The Logic of Evil

Houghton Mifflin
Harcourt

There are few people alive who are so cruel, so heartless and so undeniably evil that they will kill again and again. Yet at any one time, there are between 25 and 50

active serial killers in the USA, and their chilling crimes have fascinated us since the days of Jack the Ripper. Here you will discover how these heartless killers committed their gruesome deeds, what motivated them to kill and how, eventually, they were caught. This collection features more than 50 compelling stories, including: • Ed

Kemper, who dismembered the bodies of his victims once he had finished with them; • Ted Bundy, who abducted, raped and brutally killed more than 30 women; • Charles Manson, who led a cult of mayhem and murder; • Jeffrey Dahmer, who stored a human head in his freezer; • Randy Kraft, who was pulled over for drunk driving with a body in the trunk of his car; • Alexander Pichushkin, who aimed to kill a person for every square on the chessboard.

Medieval India: From Sultanat to the Mughals Part - II Kings Road Publishing
 Author Tedd Levy's first book takes a direct, harsh, truthful look at the evil that is Donald Trump. It's a

bumpy ride, but one full of insight, logic, candor, and just a little humor. Tedd's unique style, tone, and personal voice makes his book an interesting read. Tedd frames and presents his examination of Donald Trump as no one else has. From the book: "According to his first wife, Ivana, Donald Trump was never keen on bequeathing his name to anybody. It was Ivana who wanted to call their newborn Donald Junior. 'You can't do that!' Trump is quoted as saying in Ivana's memoir, *Raising Trump*. 'What if he's a loser?'" To compare the Trump Foundation to the foundations of other wealthy business leaders is like comparing Mother Theresa to a pick

pocket. Donald Trump is a high-tech pick pocket." "Trump's conduct is on display to America and to America's children.

When we assume the crucial task of building healthy children, we look to foster positive values. We teach our children to be honest-but Trump is deceitful, to be modest-but Trump is egotistical, to be kind-but Trump is cruel, to be generous-but Trump is greedy, to be respectful-but Trump is insolent, to be fair-but Trump is partial, to be compassionate-but Trump is coldhearted." "Let me see if I have this right. Trump says he kisses women without their consent. Several women say he kissed them without their consent. Trump says

the women are lying. Got it." "Several other sources affiliated with The Celebrity Apprentice said during [Marlee] Matlin's appearance on the show, Donald Trump mocked her hearing loss and speech pattern and seemed to get a real kick out of doing so. They said Trump would regularly ridicule and disrespect the actress. He is reported to have repeatedly called her retarded because of her deafness and deaf accent. Pure, unadulterated, unbelievable, cruel, medieval ignorance." "Trump is said to have had a passion for Princess Diana. In 1995, Trump offered Diana complimentary membership in his Mar-a-Lago Club (she

declined). After her divorce, Trump sent her massive bouquets of flowers. TV journalist Selina Scott, a friend of Lady Di, has since revealed that Diana had said that she felt stalked by Trump and that he gave her the creeps. In 1997 on his radio show, Howard Stern asked Trump, 'You could've nailed her, right?' Trump responded, 'I think I could've.'"Table of Contents: 1. Trump the Liar, 2. Trump the Bigot, 3. Trump the Hypocrite, 4. Trump the Bully, 5. Trump the Thief, 6. Trump the Braggart, 7. Trump the Crude, 8. Trump the Ignorant, 9. Trump the Religious Charlatan, 10. Trump the Philanthropic Phony, 11.  Jeffrey Dahmer committing his first murder with a fear of being left alone, then went on luring young boys and keeping souvenirs of their skulls. Ted Bundy who appeared to be a generous and charming young man with a brilliant future started with a petty crime and worked his way up to the murder of young women. John Wayne Gacy was a pillar of the community, organizing themed block parties and entertaining as Pogo the Clown, but his early transgressions began to take on more and more sinister forms. A chilling but engrossing read, the fully illustrated *The World's Most Evil Psychopaths* provides a

concise, yet detailed look at some of the most dangerous individuals who have ever lived. Starting with examples of the earliest recorded psychopaths, author John Marlowe presents a carefully chosen cross-section of history's most infamous criminals. *Face to Face with Serial Killers* Vintage Provides the first full study of Aristotle's notion of evil and sheds light on its content, potential, and influence. *Stalin's Wars* Yale University Press This breakthrough book provides a detailed reconstruction of Stalin's leadership from the outbreak of the Second World War in 1939 to his death in 1953. Making use of a wealth of new material

from Russian archives, Geoffrey Roberts challenges a long list of standard perceptions of Stalin: his qualities as a leader; his relationships with his own generals and with other great world leaders; his foreign policy; and his role in instigating the Cold War. While frankly exploring the full extent of Stalin's brutalities and their impact on the Soviet people, Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long-term detente with the capitalist world. By means of an integrated military, political, and

diplomatic narrative, the author draws a sustained and compelling personal portrait of the Soviet leader. The resulting picture is fascinating and contradictory, and it will inevitably change the way we understand Stalin and his place in history. Roberts depicts a despot who helped save the world for democracy, a personal charmer who disciplined mercilessly, a utopian ideologue who could be a practical realist, and a warlord who undertook the role of architect of post-war peace. Tyrants Harvard University Press IBM and the Holocaust promises to reveal the international company's strategic alliance with Nazi Germany - beginning in 1933 in the first weeks

Hitler came to power, and continuing through to the end of World War II. As the Third Reich embarked upon its plan of conquest and genocide, help was needed to create the enabling technological solutions, step by step, from the identification and cataloguing programs of the 1930s to the selections of the 1940s. Only after Jews were identified - a massive and complex task that Hitler wanted done immediately - could they be targeted for swift asset confiscation, the creation of ghettos, deportations, enslaved labour and, ultimately, annihilation.

The twentieth century was among the bloodiest in the history

of humanity. Untold millions were slaughtered. How people are enrolled in the service of evil is a question that continues to bedevil. In this trenchant book, Abram de Swaan offers a taxonomy of mass violence that focuses on the rank-and-file perpetrators, examining how murderous regimes recruit them and create what De Swaan calls the "killing compartments" that make possible the worst abominations without apparent moral misgiving, without a sense of personal responsibility, and, above all, without pity. De Swaan wonders where extreme violence comes from and where it goes—seemingly without a trace—when

the wild and barbaric gore is over. And what about the perpetrators themselves? Are they merely and only the product of external circumstance? Or is there something in their makeup that disposes them to become mass murderers? Drawing on a wide range of disciplines, including sociology, anthropology, political science, history, and psychology, De Swaan sheds new light on an urgent and intractable pathology that continues to poison peoples all over the world.

Sanger Rainsford is a big-game hunter, who finds himself washed up on an island owned

by the eccentric General Zaroff. Zaroff, a big-game hunter himself, has heard of Rainsford's abilities with a gun and organises a hunt. However, they're not after animals – they're after people. When he protests, Rainsford the hunter becomes Rainsford the hunted. Sharing similarities with "The Hunger Games", starring Jennifer Lawrence, this is the story that created the template for pitting man against man. Born in New York, Richard Connell (1893 – 1949) went on to become an acclaimed author, screenwriter, and journalist. He is best remembered for the gripping novel "The Most Dangerous Game" and for receiving an Oscar nomination for the

Heydrich, Hitler's Most Evil Henchman Sphere
 The book begins this way. If you are asked who is the most evil man who ever lived, you might immediately nominate Hitler, Stalin, Genghis Khan, and Mao Tse-Tung, all of whom easily exceed double figures in the numbers of their murder victims, and to round out the top five you could throw in Leopold II of Belgium although he won't reach the finals. May I have the envelope please? The winner is: None Of The Above. The most evil man who ever lived is Muhammad. That is my opinion and I shall endeavor to back it up with facts.

The Bad Popes Penguin
In this hard-hitting collection, acclaimed author Nigel Cawthorne examines ten of the most sickeningly twisted men who are still alive today. Some of them,

like serial killer Dennis Nilsen and cult leader Charles Manson, are thankfully behind bars. Others, including the world's most wanted terrorist, Osama bin Laden, are still at large. Unbelievably, one of them, Robert Mugabe, is still clinging to the reins of power and continues to inflict suffering and economic mayhem on the desperate people of Zimbabwe. Inside this book is the gut-twisting story of Charles Taylor, the blood-soaked African general who has 'recruited' thousands of child soldiers, and one of the most shocking cases of recent years: that of Josef Fritzl, the Austrian man who imprisoned and sexually abused his own daughter for almost a quarter of a

century. This collection is a terrifying reminder that monsters really do exist.

Serial Killers: The World's Most Evil

Potomac Books, Inc.
THE MAN WITH THE IRON HEART Hitler called him "The man with the iron heart"—yet Reinhard Heydrich was utterly different from those other iron men who served the Führer.

Gifted with intellect, charm and great courage, Heydrich used his outstanding talents to create the Nazi Security Service, the notorious SD (Sicherheitsdienst), thereby becoming one of the most powerful figures—perhaps the most evil influence of all—in Nazi Germany. Charles Wighton, through unprecedented co-operation on both sides of the Iron Curtain, has had access to top secret Nazi Party files, to official sources in East Germany, to highly secret records in Czechoslovakia—and to the frank recollections of Heydrich's widow. The result is a fascinatingly detailed revelation of the rise of this diabolical genius. Through Heydrich's

racial campaigns, which gathered their own momentum after his death, six million Jews were murdered by 1945. And yet this son of a cultured, upper-middle-class Roman Catholic family, who became the real power behind Himmler, was himself blackmailed by the Führer for possessing non-Aryan blood. In addition to clarifying this aspect of Heydrich's astonishing career, the author throws new light, too, on "Plan Ost", the blueprint for the extermination of thirty million Slavs, and on the mystery surrounding Heydrich's assassination in 1942. Here, then, is the full story of the man with the iron heart—Heydrich, Hitler's most evil henchman.

No Country for Old Men
Vintage

This groundbreaking international bestseller lays to rest many myths about the

Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. Hitler's Willing Executioners provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the

killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books "The most important book ever published about the Holocaust...Eloquently

written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer
