craft, he carefully examines the Gospels for passages that will shed light on this wondrous vessel. This ever-curious author also traces Jewish historical texts to discover that the Sea of Galilee, during the boat's vibrant past, was the setting for one of the most tragic massacres of Jews - the Battle of Migdal. During this sea battle, we learn, Roman soldiers mercilessly slaughtered Jews as they attempted to escape in boats like this one, turning the Sea of Galilee into a sea of crimson. The saga of tenderly extracting this extraordinary boat from the earth,

protecting its timbers, and restoring it to health is a compelling tale on its own. Wachsmann impresses us with the dedication and creativity of his makeshift team in improvising answers to the seemingly impossible logistic problems that dog them every step of the way. Still, generosity abounds and actual rainbows appear as scores of volunteers pull together to save this singular monument of the past. Wachsmann punctuates the absorbing details of preserving this artifact with the rich history that surrounds the Sea of Galilee, making this a uniquely enduring and personal work.

An Ancient Boat Discovered in the Sea of Galilee Carta Jerusalem

"This is a book about the amazing discovery of a wooden boat that did survive, despite the contrary logic and evidence. For almost 2,000 years in the freshwater of the Sea of Galilee, this boat lasted against all odds. The one thing that is most important in this whole story is the fact that this boat connects modern Christians with their Lord and Savior in a completely new way. This discovery repaints the sections of the gospels that take place around the Sea of Galilee in a light previously unseen. Despite paintings of Jesus walking on water and calming the storm, no one knew what the disciples' boat would have looked like. Now, for the first time, we do." [Prologue].

In 1986, when drought brought the level of the Sea of Galilee unusually low, the two brothers Moshe and Yuval Lufan unearthed the timber frame of an ancient fishing boat. Archaeologist Kurt Raveh was to call the two-thousand-year-old boat of the very type Jesus used to sail the Galilee the most important discovery of the twentieth century. Recovery and preservation of the waterlogged Jesus boat was a unique challenge, as no other wooden object had ever survived two millennia in sweet water. Here is the emotional, suspenseful and inspiring story of the boat and those who dedicated fourteen years of their lives to making it available for all the world to see.

The ancient boat from the Sea of Galilee exhibited at the Yigal Allon Museum at Kibbutz Ginosar speaks of pivotal times on the lake two millennia ago, when an itinerant rabbi walked its shores and sailed its waters with his followers, and changed the world forever. This volume aims to give the non-expert reader an in-depth understanding of the boat, the story of her discovery and excavation and, most

importantly, her significance for illuminating Jesus ministry by helping us better understand its contemporaneous milieu of seafaring and fishing on the Sea of Galilee. "

Get ready for the wettest, stormiest, wildest trip through the Gospel you've ever taken! The gospels are dramatic, wild, and wet—set in a rich maritime culture on the shores of the Sea of Galilee. Jesus' first disciples were ragtag fishermen, and Jesus' messages and miracles teem with water, fish, fishermen, net-breaking catches, sea crossings, boat-sinking storms, and even a walk on water. Because this world is foreign and distant to us, we've missed much about the disciples' experiences and about following Jesus—until now. Leslie Leyland Fields—a well-known writer, respected biblical exegete, and longtime Alaskan fisherwoman—crosses the waters of time and culture to take us out on the Sea of Galilee, through a rugged season of commercial fishing with her family in Alaska, and through the waters of the New Testament. You'll be swept up in a fresh experience of the gospels, traveling with the fishermen disciples from Jesus' baptism to the final miraculous catch of fish—and also experiencing Leslie's own efforts to follow Christ out on her own Alaskan sea. In a time when so many are "unfollowing" Jesus and leaving the Church, *Crossing the Waters* delivers a fresh encounter with Jesus and explores what it means to "come, follow me."
