“Muhammad Yunus is that rare phenomenon, wrote Rashidul Bari, “A Nobel Peace Prize-winning economist famous for his two theories—microcredit and social business—and famous for his successful practical work through Grameen Bank that has already helped millions of poor women break the cycle of poverty.” Rashidul Bari, as a writer, is not new to the subjects of Yunus, microcredit, and social business. As a fellow Bangladeshi, he has written extensively in English and Bengali about Yunus in books, poems, and songs; in magazines and newspapers; and in films. In fact, Bari serves as the Bangladeshi James Boswell to Muhammad Yunus’ Samuel Johnson. Bari’s new book, *Social Business; A Manifesto for Proletariat Revolution*, is a long-awaited, fascinating, clearly and movingly written text in which he not only criticizes Prime Minister Hasina for unleashing her hate mongering to destroy Grameen Bank, but he also explains how microcredit, social business, and Grameen could be used as a weapon in the global battle against poverty, which kills 22,000 people every day. The book is approximately 52,000 words in length with 3 photo albums. It divided into 25 chapters. These chapters explain what Bari has witnessed and learned from Yunus and GB, to emphasize the power and promise of SB. Part I: Chapter one presents observable, empirical, and measurable evidence of poverty as the biggest challenge of the 21st century. Chapter 2 uses the narrative method to describe the history of poverty. Concern about poverty has a long tradition, as according to the Bible “the poor will always be with us.” Rejecting this old notion, Yunus plans to make poverty an artifact in a museum by 2030. Chapter 3 applies the rational choice theory to the concept of social business. Chapter 4 uses the monetary poverty threshold, a concept developed by the World Bank, to measure extreme and moderate poverty, and the Gini coefficient developed by Italian mathematician Corrado Gini to measure relative poverty. Chapter 5, with 13 subdivisions, applies correlation studies to identify the causes of poverty and to illustrate how poverty creates conditions that result in 20,000 deaths every day. Chapter 6 presents the Grameen Social Business (GSB) model. Part II: Chapters 7–12 discuss the life of Muhammad Yunus, the history of microcredit, the rise of the Grameen Bank, and the utility of the GSB model. Chapter 13 deals with the criticism of the bank. Chapters 15–16 highlight women’s empowerment and sustainability, which refutes some of the criticisms in previous chapters. Part III: Chapter 17 reviews the false allegations against Yunus (e.g., Tom Heinemann’s “Caught in Micro Debt”) and investigates why Hasina used Heinemann’s documentary as an excuse to remove Yunus from Grameen Bank. Chapter 18 focuses on the Bangladesh Bank’s view of the founder of Grameen Bank. Chapter 19 examines why the world is stunned by Hasina’s malevolent hate campaign against Yunus and her attempts to take control of the Grameen Bank. Chapter 20 details the Bangladesh High Court decision to uphold the Bangladesh Bank’s illegal decision, which illustrates how the High Court and the Supreme Court have become a “dog sleeping at its owner’s feet.” Chapter 21 uses the Court of King Solomon as an

important lesson that shows that the prime minister of Bangladesh has become a monster. Chapter 23 explains why an Indian immigration officer slapped Rehman Sobhan. Chapter 24 uses “the Trial of Galileo” as an important lesson that illustrates the political vendetta by Hasina against Yunus could be understood as a modern-day replay of the famous conflict between Pope Urban VIII and Galileo Galilei. Chapter 25 documents how Yunus’ removal has sparked protests around the world. It also announces a manifesto for a “Grameen Revolution.” The chapter explains why the inscription on Karl Marx’s tomb can be adapted to Yunus’ Grameen Bank: Poor people—especially the poor women of Bangladesh—UNITE.

Finalist for the 2022 Lincoln Prize One of NPR's Best Books of 2021 A New York Times Critics' Top Book of 2021 A groundbreaking history of the movement for equal rights that courageously battled racist laws and institutions, Northern and Southern, in the decades before the Civil War. The half-century before the Civil War was beset with conflict over equality as well as freedom. Beginning in 1803, many free states enacted laws that discouraged free African Americans from settling within their boundaries and restricted their rights to testify in court, move freely from place to place, work, vote, and attend public school. But over time, African American activists and their white allies, often facing mob violence, courageously built a movement to fight these racist laws. They countered the states’ insurances that states were merely trying to maintain the domestic peace with the equal-rights promises they found in the Declaration of Independence and the Constitution. They were pastors, editors, lawyers, politicians, ship captains, and countless ordinary men and women, and they fought in the press, the courts, the state legislatures, and Congress, through petitioning, lobbying, party politics, and elections. Long stymied by hostile white majorities and unfavorable court decisions, the movement’s ideals became increasingly mainstream in the 1850s, particularly among supporters of the new Republican party. When Congress began rebuilding the nation after the Civil War, Republicans installed this vision of racial equality in the 1866 Civil Rights Act and the Fourteenth Amendment. These were the landmark achievements of the first civil rights movement. Kate Masur’s magisterial history delivers this pathbreaking movement in vivid detail. Activists such as John Jones, a free Black tailor from North Carolina whose opposition to the Illinois “black laws” helped make the case for racial equality, demonstrate the indispensable role of African Americans in shaping the American ideal of equality before the law. Without enforcement, promises of legal equality were not enough. But the antebellum movement laid the foundation for a racial justice tradition that remains vital to this day.

"Historians of the French Revolution used to take for granted what was also obvious to its contemporary observers--that the Revolution was caused by the radical ideas of the Enlightenment. Yet in recent decades scholars have argued that the Revolution was brought about by social forces, politics, economics, or culture--almost anything but abstract notions like liberty or equality. In *Revolutionary Ideas*, one of the world's leading historians of the Enlightenment restores the Revolution's intellectual history to its rightful central role. Drawing widely on primary sources, Jonathan Israel shows how the Revolution was set in motion by radical eighteenth-century doctrines, how these ideas divided revolutionary leaders into vehemently opposed ideological blocs, and how these clashes drove the turning points of the Revolution. *Revolutionary Ideas* demonstrates that the Revolution was really three different revolutions vying for supremacy--a conflict between constitutional monarchists such as Lafayette who advocated moderate Enlightenment ideas; democratic republicans allied to Tom Paine who fought for Radical Enlightenment ideas; and authoritarian populists, such as Robespierre, who violently rejected key Enlightenment ideas and should ultimately be seen as Counter-Enlightenment figures. The book tells how the fierce rivalry between these groups shaped the course of the Revolution, from the Declaration of Rights, through liberal monarchism and democratic republicanism, to the Terror and the Post-Thermidor reaction. In this compelling account, the French Revolution stands once again as a culmination of the emancipatory and democratic ideals of the Enlightenment. That it ended in the Terror represented a betrayal of those ideas--not their fulfillment."--book jacket.

The #1 NEW YORK TIMES Bestseller The basis for the PBS Ken Burns Documentary *The Gene: An Intimate History* From the Pulitzer Prize-winning author of *The Emperor of All Maladies*—a fascinating history of the gene and “a magisterial account of how human minds have laboriously, ingeniously picked apart what makes us tick” (Elle). “Sid Mukherjee has the uncanny ability to bring together science, history, and the future in a way that is understandable and riveting, guiding us through both time and the mystery of life itself.” –Ken Burns “Dr. Siddhartha Mukherjee dazzled readers with his Pulitzer Prize-winning *The Emperor of All Maladies* in 2010. That achievement was evidently just a warm-up for his virtuoso performance in *The Gene: An Intimate History*, in which he braids science, history, and memoir into an epic with all the range and biblical thunder of *Paradise Lost*” (The New York Times). In this biography Mukherjee brings to life the quest to understand human heredity and its surprising influence on our lives, personalities, identities, fates, and choices. “Mukherjee expresses abstract intellectual ideas through emotional stories...[and] swaddles his medical rigor with rhapsodic tenderness, surprising vulnerability, and occasional flashes of pure poetry” (The Washington Post). Throughout, the story of Mukherjee’s own family—with its tragic and bewildering history of mental illness—reminds us of the questions that hang over our ability to translate the

science of genetics from the laboratory to the real world. In riveting and dramatic prose, he describes the centuries of research and experimentation—from Aristotle and Pythagoras to Mendel and Darwin, from Boveri and Morgan to Crick, Watson and Franklin, all the way through the revolutionary twenty-first century innovators who mapped the human genome. “A fascinating and often sobering history of how humans came to understand the roles of genes in making us who we are—and what our manipulation of those genes might mean for our future” (Milwaukee Journal-Sentinel), *The Gene* is the revelatory and magisterial history of a scientific idea coming to life, the most crucial science of our time, intimately explained by a master. “The Gene is a book we all should read” (USA TODAY).

Dr. King's best-selling account of the civil rights movement in Birmingham during the spring and summer of 1963 On April 16, 1963, as the violent events of the Birmingham campaign unfolded in the city's streets, Dr. Martin Luther King, Jr., composed a letter from his prison cell in response to local religious leaders' criticism of the campaign. The resulting piece of extraordinary protest writing, "Letter from Birmingham Jail," was widely circulated and published in numerous periodicals. After the conclusion of the campaign and the March on Washington for Jobs and Freedom in 1963, King further developed the ideas introduced in the letter in *Why We Can't Wait*, which tells the story of African American activism in the spring and summer of 1963. During this time, Birmingham, Alabama, was perhaps the most racially segregated city in the United States, but the campaign launched by King, Fred Shuttlesworth, and others demonstrated to the world the power of nonviolent direct action. Often applauded as King's most incisive and eloquent book, *Why We Can't Wait* recounts the Birmingham campaign in vivid detail, while underscoring why 1963 was such a crucial year for the civil rights movement. Disappointed by the slow pace of school desegregation and civil rights legislation, King observed that by 1963—during which the country celebrated the one-hundredth anniversary of the Emancipation Proclamation—Asia and Africa were “moving with jetlike speed toward gaining political independence but we still creep at a horse-and-buggy pace.” King examines the history of the civil rights struggle, noting tasks that future generations must accomplish to bring about full equality, and asserts that African Americans have already waited over three centuries for civil rights and that it is time to be proactive: “For years now, I have heard the word ‘Wait!’ It rings in the ear of every Negro with piercing familiarity. This ‘Wait’ has almost always meant ‘Never.’ We must come to see, with one of our distinguished jurists, that ‘justice too long delayed is justice denied.’”
