Discrepant Events Earth Science By Kuroudo Okamoto

A discrepant event is a surprising and paradoxical outcome that is not what an observer would normally expect. A most common example of a discrepant event would be oobleck. Most children (who have never seen it before) would not expect it to have both properties of a solid and properties of a liquid. Why You Should Be Using Discrepant Events - The Owl Teacher May 15, 2016 - These teaching ideas were borrowed from the users of

Pinterest and various websites. Thanks so much!. See more ideas about Science experiments, Teaching science, Fun science. 30+ Discrepant Events ideas | science experiments ... My mind immediately went to discrepant events. A discrepant event is simply something that defies our understanding of the world because it doesn't fit our current model. One of my favorite discrepant events comes from Flinn Scientific's eLearning video series, the mystery of the wax block. You can read more about it on my personal blog.
