The paradigm shift in the field of education focuses on the development of life skills, attitudes and values. This was the prime focus which made us divide this series into two themes: LIFE SKILLS and ATTITUDES & VALUES. Each theme strongly voices out in three levels - beginners, the avid readers and the experts making it a six book series. The book "Breathing in Bodhi - the General Awareness/ Comprehension book - Attitude & Values / Level 3 for the experts" is the third of the three books based on the Attitude & Values theme. • The book contains 30 fascinating stories about People, Places, Events, Ideas and Issues. The stories are further based on Attitude & Values - 15 each on Attitude and Values. • The book aims at enhancing the comprehension skills along with augmenting the general awareness of children leading to the development of the

Attitude & Values. • The book is an honest attempt to trigger the young minds to think, explore and relate to the world around them. • It makes them THINK, COMPREHEND AND ANALYSE. The articles given for the comprehension purpose are actually in sync to the real world. • Each story has been elaborately discussed and is analysed by the following tools: • Wordsmith - aims at developing the vocabulary and contextual usage of words. • Finding the Fact - aims at developing the comprehension skills • Extra Inning - gives an opportunity to the reader to explore the extra information related to the story. • Reality Check - a platform to create opinions about the various issues related to the story. • Only when the reader is in a position to generate thoughts/ opinions about a given situation/ issue then only he is in a position to provide a real solution model. • This series is a must have for people who not only want to build in their reading habit and develop their vocabulary but also want to enroot an eye for comprehending, analyzing and transforming their approach from problem finders towards becoming PROBLEM SOLVERS by reinforcing the power of Attitude & Values.

In this present era of competition, every competitive examination consists of 5 sections Quantitative Aptitude, Reasoning, General English, Computer Science and General Awareness related to banking industry. After teaching more than 18,000 students in 28 years, we have seen a lot of students spending their time practicing aptitude and reasoning alone. But the students who cleared the exam would definitely say the above method of practicing would not help because merely passing in Aptitude and Reasoning sections will not help. Students should also think about the other sections and overall cut off. We know a lot of students who cleared all the sections but failed to clear the overall cut off. In fact, Practicing GK and English is the only way to raise the overall cut-off. So, we have decided to dedicate this entire magazine just for General Awareness & Banking awareness. We sincerely believe that students who practice the next 100 pages would secure 40 marks from the Banking awareness section. We thank Google Play for publishing our e-magazine on their mobile platform. We also thank our students who assisted to bring this magazine out.
