The classic guide to what makes people survivors, now in a revised and updated new edition. Who survives? Who thrives? As a psychologist who spent more than forty years studying the phenomenon of survival, Al Siebert gained valuable insight into the qualities and habits that help human beings overcome difficult situations—from everyday conflicts to major life stresses. In this revised and updated edition, he delineates the "survivor personality" and examines the latest research to show how survival skills can be learned, leading to better coping, increased success in work and relationships, and a vastly brighter outlook on the future.

Posttraumatic Growth reworks and overhauls the seminal 2006 Handbook of Posttraumatic Growth. It provides a wide range of answers to questions concerning knowledge of posttraumatic growth (PTG) theory, its synthesis and contrast with other theories and models, and its applications in diverse settings. The book starts with an overview of the history, components, and outcomes of PTG. Next, chapters review quantitative, qualitative,

and cross-cultural research on PTG, including in relation to cognitive function, identity formation, cross-national and gender differences, and similarities and differences between adults and children. The final section shows readers how to facilitate optimal outcomes with PTG at the level of the individual, the group, the community, and society.

Working with Survivor Siblings in Psychoanalysis: Ability and Disability in Clinical Process explores a previously neglected area in the field of psychoanalysis, addressing undertheorized concepts on siblings, disabilities and psychic survivorship, and broadening our conceptualization of the enduring effects of lateral relations on human development. What happens to a person's sense of self both personally and professionally when they grow up alongside a severely disabled sibling? Through a series of qualitative interviews held between the author and a sample of psychoanalysts, this book examines both the unconscious experience and the interpersonal field of survivor siblings. Through a trauma-informed contemporary psychoanalytic lens, Dobrich combines data analysis, theory-building, memoir, and clinical storytelling to explore and explicate the impact of lateral survivorship on the clinical

moment, making room for a contemporary and nuanced appreciation of siblings in psychoanalysis. Working with *Survivor Siblings in Psychoanalysis: Ability and Disability in Clinical Process*, will be of immense interest and value to psychoanalysts and other mental health professionals, and for all therapists who work with and treat patients that are themselves survivor siblings. Uniquely integrating both academic and memoir writing, this book will also engage those building theory around the implications of the analyst's subjectivity on clinical processes.

In 1965 Al Siebert, author of *The Survivor Personality*, received his Ph.D. in clinical psychology from the University of Michigan and was awarded a fellowship for post-doctoral training at the Menninger Foundation. The month before his fellowship started he found himself swept up in a life-transforming peak experience rich with insights and synchronicity. During this time he conducted an experimental interview with a young woman diagnosed as paranoid schizophrenic. His interviewing method led her to immediate recovery. When Dr. Siebert told the

psychologists and psychiatrists at the Menninger Foundation about his extraordinary breakthrough, they declared him mentally ill. They cancelled his fellowship. He was locked up in the back ward of a psychiatric hospital. Signed out "Against Medical Advice" for thirty years, this respected educator, business owner, author, and community leader now tells his fascinating story. In *Peaking Out* he describes a joyous, weeks long, mind-freeing peak experience, exposes undocumented practices and delusions in psychiatry, and reveals how he discovered the survivor personality.

Named a Best Book of the Year by The San Francisco Chronicle "Survivor Café...feels like the book Rosner was born to write. Each page is imbued with urgency, with sincerity, with heartache, with heart.... Her words, alongside the words of other survivors of atrocity and their descendants across the globe, can help us build a more humane world." —San Francisco Chronicle As firsthand survivors of many of the twentieth century's most monumental events—the Holocaust, Hiroshima, the Killing Fields—begin to

pass away, *Survivor Café* addresses urgent questions: How do we carry those stories forward? How do we collectively ensure that the horrors of the past are not forgotten? Elizabeth Rosner organizes her book around three trips with her father to Buchenwald concentration camp—in 1983, in 1995, and in 2015—each journey an experience in which personal history confronts both commemoration and memorialization. She explores the echoes of similar legacies among descendants of African American slaves, descendants of Cambodian survivors of the Killing Fields, descendants of survivors of the bombing of Hiroshima and Nagasaki, and the effects of 9/11 on the general population. Examining current brain research, Rosner depicts the efforts to understand the intergenerational inheritance of trauma, as well as the intricacies of remembrance in the aftermath of atrocity. *Survivor Café* becomes a lens for numerous constructs of memory—from museums and commemorative sites to national reconciliation projects to small-group cross-cultural encounters. Beyond preserving the firsthand testimonies of participants and witnesses, individuals and societies must continually take responsibility for learning the painful lessons of the past in order to offer hope for the future. *Survivor Café* offers a clear-eyed sense of the enormity of our twenty-first-century human inheritance—not only among direct descendants of the Holocaust but also in the shape of our collective responsibility to learn from tragedy, and to keep the ever-changing conversations alive between the past and the present.

From New York Times bestseller Kody Keplinger comes an astonishing and thought-provoking exploration of the aftermath

of tragedy, the power of narrative, and how we remember what we've lost. It's been three years since the Virgil County High School Massacre. Three years since my best friend, Sarah, was killed in a bathroom stall during the mass shooting. Everyone knows Sarah's story--that she died proclaiming her faith. But it's not true. I know because I was with her when she died. I didn't say anything then, and people got hurt because of it. Now Sarah's parents are publishing a book about her, so this might be my last chance to set the record straight . . . but I'm not the only survivor with a story to tell about what did--and didn't--happen that day. Except Sarah's martyrdom is important to a lot of people, people who don't take kindly to what I'm trying to do. And the more I learn, the less certain I am about what's right. I don't know what will be worse: the guilt of staying silent or the consequences of speaking up . . .

Maybe it's the end of the world, but not for Candace Chen, a millennial, first-generation American and office drone meandering her way into adulthood in Ling Ma's offbeat, wryly funny, apocalyptic satire, *Severance*. "A stunning, audacious book with a

fresh take on both office politics and what the apocalypse might bring." —Michael Schaub, NPR.org "A satirical spin on the end times-- kind of like The Office meets The Leftovers." --Estelle Tang, Elle NAMED A BEST BOOK OF THE YEAR BY: NPR * The New Yorker ("Books We Loved") * Elle * Marie Claire * Amazon Editors * The Paris Review (Staff Favorites) * Refinery29 * Bustle * BuzzFeed * BookPage * Bookish * Mental Floss * Chicago Review of Books * HuffPost * Electric Literature * A.V. With the recent passing of her Chinese immigrant parents, she's had her fill of uncertainty. She's content just to carry on: She goes to work, troubleshoots the teen-targeted Gemstone Bible, watches movies in a Greenpoint basement with her boyfriend. So Candace barely notices when a plague of biblical proportions sweeps New York. Then Shen Fever spreads. Families flee. Companies cease operations. The subways screech to a halt. Her bosses enlist her as part of a dwindling skeleton crew with a big end-date payoff. Soon entirely alone, still unfevered, she photographs the eerie, abandoned city as the anonymous blogger NY Ghost. Candace won't be able to make it on her own forever, though. Enter a group of survivors, led by the power-hungry IT tech Bob. They're traveling to a place called the Facility, where, Bob promises, they will have everything they need to start society anew. But Candace is carrying a secret she

knows Bob will exploit. Should she escape from her rescuers? A send-up and takedown of the rituals, routines, and missed opportunities of contemporary life, Ling Ma's *Severance* is a moving family story, a quirky coming-of-adulthood tale, and a hilarious, deadpan satire. Most important, it's a heartfelt tribute to the connections that drive us to do more than survive.

In 1927, Zora Neale Hurston went to Plateau, Alabama, just outside Mobile, to interview eighty-six-year-old Cudjo Lewis. Of the millions of men, women, and children transported from Africa to America as slaves, Cudjo was then the only person alive to tell the story of this integral part of the nation's history.

Hurston was there to record Cudjo's firsthand account of the raid that led to his capture and bondage fifty years after the Atlantic slave trade was outlawed in the United States. In 1931, Hurston returned to Plateau, the African-centric community three miles from Mobile founded by Cudjo and other former slaves from his ship. Spending more than three months there, she talked in depth with Cudjo about the details of his life. During those weeks, the young writer and the elderly formerly enslaved man ate peaches and watermelon that grew in the backyard and talked about Cudjo's past—memories from his childhood in Africa, the horrors of being captured and held in a barracoon for selection by American slavers, the harrowing experience of the Middle Passage packed with more than 100 other souls aboard the *Clotilda*, and the years he spent in slavery until the end of the Civil War. Based on those interviews, featuring Cudjo's unique vernacular, and written from Hurston's perspective with the compassion and singular style that have made her one of the preeminent American authors of the twentieth-century, *Barracoon* masterfully illustrates the tragedy of slavery and of one life forever defined by it. Offering insight into the pernicious legacy that continues to haunt us all, black and white, this poignant and powerful work is an invaluable contribution to our shared history and culture.
