Deadly Waters CABI

During a visit to Vancouver Island to spend the summer with her relatives, eleven-year-old Samantha, trying to get away from her teasing cousins, spends most of her time watching a cougar and her two cubs in the wilderness.

Eden Mariner Books

Big cats such as lions, tigers, leopards, and jaguars fascinate us like few other creatures. They are enduring symbols of

natural majesty and power. Yet despite the magnetic appeal of the big cats, their origins and evolutionary history remain poorly understood—and human activity threatens to put an end to the big cats' glory. *On the Prowl* is a fully illustrated and approachable guide to the evolution of the big cats and what it portends for their conservation today. Mark Hallett and John M. Harris trace the origins of these iconic carnivores, venturing down the evolutionary pathways that produced the diversity of big cat species that have walked the earth. They place the evolution and

paleobiology of these species in the context of ancient ecosystems and climates, explaining what made big cats such efficient predators and analyzing their competition with other animals. Hallett and Harris pay close attention to human impact, from the evidence of cave paintings and analysis of ancient extinctions up to present-day crises. Their engaging and carefully documented account is brought to life through Hallett's detailed, vivid illustrations, based on the most recent research by leading paleontologists. Offering a fresh look at the rise of these majestic animals, *On the Prowl* also makes a powerful case for renewed efforts to protect big cats and their habitats before it is too late.

Named to the Sequoyah Award Master List: Experienced rider Lily is ready for a real horse—will Beware the mare bring her good or bad luck? The bright-eyed bay mare in the truck looks very small. Lily's grandfather brought her home to their Vermont farm as a present for Lily. She's shaggy, her mane is tangled, and she looks as if she hasn't been brushed in a long time. To Lily, she's beautiful. But Lily has to solve the mystery of her name. Why is she called Beware? And why did Gramp get her so cheap? Is something wrong with her? Lily can't imagine what—she's already crazy about the little bay. The test will be when Lily takes her out for her first ride. What will happen then? This charming story of a girl and her pony will capture the hearts of horse-crazy young readers

everywhere.

A swashbuckling story of two very different cat brothers and their adventures at sea. Cecil and Anton are as different as port and starboard. Cecil, stocky and black with white patches, thirsts for seafaring adventure as he roams the docks of his harborside home, taking day trips on fishing boats when the chance comes along. Slim, gray Anton prefers listening to the sailors' shanties at the town saloon. But one day when Anton goes to port, he's taken to be a ratter on a ship bound for the high seas. Knowing little of the wide open

ocean that lies beyond the harbor, Cecil boards another ship in hopes of finding Anton. But what begins as a rescue mission turns into a pair of high-seas adventures. Anton takes on a fierce rat, outwits hungry birds, and forges a forbidden friendship, while Cecil encounters dolphins and whales and finds himself in the middle of a pirate raid. On an ocean as vast as the one Anton and Cecil have discovered, will they ever see home—or each other—again? Orange Prize-winning author Valerie Martin and Lisa Martin present a colorful cast of characters, rich historical detail, and lyrical storytelling that will delight fans of such classic animal adventures as *The Wind in the Willows*, *Stuart Little*, and *Poppy*.
Writers, Readers, and the Conversations

Between Them Open Road Media
 Reveals the ongoing alien manipulation of humanity and how we can break free

- Explores how the Anunnaki have maintained invisible surveillance over us and how they control our development through religion, secret societies, and catastrophes
- Reveals how they feed off our energies and how this ability has allowed them to remain here on Earth as multidimensional entities, enforcing their control invisibly
- Explains how they established religion to control us and how Gnostic Christianity--which came from Christ and not the Anunnaki--offers a way out of their matrix of control

Cuneiform texts found on clay plates in Mesopotamia tell us about an extraterrestrial race, called the Anunnaki, who came from space to

exploit our planet. Through genetic manipulation, they created modern humans from existing earthly life forms to serve them as slaves. They physically left our planet millennia ago, but as Jan Erik Sigdell reveals, their influence and control over humanity is still pervasive and significant. Sigdell explains how the Anunnaki have maintained invisible surveillance over us as well as control over how humanity develops, setting limits on our evolution and holding back our development by means of manipulation and catastrophes, including the deluge immortalized in the Bible and many other ancient myths. He shows how they still manipulate our politics and affairs via secret societies, such as the Illuminati, and the political elite, such as the Bilderberg Group.

Examining ancient descriptions of the Anunnaki as entities that resemble winged reptiles or amphibians, the author also explores their diet and how they feed off blood and the energies given off by lower life forms, such as humans, when they are expressing extreme negative emotions, having sex, or dying. This energy-feeding ability has allowed them to remain here on Earth as multidimensional entities, enforcing their control invisibly. He explains how the Anunnaki established religions as tools for control, setting up the major religions with themselves as “gods” and playing them against each other to keep humanity’s attention away from ongoing Anunnaki manipulation. They have also hidden from us the existence of the true highest creator, who created the cosmos

as well as the Anunnaki themselves. The author reveals how the highest creator sent a messenger called Jesus to expose the Anunnaki and show us a way out of their matrix of control through a spirituality based on love, empathy, and sacred sexuality. But the “god” of the Anunnaki defeated this messenger and replaced him with a false Christ. This led to the development of Paulinian Christianity under Anunnaki influence, as well as other parallel religions such as Islam, and the suppression and elimination of the original Christianity, Gnostic Christianity. With the discovery of hidden Gnostic texts and teachings at Nag Hammadi in 1945, the way is now paved for our release from the reign of the Anunnaki.

Finding Elmo Simon and Schuster

Two brothers bound together by affection and responsibility. Jadran is five years older than Josh and huge enough to be nicknamed Giant. Josh is younger, and smaller; but his sweet and stubborn brother thinks in a way that would be more typical of a small child. They are both dealing with changes to their newly blended, Muslim family. So Josh looks after Jadran and they both adjust. When the brothers find an injured young crane, Jadran wants to bring it back to their small apartment and teach it to fly at any cost. And it turns out the cost is high. Intensely moving without ever slipping into sentimentality, *The Blue Wings* is a warm, love-filled story about fragility, strength, and brotherhood, in all its complications.

A cockroach wakes up one morning and discovers that he has turned into a boy Shobag likes his life as a cockroach.

Like the others in his “tribe,” he was

named for the place of his birth—in his case, a white summer sandal. He enjoys living in a Boston apartment building with his parents, Drainboard and Under The Toaster, although they've lost countless relatives to jumping spiders, water bugs, beetles, and the deadly fumes of the dreaded exterminator. So when Shoebag discovers that he's been transformed into a person, he's horrified. But the worst is yet to come. Shoebag is adopted by the Biddle family and renamed Stu Bagg. Mr. Biddle enrolls him in Beacon Hill Elementary School, and every night for one hour before bedtime, he watches television with Eunice "Pretty Soft" Biddle, his new seven-year-old sister, who loves the color pink and is the star of toilet paper commercials. At school, Shoebag tries to

fit in as a human, while back home he tries to protect his insect family from spiders, cats, and the Zapman. Then Shoebag discovers a secret formula that could change him back into a roach. All he has to do is choose. This ebook features an illustrated personal history of M. E. Kerr including rare images from the author's collection.

Escape From Fear** National Geographic
Books

Investigates and questions the scientific consensus on the origins of civilization Do we, the human species, really know who we are or where we came from or how we originated or our place in the cosmos? Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to

keep people in power and everyone else in line? Exploring alternative theories on the establishment of society and civilization, *Hidden History: Ancient Aliens and the Suppressed Origins of Civilization* looks at a variety of dissenting, suppressed, and forbidden accounts of history and the origins of humanity. It takes a broad and inclusive survey of historical documents, various theories, and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong. The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization. It combines cutting-edge science with metaphysical, spiritual, and even paranormal views, daring to ask whether there might be a better

explanation for humanity's existence and the origins of civilization than the current scientific consensus. *Hidden History* looks at the multiverse and parallel dimensions, the ancient alien theory, metaphysics, and hypotheses beyond physical perception, the eleven dimensions of string theory, radio telescopes that penetrate to the event horizon of our universe, mathematical equations that take us where no one has gone before, and the world-wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths. With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography provides sources for further exploration, and an extensive index adds to its usefulness. This fascinating book is a

thorough investigation and examination of the mysteries surrounding early civilizations, their myths, legends, histories, monuments—and lasting legacies.

Starring Arabelle Open Road Media

An untamed horse has run away—can Lily and Beware find him and bring him home? After a storm scatters all the livestock on her grandparents' farm, Lily discovers that Gramp's wild black Morgan is missing. Stogie's a horse with a mind of his own, and when he runs, no one can ever catch him. Stogie may be boss of the other animals on the farm, but he's afraid of people. And a frightened horse is a dangerous one. Lily's determined to find the black Morgan and bring him home before he ends up getting hurt—or shot. Since no

one can catch Stogie, no one can lead him. But Lily brings a rope anyway. As she and Beware set off on their search, she tries to put herself in Stogie's shoes to figure out where he would go. Then she gets an idea . . . Can she and Beware find and catch Stogie before it's too late?

Fonzaso Italy, between two wars The daughter of a strong-willed midwife falls for a local emigrating to America. As Mussolini and the Nazis threaten to destroy their love forever, she must learn to survive and face war alone. *Irkadura* New Directions Publishing Daisy and Belmont's start was red hot and passionate. But after suffering a devastating loss, grief threatens to end their fated romance. But one thing is for

certain, wherever they run to their incessant love for each other will follow. Fall in love all over again in *Know Her, Love Her* (Daisy & Belmont, #1). The fourth steamy, sensual, and addictive contemporary romance in the LOVE in the USA series by author, Z.L. Arkadie. [Anton and Cecil, Book 3](#) EdenThe truth about our originsLove in the Big City A French Bulldog from Massachusetts plans to take over the world but first he must contend with superpowered foes in this humorous graphic novel for kids. When Kirby, a French Bulldog with a serious Napoleon Complex, moves to a new home in the quaint New England town of Strasburg, Massachusetts, and stumbles upon a forgotten secret laboratory, he realizes that his dreams of Planetary Conquest are finally within

paw's reach. But, suddenly, Kirby realizes he isn't alone. Seemingly out of nowhere, a strange group of people appear, exhibiting what Kirby can only describe as superpowers! Kirby must rise up against all who stand in his way to emerge victorious in this ultimate quest for world domination. The Atomic Frenchie is the first book in a series following the adventures of Kirby, professional supervillain and future ruler of Earth, as he schemes and battles his way past evil library robots, supernatural cat ladies, superpowered mail men, and more bizarre characters to achieve his sinister dreams of ruling the world. Praise for Atomic Frenchie "Sweetly inspired lunacy of the highest order, a unique and perfect blend of comic book and novel that will delight readers young

and old. Kirby's lovably evil adventures are next-generation Pinky & The Brain. Sniegoski and McWeeney are mad scientists, and I can't wait to read whatever madcap mayhem they cook up next!" —Christopher Golden, New York Times–bestselling author of Ararat "In the paper jungle when you hear the beautiful rhythms of the Tom-Toms (Tom Sniegoski and Tom McWeeney), heed their call and you will be rewarded to an unbeatable combo of prose and art. Atomic Frenchie has it all!" —Geof Darrow, comics illustrator (Hard Boiled, The Big Guy and Rusty the Boy Robot)

Omar wants a snake more than anything, but his mom is unenthusiastic to say the least. However, the family

strikes a compromise: Omar can get a corn snake; but it must stay inside his room, where his mom will not have to set eyes on it. So when Arrow escapes, Omar has to keep it a secret. But with an inquisitive little sister and parents mindful of odd behavior, it's not easy.

The Secret of the Dark Stars

Chronicle Books

On the heels of I Am the Brother of XX and These Possible Lives, here is Jaeggy's fabulously witchy first book in English, with a new Peter Mendelsund cover A novel about obsessive love and madness set in postwar Switzerland, Fleur Jaeggy's eerily beautiful novel begins innocently enough: "At fourteen I was a boarder in a school in the Appenzell." But there is nothing innocent here. With the off-handed

remorselessness of a young Eve, the narrator describes her potentially lethal designs to win the affections of Frédérique, the apparently perfect new girl. In Tim Parks' consummate translation (with its "spare, haunting quality of a prose poem," TLS), *Sweet Days of Discipline* is a peerless, terrifying, and gorgeous work.

Joseph Anton Ksenia Anske

At the end of *The Pirate Captain's Daughter*, Catherine and cabin boy William are marooned on Pox Island by the murderous crew of the pirate ship *Reprisal*. The young lovers see no hope of escape. In *Voyage of the Sea Wolf*, the continuing saga of Catherine's sea adventures, she and William are rescued from their island prison by the *Sea Wolf*, a pirate ship pursuing the

Reprisal. Catherine worries that these new pirates will send her back to the island once they discover she's a girl. But then, she meets the captain of the *Sea Wolf*. A Woman! Surely, Catherine thinks, the bloodshed and brutality she and William experienced aboard the *Reprisal* can't happen again, especially under the leadership of a female captian. But just as things seem to be going their way, the captain takes a liking to William. Catherine is forbidden to see him. If Catherine and William want to stay together, they must find a way to now escape from the *Sea Wolf*.

NASA officials hot on his trail.

Oliver Dibbs to the Rescue! Algonquin Books

It's not every day you encounter a hamster experiencing an existential crisis, but Sapphire has spent her short pet-store life convinced that she's waiting for...something. At first she thinks it's to be FREE, but it may be possible that life has a greater purpose in store—a purpose Sapphire will discover thanks to a nine-year-old girl whose family is changing in ways she doesn't quite understand. Jeannie's dad has moved out, her mom is always tired and snappish, and her older brother just wants to play video games in his room all day. Jeannie doesn't understand what's going on, but she knows one thing: she really, REALLY wants a

hamster. Her mom promised she could buy one with her Christmas money, but it's been WEEKS since the holidays and Jeannie's beginning to worry she'll never get her pet. But maybe if she does, her dad will come to visit. Maybe a hamster will make everything better. Narrated by Jeannie and Sapphire in alternating chapters, *Sapphire the Great and the Meaning of Life* is a touching middle-grade novel by award-winning author Beverley Brenna that explores themes of family, friendship, togetherness, and self-identity. With a cast that includes a transgender neighbor, a father finally accepting his homosexuality, and a realistic protagonist who will appeal to fans of Ramona Quimby, Brenna's latest offering is an age-appropriate introduction to some difficult subjects

that also abounds with humor and poignancy.
