An American truth seeker recounts his life-changing friendship with the spiritual leader Sri Sri Ravi Shankar in this intimate memoir. Michael Fischman is the president of His Holiness Sri Sri Ravi Shankar's Art of Living Foundation in the United States. In this intimate memoir, Fischman recounts his startling spiritual journey from childhood in New York "among the tribe of

people known as the Jewish Middle Class" to befriending and working with the humanitarian and spiritual leader who changed his life. His story is a compelling narrative that blends remarkable experiences with an inner struggle and search for meaning. "In writing this story, different eras and their flavors came to life again—the world of Orthodox Jews I grew up in; twenty years of teaching meditation and breathing to people around the world; the traumas and triumphs of self-discovery in the Caribbean and Jerusalem; the spiritual traditions of India that became so

meaningful to me; and the remarkable atmosphere around the enlightened master I fell in love with" (from the prologue). "Michael Fischman's journey reveals how fears and negative emotions can be transformed into love, compassion, and higher consciousness when a student has an authentic relationship with a wise teacher." —Deepak Chopra

Weekly Knowledge Sheets given by Sri Sri Ravi Shankar, a practice which began from the year 1995 and now, have been compiled into Seven Volume Series of books. This book (Volume I) is a collection of weekly talks, conversations and messages that Sri Sri Ravi Shankar gave between June 21 1995 to June 13 1996. An Intimate Note to the Sincere Seeker is a compilation of excerpts of talks by Sri Sri Ravi Shankar in the year 1995 - 1996. While these talks often discuss the state of the world at the time they were written,

because they discuss human life on the most basic levels - love, hatred, trust, peace, silence, happiness, they are still valuable today. They give us an insight into this knowledge that is so deeply profound, yet so simple, knowledge that does not just remain in the intellect, but is beautifully and effortlessly integrated into daily life. Sri Sri avoids lengthy discussions about the deeper philosophy of life, yet his talks reflect these values to their very core. This book is specially compiled to help readers going through an emotional phase or who need a guidance in life. The reader can go through any one random page (365 chapters for 365 days) for help or can follow as per ones discretion

Cross-Border Collaborative Journalism is a detailed guide to transnational reporting, a cutting-edge journalistic strategy. In the twenty-first century, the most pressing political and social issues, such as financial crises, wealth inequality, migration flows and environmental collapse, transcend national borders. In reaction, journalists are increasingly collaborating across the globe to produce impactful and in-depth

reporting. Recent agenda-setting cross-border collaborations include LuxLeaks, Panama Papers and Football Leaks. Brigitte Alfter takes the reader, step-by-step, through the history of cross-border collaborative journalism and the current working practices behind it. The book draws from the author's own experience, as well as exclusive interviews with other pioneers of cross-border journalism, and notable case studies are integrated throughout. Chapters cover: Managing intercultural communication Effectively utilising a network of sources Choosing the initial story idea Fact-checking for cross-border publication Adapting the findings to different audiences and to different types of media Legal and security considerations for a cross-border team. By providing the essential practical skills for transnational reporting, Cross-Border Collaborative Journalism encourages students of journalism and practitioners to undertake their own collaborative projects. It highlights the importance of this exciting new journalistic form to answering the defining questions of our time.

The Tibetan Buddhist practice of Nyungne

("nyoong-nay") has been gaining increased attention in Buddhist centers across North America. Participants say the practice purifies them both physically and spiritually. This volume is the only comprehensive treatment in English of these powerful teachings. Nyungne is a profound, two-and-a-half-day practice, a length of time especially helpful for people whose schedules cannot accommodate long-term retreat. It involves the keeping of strict vows; the second day is devoted to complete silence and fasting. The meditation centers on the recitations, mantras, and guided visualizations of the Thousand-Armed Chenrezig, the embodiment of all the buddhas' loving-kindness and compassion. Translated as "abiding in the fast," Nyungne is said to be effective in the healing of illness, the nurturing of compassion, and the purification of negative karma.

Stumbling Into Infinity in Detail
Crusading journalists from Sinclair Lewis to Bob Woodward and Carl Bernstein have played a central role in American politics: checking abuses of power, revealing corporate misdeeds, and exposing government corruption. Muckraking journalism is part and parcel of American democracy. But how many people know about the role that muckraking has played around the world? This groundbreaking new book presents the most important examples of world-changing journalism, spanning one hundred years and every continent. Carefully curated by prominent international journalists working in Asia, Africa, Latin America, Europe, and the Middle East, *Global Muckraking* includes

Ken Saro-Wiwa's defense of the Ogoni people in the Niger Δ Horacio Verbitsky's uncovering of the gruesome disappearance of political detainees in Argentina; Gareth Jones's coverage of the Ukraine famine of 1932-33; missionary newspapers' coverage of Chinese foot binding in the nineteenth century; Dwarkanath Ganguli's exposé of the British "coolie" trade in nineteenth-century Assam, India; and many others. Edited by the noted author and journalist Anya Schiffrin, *Global Muckraking* is a sweeping introduction to international journalism that has galvanized the world's attention. In an era when human rights are in the spotlight and the fate of newspapers hangs in the balance, here is both a riveting read and a sweeping argument for why the world needs long-form investigative reporting.

Networking for Mutual Benefit is a lifestyle that once learned will change your life. When you begin to do this differently and better than everyone around you, it will change your business, your career, your community involvement and your personal life. Teddy Burriss shares his edict, "Networking is finding, developing and nurturing relationships that mutually move people forward through life." as the basis of Networking for Mutual Benefit. When faced with his first sales job, Teddy's boss told him to "Grip & grin your way thru every networking event, collect as many business cards as possible then call them up and ask them to buy our stuff." Knowing there had to be a better, more enjoyable way to be successful at this job, Teddy began looking for it. He read great books, read really informative blog posts and asked everyone he could, "Is there a better way?" Teddy talked to successful business leaders and asked this question, "What is the one fundamental key to your professional and personal success?" The answer is the core of this lifestyle outlined

in Networking for Mutual Benefit. Teddy teaches you how to give, never ask before it's time, why to connect with people who are way different than you, as well as the principles needed for this mutually beneficial lifestyle to be rewarding and enjoyable. Teddy shares lots of stories thru this book and many success stories from people who have learned that Networking for Mutual Benefit is in fact a powerful way to be better, different and successful. Read this book, adopt the principles and then decide for yourself if Networking for Mutual Benefit is better than Gripping & Grinning & collecting business cards.

The Social Media Handbook explores how social media are changing disciplinary understandings of the internet and our everyday lives. In addition to person-to-person social networking services like Facebook and Twitter, this volume considers a broad range of networked information services that support in-depth social interaction, community formation, and collaboration in the Web 2.0 era. Rather than considering social media in terms of specific technologies, the chapters in this book engage topics across a range of research, techniques, practices, culture and society, and theories. These broader topics—including community, gender, fandom, disability, and journalism—are entryways through which students and faculty can explore ways of thinking about social media and find new paradigms for analysis. The perfect companion for the Bruegel year of 2019: an introduction to the famous painter through stunning large close-up details in a beautiful coffee table book. Flemish painter Pieter Bruegel the Elder (1525-1569), known for his beautiful landscapes and peasant scenes, is among the most popular artists in the history of Netherlandish painting. Reproducing all of Bruegel's best-known paintings, drawings and prints, this book reveals them as never before, in stunning large close-up details that showcase his mastery. Organized by his major themes - landscapes, daily life, biblical subjects and festive celebrations - it offers astonishing views of popular works of art such as Hunters in the Snow, Peasant Wedding and The Tower of Babel. The printings and drawings section includes his series on Sins and Virtues. Bruegel expert Manfred Sellink reveals how the painter introduced new subject matter into fine art and examines his use of landscape, perhaps the artist's greatest innovation.

Historically, technological change has had significant effect on the locus of administrative activity, cost of carrying out administrative tasks, the skill sets needed by officials to effectively function, rules and regulations, and the types of

interactions citizens have with their public authorities. Next generation Public Sector Innovation will be "Government 3.0" powered by innovations related to Open and big data, administrative and business process management, Internet-of-Things and blockchains for public sector innovation to drive improvements in service delivery, decision and policy making and resource management. This book provides fresh insights into this transformation while also examining possible negative side effects of the increasing openness of governments through the adoption of these new innovations. The goal is for technology policy makers to engage with the visions of Government 3.0 . Researchers should be able to critically examine some of the innovations described in the book as the basis for developing research agendas related to challenges associated with the adoption and use of some of the associated technologies. The book serves as a rich source of materials from leading experts in the field that enables Public administration practitioners to better understand how these new technologies impact traditional public administration

paradigms. The book is suitable for graduate courses in Public Sector Innovation, Innovation in Public

Administration, E-Government and Information Systems. Public sector technology policy makers, e-government, information systems and public

administration researchers and practitioners should all benefit from reading this book.
