When studying Mary Shelley's Frankenstein at A Level (AS & A2 Level) you'll need a thorough understanding of the themes, characters and Gothic mode of writing you'll find used in the novel. The York Notes Frankenstein study guide gives the most comprehensive summary of each volume of the 1831 edition of the novel you're studying at AS & A2 level. The revision guide also deconstructs each character including Victor Frankenstein, the monster and Robert Walton. The York Notes Frankenstein revision guide goes further than other English Literature study guides to help you achieve the best possible grades. You'll not only revise the novel itself but the contexts and critical debates surrounding Shelley's work. Understanding Frankenstein in the context of social unrest and the scientific developments of the time, and being able to discuss different critical angles from the

original reception of the novel to its Feminist readings, will help you achieve top A Level grades. Using your study guide's Grade Booster is the best way to target a high grade in your English Literature exams. This section of the Frankenstein study guide shows you the typical features which examiners are looking for in answers to Frankenstein questions at AS & A2 level. It will show you how to compare Frankenstein with other texts and write high quality responses, which clearly demonstrate your understanding of the novel beyond the plot, characters and key quotations.

**Mary Shelley's Monster** Oxford University Press, USA

Revised to reflect critical trends of the past 15 years, the third iteration of this widely adopted critical edition presents the 1831 text of Mary Shelley's English Romantic novel along with critical essays that introduce students to Frankenstein from contemporary psychoanalytic, Marxist, feminist, gender/queer, postcolonial, and cultural studies perspectives. The text and essays are complemented by contextual documents, introductions (with bibliographies), and a glossary of critical and theoretical terms. In the third edition, three of the six essays are new, representing recent gender/queer, postcolonial, and cultural theories. The contextual documents have been significantly revised to include many images of Frankenstein from contemporary popular culture.

Renewed interest in the life and works of Mary Wollstonecraft Shelley has in recent years generated new biographical studies, complete editions of her letters and short stories and journals, and fresh critical assessments of "Frankenstein" and her other fiction. Until now, however, there has been no anthology of her work. "The Mary Shelley Reader" is a unique collection that fills this gap. In addition to the original and complete 1818 version of her masterpiece "Frankenstein," the book offers a new text of Mary Shelley's novella "Mathilda" - an extraordinary tale of incest, guilt, and atonement that was not published until 1959 and has been out of print since then. Also included are seven of Mary Shelley's Short stories that range from gentle satire to fantastic tales of reanimation, diabolical transformation, and immortality. Eight of her essays and reviews are reprinted here for the first time since their original publication, and eleven representative letters help bring to life a remarkable literary and historical figure - author, daughter of William Godwin and Mary Wollstonecraft, and wife of Percy Bysshe Shelley. An illuminating introduction, a chronology, explanatory notes, and a bibliography make "The Mary Shelley Reader" and indispensable resource for students of English Romantic literature.

*Frankenstein* Houghton Mifflin Harcourt

Mary Shelley began writing Frankenstein when she was only eighteen. At once a Gothic thriller, a passionate romance, and a cautionary tale about the dangers of science, Frankenstein tells the story of committed science student Victor Frankenstein. Obsessed with discovering the cause of generation and life and bestowing animation upon lifeless matter, Frankenstein assembles a human being from stolen body parts but; upon bringing it to life, he recoils in horror at the creature's hideousness. Tormented by isolation and loneliness, the once-innocent creature turns to evil and unleashes a campaign of murderous revenge against his creator, Frankenstein. Frankenstein, an instant bestseller and an important ancestor of both the horror and science fiction genres, not only tells a terrifying story, but also raises profound, disturbing questions about the very nature of life and the place of humankind within the cosmos: What does it mean to be human? What responsibilities do we have to each other? How far can we go in tampering with Nature? In our age, filled with news of organ donation genetic engineering, and bio-terrorism, these questions are more relevant than ever.

"How did I, a young girl, come to think of so very hideous an idea?" This is the question Mary Shelley poses to the readers of her novel Frankenstein, and which this new study of Mary Shelley's Gothic horror story undertakes to answer. Mary Shelley's Frankenstein began life in 1816 as a ghoststory literally dreamed up for a competition between friends, and has endured to become a powerful myth of modernity. It is an exciting tale of scientific experimentation in the creation of artificial life and the sublime possibilities of the human intellect, but is also a cautionary tale about the dangers of obsession and the responsibilities of the heroic over-reacher. In its daring intellectual adventure, Frankenstein enters territory previously untouched by fiction. Mary Shelley draws ideas from the widely disparate sources of myth, alchemy, literature, natural philosophy and the new science, combining these into a Gothic horror story. However, Frankenstein is a sensational Gothic novel which does not rely on the supernatural, but is rigorously rational. This study explores the contrasts between these themes, looking at Mary Shelley's challenge to the accepted conventions of her society, and her criticism of the high-flown Romanticism of her poet husband and his circle. Focussing on her innovative treatment of birth and education, Mary Shelley's Frankenstein links her interest in science with her position as a woman writer in the early nineteenth century. It also includes a discussion of the subsequent history of Frankenstein and his Monster in popular culture.

[Frankenstein by Mary Shelley \(SuperSummary\)](#) BookCaps Study Guides

A monster assembled by a scientist from parts of dead bodies develops a mind of his own as he learns to loathe himself and hate his creator.

Shelley's suspenseful and intellectually rich gothic tale confronts some of the most important and enduring themes in all of literature-the power of human imagination, the potential hubris of science, the gulf between appearance and essence, the effects of human cruelty, the desire for revenge and the need for forgiveness, and much more.
