The Code of Conduct represents a formal expression of the standards of military conduct understood and accepted by most countries for centuries. It serves as a guideline to be followed by all the members of the armed forces, particularly when in captured or detained status.

**Air Force Handbook 10-644 Survival Evasion Resistance Escape Operations, 27 March 2017** SF Nonfiction Books

This handbook describes the various environmental conditions affecting human survival, and describes isolated personnel (IP) activities necessary to survive during successful evasion or isolating events leading to successful recovery. It is the fundamental reference document providing guidance for any USAF service member who has the potential to become isolated; deviations require sound judgment and careful consideration. This publication provides considerations to be used in planning and execution for effective mission accomplishment of formal USAF Survival, Evasion, Resistance, and Escape (SERE) training, environmentally specific SERE training, and combat survival continuation training programs. The tactics, techniques, and procedures in this publication are recognized best practices presenting a solid foundation to assist USAF service members to maintain life and return with honor from isolating events. This handbook also applies to US Air Force Reserve and Air National Guard units and members. Refer recommended changes and questions about this publication to the office of primary responsibility (OPR) using the AF Form 847, Recommendation for Change of Publication; route the AF Form 847 from the field through major command (MAJCOM) publications/forms managers. Ensure that all records created as a result of processes prescribed in this publication are maintained IAW Air Force Manual (AFMAN) 33-363, Management of Records, and disposed of IAW the Air Force Records Disposition Schedule (RDS) in the Air Force Records Information Management System (AFRIMS). A thoroughly trained, motivated enlisted workforce is the Air Force's key resource in meeting challenges of the future. The Career Field Education and Training Plan (CFETP) for AFSC 1TOX1, Survival, Evasion, Resistance, and Escape (SERE) Specialist, provides management with the life-cycle education/training framework and guidance necessary for planning, developing, managing, and conducting career field education and training programs. It provides a training guide for the

career field that identifies mandatory and optional skill level training received during career progression. This CFETP identifies the specific training individuals receive during each phase of their career. This plan will provide personnel a clear path to success, instill rigor in all aspects of career field training, and train today's workforce for tomorrow's jobs.

This is a report of an occupational survey of the Survival, Evasion, Resistance, and Escape Training (SERE) career ladder conducted by the Air Force Occupational Measurement Squadron (AFOMS). The current SERE career ladder was created in October 1993 with the conversion from AFSC 121X0 to AFSC 1TOX1. Survey data will be used to identify current utilization patterns among career ladder personnel and evaluate career ladder documents and training programs. The last OSR for the SERE career ladder was published in November 1992.

Survival Evasion Resistance Escape (SERE) Operations describes the various environmental conditions affecting human survival and describes isolated personnel activities necessary to survive during successful evasion or isolating events leading to successful recovery. It is the fundamental reference document providing guidance for any USAF service member who has the potential to become isolated and needs to survive in the wild while evading the enemy. This publication provides considerations to be used in planning and execution for effective mission accomplishment of formal USAF Survival, Evasion, Resistance, and Escape (SERE) training, environmentally specific SERE training, and combat survival continuation training programs. You will learn about what it takes for your body and mind to survive in adverse conditions behind enemy lines. Food, clothing, shelter, ropes, knots, navigation, everything that could make the difference between death and survival is covered. Know what it takes to escape capture and return to safety. The tactics, techniques, and procedures in this publication are recognized best practices presenting a solid foundation to assist USAF service members to maintain life and return with honor from isolating events. This handbook also applies to US Air Force Reserve and Air National Guard units and members.

This regulation sets forth responsibilities, policies, and procedures for training individual soldiers in support of the objectives of the Code of Conduct as explained in chapter 4. It covers the articles in the Code as well as training in survival, evasion, resistance, and escape (SERE). (See para 2-9.) It also provides policy and guidance for U.S. military personnel who are detained, captured, or taken hostage during peacetime.
