The rise of globalization  
and the persistence of  
global poverty are  
straining the territorial

paradigm of human  
rights. This book asks if  
states possess  
extraterritorial obligations  
under existing  
international human  
rights law to respect and  
ensure economic, social  
and cultural rights and  
how far those duties

extend. Taking a departure point in theory and practice, the book is the first of its kind to analyze the principal cross-cutting legal issues at stake: the legal status of obligations, jurisdiction, causation, division of responsibility, and remedies and accountability. The book focuses specifically on the role of states but also addresses their duties to regulate powerful nonstate actors. The authors demonstrate that many key issues have been resolved or clarified

in international law while others remain controversial or await the development of further practice, particularly the scope of jurisdiction and the quantitative dimension of extraterritorial obligations to fulfil.

In *The Quest for Meaning*, Tariq Ramadan, philosopher and Islamic scholar, invites the reader to join him on a journey to the deep ocean of religious, secular, and

indigenous spiritual traditions to explore the most pressing contemporary issues. Along the way, Ramadan interrogates the concepts that frame current debates including: faith and reason, emotions and spirituality, tradition and modernity, freedom, equality, universality, and civilization. He acknowledges the greatest flashpoints and attempts to bridge divergent paths to a common ground between these religious and intellectual traditions. He

calls urgently for a deep and meaningful dialogue that leads us to go beyond tolerant co-existence to mutual respect and enrichment. Written in a both direct and meditative style this is an important, timely and intelligent book that aims to direct and shape debate around the most important questions of our time.

Emily Halban developed anorexia in her final year at school. She went on to

university at Oxford where her disease took on a powerful dimension and by her final year she was so debilitated that she had to sit her exams in a separate room where she could be fed continuously throughout each one. With heartbreaking candour and poignant intimacy, Emily vividly chronicles the complexities and inner struggles of living with anorexia. Two years on, she traces her disease from its elusive origins, through its darkest moments of deprivation,

guilt and self-loathing, and finally recounts her journey towards recovery. Emily allows us to understand what it's really like to suffer from anorexia, exposing its secrets and dispelling some of the myths that shroud it. Alive with self-awareness, but never self-pity, *Perfect* is an inspiring read that will help those battling with the horrors of anorexia find a way out, and those on the outside to understand more.

From bestselling author Gary Krist, a vibrant and immersive account of New Orleans' other civil war, at a time when commercialized vice, jazz culture, and endemic crime defined the battlegrounds of the Crescent City Empire of Sin re-creates the remarkable story of New Orleans' thirty-years war against itself, pitting the city's elite "better half" against its powerful and long-entrenched underworld of vice, perversity, and crime. This early-20th-century

battle centers on one man: Tom Anderson, the undisputed czar of the city's Storyville vice district, who fights desperately to keep his empire intact as it faces onslaughts from all sides. Surrounding him are the stories of flamboyant prostitutes, crusading moral reformers, dissolute jazzmen, ruthless Mafiosi, venal politicians, and one extremely violent serial killer, all battling for primacy in a wild and wicked city unlike any other in the world.
