Essentials of calculus for business, economics, life sciences, social sciences
Pearson
Designed for students majoring in business, economics, social sciences, or life sciences, this mathematical y correct, accessible, and student-friendly

introduction to applied calculus prepares students to deal with calculus topics when they are encountered in other areas. The emphasis throughout is on computational skills, ideas, and problem solving - rather than on mathematical theory. Most derivations and proofs are omitted except where their inclusion adds significant insight into a particular concept, and

general concepts and results are usually presented only after particular cases have been discussed.

For one-semester courses in Calculus.
Helps students "get the idea."
Calculus for Business,

Economics, Life Sciences, and Social Sciences, Brief Version , 14th Edition offers more built-in guidance than any other text in its field -- with special emphasis on applications and prerequisite skills -- and a host of student-friendly features to help students catch up or learn on their own. The text's emphasis on helping students "get the idea" is enhanced in the new edition by a

design refresh, updated data and applications, and a robust MyLab(tm) Math course. Calculus for Business, Economics, Life Sciences, and Social Sciences, Brief Version contains Chapters 1-8 and is designed for a one-term course in Applied Calculus. The full version of Calculus for Business, Economics, Life Sciences, and Social Sciences, 14th Edition includes

Chapters 1-11 and is generally used for a 2-semester course. Also available with MyLab Math By combining trusted author content with digital tools and a flexible platform, MyLab(tm) Math personalizes the learning experience and improves results for each student. Note: You are purchasing a standalone product; MyLab Math does not come packaged with this content. Students, if interested in

purchasing this title with MyLab Math, ask your instructor to confirm the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. Pearson
For 1-2 semester or 1-3 quarter courses covering calculus for students in business, economics,

social sciences, or life sciences. Barnett/Ziegler/Byleen is designed to help students help themselves succeed in the course. This text offers more built-in guidance than any other on the market—with special emphasis on prerequisites skills—and a host of student-friendly features to help students catch up or learn on their own. This program provides a better

teaching and learning experience. Here's how: Personalized learning with MyMathLab®: the accompanying MyMathLab course provides online homework and learning tools that help students help themselves succeed. More than 4,400 exercises in the text help you craft the perfect assignments for your students, with plenty of support for prerequisite skills. Built-in guidance

helps students help themselves learn course content. Flexible coverage allows instructors to use this text in a way that suits their syllabus and teaching style. **Calculus for Business, Economics, Life Sciences, and Social Sciences** McGraw-Hill Higher Education For courses in Mathematics for Business and Mathematical Methods in Business. This classic text

continues to provide a mathematical foundation for students in business, economics, and the life and social sciences. Abundant applications cover such diverse areas as business, economics, biology, medicine, sociology, psychology, ecology, statistics, earth science, and archaeology. Its depth and completeness of coverage enables instructors to tailor their courses to

students' needs. The authors frequently employ novel derivations that are not widespread in other books at this level. The Twelfth Edition has been updated to make the text even more student-friendly and easy to understand. Applied Calculus for Business, Economics, and the Social and Life Sciences, Expanded Edition Barnett/Ziegler/Byleen/Stockler This is the

eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This accessible text is designed to help readers help themselves to excel. The content is organized into two parts: (1) A Library of Elementary Functions (Chapters 1-2) and (2) Calculus (Chapters 3-9). The

book's overall approach, refined by the authors' experience with large sections of college freshmen, addresses the challenges of teaching and learning when readers' prerequisite knowledge varies greatly. Reader-friendly features such as Matched Problems, Explore & Discuss questions, and Conceptual Insights, together with the motivating and ample applications, make this text

a popular choice for today's students and instructors.

Calculus for Business, Economics, Life Sciences and Social Sciences, Brief Version Plus Mylab Math with Pearson Etext - 18-Week Access Card

Pearson Introducing applied calculus, this text begins with an optional library of elementary functions. It goes on to present the basics of

differential and integral calculus and then provides self-contained explorations of multivariable calculus, differential equations, Taylor polynomials and infinite series, probability and calculus, and trigonometry. The emphasis throughout is on computational skills, ideas and problem solving, and a wide variety of graded exercises are included.
