In this comprehensive guide, Susan Miller Cavitch covers everything you need to know to make your own soaps. Learn the basic techniques for crafting oil-, cream-, and vegetable-based soaps, and then start experimenting with your own personalized scents and effects. Cavitch provides tips for making more than 40 different specialty soaps, showing you how to design colorful marbled bars and expertly blend ingredients to create custom fragrances. You'll soon be making luxurious soaps at a fraction of the cost of boutique products. Important Notice Early printings of this book contain a recipe variation in a sidebar note on page 36. As a result of further testing, author Susan Miller Cavitch and Storey Publishing strongly recommend that you do not try this variation. Adding honey when you are combining the sodium hydroxide and water may result in a stronger reaction with more intense heat. The mixture may bubble up quickly and come out of the pot, posing a potential hazard.

This recipe book contains 50 recipes for cold process soap and 64 essential oil blends. Recipes include classics such as Oatmeal Lavender, Oatmeal Milk & Honey, Aloe & Cucumber and Pumpkin Spice. Some recipes are more unique, including Summit Soap, Yarrow Shave Soap, Pumpkin Lavender, Almond Orange and Mocha Mint. The recipes are categorized into seven categories including Basic Bars, Designed Recipes, Salt Bars, Bar Soap for the Face, Exfoliating Bars, For the Fellas and Alternative Liquids. Each recipe, except for those in the Basic Bars category, includes an essential oil blend and some contain additives for color or exfoliation. 20 more essential oil blends are listed at the end, giving you 64 blends total! Though it does contain basic steps, it is not an advanced soapmaking book and doesn't go into details on advanced soapmaking topics. The recipes and essential oil blends in this book are provided to inspire creative formulation on your part. Sure you can use a recipe as-is, but don't be afraid to experiment and change things up!

The pure luxury of soaps made with coconut butter, almond oil, aloe vera, oatmeal, and green tea is one of life's little pleasures. And with the help of Anne-Marie Faiola, author of *Soap Crafting and Milk Soaps*, it's easy to make luscious, all-natural soaps right in your own kitchen. This collection of 32 recipes ranges from simple castile bars to intricate swirls, embeds, and marbled and layered looks. Begin with a combination of skin-nourishing oils and then add blueberry puree, dandelion-infused water, almond milk, coffee grounds, mango and avocado butters, black tea, or other delicious ingredients — and then scent your soap with pure essential oils. Step-by-step photography guides you through every stage of cold-process soapmaking.

Ultimate Guide to Creating Nourishing Natural Soap at Home for You and Your Family Plus 25 Amazing Soap Recipes Simon and Schuster

DIY Natural Melt and Pour Soap Crafting Ultimate Guide to Making & Selling Colorful Natural Soaps Paraben, Sulfate and Triclosan are some of the ingredients in commercial soap that I never questioned until I began making soap at home. That's when my curiosity got the best of me. After finding just these three, I wanted to call a truce to look for dangerous additives in what I used (and worse yet, my children used) to clean. That's when I thought I found the fourth one. Fragrance! How in the world could something that sounds as harmless as fragrance possibly damage your skin? How wrong I was. The definition of fragrance was a far cry in meaning than the one on the soap label. I began making soap because it was a fun hobby I could share with my children. I continued because it morphed into a successful small business. But I'm now compelled to continue knowing that I'm contributing to the health of my family. Before we get into the actual soap making, I do share my findings about just these four potentially harmful ingredients found in too many soaps and body washes. I am sure you will be shocked to read it. But let's move on and talk about what more is in this book. I wanted to arrange the chapters in a logical order. So you are not confused as I was when I first started. I start off with what and how commercial soap can harm you and your family, I dug deep and found out the truth. Then I explain all three soap making process and why Melt and Pour method is the best and easiest to use. Next, I show you what supplies and equipment you will need and their approximate cost. In the next chapter I guide you through a step by step soap making process (chapter 4). After that we discuss everything under the sun about molds you can use and all of their different variations and types (chapter 5). Chapter 6 is all about adding colors and how to use the color wheel. Next up is essential oils which give your soap its scent and a great natural healing

power (Chapter 7). After that it is all about my favorite recipes (chapter 8), next I share 15 soap coloring tricks that may truly surprise you, yes they are that good really! (chapter 9). And lastly, in chapter 10, it is all about how to start, run and grow your soap business right from home. After reading the book, you will become a master on how to make homemade soap using melt pour soap making method. You will also learn about all soap making supplies, my favorite soap making recipes and most importantly you will know the difference between store bought commercial soap vs. all natural and organic soap made right at home. If you have any question, I have added my personal email address at the end of the book so you can contact me.

Luxurious, soothing, moisturizing olive oil-based soaps made at home easily and economically. There are only three essential ingredients required to create these soaps: water, olive oil, and caustic soda. Olive oil is the primary ingredient enjoying the highest rating as its properties are well known throughout the world. Olive oil is the most beneficial oil to your health, and in cosmetics it has been used since ancient times for its virtues for glowing hair and skin. Rich in vitamins, minerals and proteins it has the added benefit of being available virtually everywhere. Once these three key ingredients are in place, there are a number of wonderful extra ingredients that will customize and create a personal soap. These ingredients include beeswax, cocoa butter, clay, kaolin, seaweed, goats milk and egg yolks, and others. Some ingredients will give the soap hardness (beeswax) or softness (honey) or more foam (cocoa butter) for greater cleansing ability. Since using soap is such a sensory experience, there is a comprehensive section on essential oils which create that air of perpetual breeze of a good soap. A comprehensive section on these essential oils, their history and therapeutic uses provide all the information needed to create the perfect scent. The recipes feature essential oils of the highest purity which are added to the soap right before it is placed in molds. Easy step-by-step preparation techniques produce luxurious soaps such as: Sandalwood Soap, Kiwi Soap, Chocolate Soap, Wheat Germ Soap, Green Tea Soap, Cedar Soap, Echinacea Soap, Lavender Soap, Marshmallow Soap, Lemon Soap, Rose Hip Soap, Marigold Soap, Coconut Soap, Vanilla Soap, Seaweed Soap, Oat Soap, Clay Soap, Mung Bean Soap, After Eight Soap, Beach Sand Soap.
