KALEB LAMBERT

From Its Origin to the Death of Francesco, the Second Grand Duke of Tuscany, and of the Great Men who Flourished in Tuscany Within that Period Penn State Press

"The Confessions of Catherine de Medici is a dramatic, epic novel of an all-too-human woman whose strength and passion propelled her into the center of grand events. Meticulously-researched, this engrossing novel offers a fresh portrait of a queen who has too often been portrayed as a villain. Bravo Mr. Gortner!"—Sandra Gulland, author of *The Josephine B Trilogy* and *Mistress of the Sun* The truth is, not one of us is innocent. We all have sins to confess. So reveals Catherine de Medici, the last legitimate descendant of her family's illustrious line. Expelled from her native Florence, Catherine is betrothed to Henri, son of François I of France. In an unfamiliar realm, Catherine strives to create a role for herself through her patronage of the famous clairvoyant Nostradamus and her own innate gift as a seer. But in her fortieth year, Catherine is

widowed, left alone with six young children in a kingdom torn apart by the ambitions of a treacherous nobility. Relying on her tenacity, wit, and uncanny gift for compromise, Catherine seizes power, intent on securing the throne for her sons, unaware that if she is to save France, she may have to sacrifice her ideals, her reputation, and the secret of her embattled heart. BONUS: This edition contains a *The Confessions of Catherine de Medici* discussion guide and an excerpt from C.W. Gortner's *The Queen's Vow*. Praise for *The Confessions of Catherine de Medici* "Alison Weir and Philippa Gregory fans will devour this."—Booklist "Highly recommended . . . a compelling and fascinating view of Catherine's life and world."—Historical Novels Review "Remarkably thoughtful in its insight into an unapologetically ruthless queen."—Publishers Weekly "A fresh, well-researched and powerful portrait."—RT Book Reviews

The Brilliant Life and Violent Times of Lorenzo De' Medici Barbera Foundation Incorporated

While creating his famous bronze of David and Goliath, Donatello's passion for his beautiful model and part time rent boy, Agnolo, ignites a dangerous jealousy that ultimately leads to murder. Luca, the complex and conflicted assistant, will sacrifice all to save Donatello, even his master's friend--

the great patron of art, Cosimo de' Medici.

Medici Money Simon and Schuster

First published in 2004, this volume recognises that there is much more to museums than the documenting, monumentalizing, or theme-parking of identity, history and heritage. This landmark anthology aims to make strange the very existence of museums and to plot a critical, historical and ethical understanding of their origins and history. A radical selection of key texts introduces the reader to the intense investigation of the modern European idea of the museum that has taken place over the last fifty years. Texts first published in journals and books are brought together in one volume with up-to-the-minute and specially commissioned pieces by leading administrators, curators and art historians. The selections are organized by key themes that map the evolution of the debate and introduced by Donald Preziosi and Claire Farago, two considerable critics, who write with the edge and enthusiasm of art historians who have spent their lives working with museums. *Grasping the World* is an invaluable resource for students and teachers of art history and museum studies.

Print and Power in Early Modern Europe (1500-1800) Profile Books

“A beautifully written portrait of a ruthless, subtle and fearless woman fighting for survival and power in a world of gangsterish brutality, routine assassination and religious mania. . . . Frieda has brought a largely forgotten heroine-villainess and a whole sumptuously vicious era back to life. . . . This is The Godfather meets Elizabeth.” —Simon Sebag Montefiore, author of *Stalin: The Court of the Red Tsar* Poisoner, besotted mother, despot, necromancer, engineer of a massacre: the dark legend of Catherine de Medici is centuries old. In this critically hailed biography, Leonie Frieda reclaims the story of this unjustly maligned queen of France to reveal a skilled ruler battling extraordinary political and personal odds. Based on comprehensive research including thousands of Catherine’s own letters, Frieda unfurls Catherine’s story from her troubled childhood in Florence to her tumultuous marriage to Henry II of France; her transformation of French culture to her reign as a queen who would use brutality to ensure her children’s royal birthright. Brilliantly executed, this enthralling biography goes beyond myth to paint a very human portrait of this remarkable figure.

[The Bookseller of Florence](#) House of Stratus

Recounts the life of Lorenzo de' Medici, the Florentine banker, statesman, and arts patron, and includes his competitive and at times violent career in politics.

Tuscan Family Books and Other European Egodocuments (14th-18th Century) Oxford University Press

This book is as captivating as the city itself. Hibbert's gift is weaving political, social and art history into an elegantly readable and marvellously lively whole. The author's book on Florence will also be at once a history and a guide book and will be enhanced by splendid photographs and illustrations and line drawings which will describe all teh buildings and treasures of the city.

The Family Medici Captivating History

One of the world's leading historians of Renaissance Italy brings to life here the vibrant--and violent--society of fifteenth-century Florence. His disturbing narrative opens up an entire culture, revealing the dark side of Renaissance man and politician Lorenzo de' Medici. On a Sunday in April 1478, assassins attacked Lorenzo and his brother as they attended Mass in the cathedral of Florence. Lorenzo scrambled to safety as Giuliano bled to death on the cathedral floor. April Blood moves outward in time and space from that murderous event, unfolding a story of tangled passions, ambition, treachery, and revenge. The conspiracy was led by one of the city's most noble clans, the Pazzi, financiers who feared and resented the Medici's swaggering new role as political bosses--but the web of intrigue spread through all of Italy. Bankers, mercenaries, the Duke of Urbino, the King of Naples, and Pope Sixtus IV entered secretly into the plot. Florence was plunged into a peninsular war, and Lorenzo was soon fighting for his own and his family's survival. The failed assassination doomed the Pazzi. Medici revenge was swift and brutal--plotters were hanged or beheaded, innocents were hacked to pieces, and bodies were put out to dangle from the windows of the government palace. All remaining members of the larger Pazzi clan were forced to change their surname, and every public sign or symbol of the family was expunged or destroyed. April Blood offers us a fresh portrait of Renaissance Florence, where dazzling artistic achievements went side by side with violence, craft, and bare-knuckle politics. At the center of the canvas is the figure of Lorenzo the Magnificent--poet, statesman, connoisseur, patron of the arts, and ruthless "boss of bosses." This extraordinarily vivid account of a turning point in the Italian Renaissance is bound to become a lasting work of history.

The Medici Villa I Tatti

A fresh telling of the rise and fall of the House of Medici, the family that dominated political and cultural life in Florence for three centuries.

The Spectacular Life and Treacherous World of Alessandro de' Medici HMH

"The Medici: Citizens and Masters" offers a novel, comparative approach to examining Medici power and influence in Florence. Contributors from diverse perspectives set Medici rule against princely states such as Milan and Ferrara, and they ask how much the Medici changed Florence, contrasting their supremacy with earlier Florentine regimes.

The Story of the Manuscripts That Illuminated the Renaissance Library of the Written Word

Originally published in 1978 this book assesses the Medici achievements as they appear to the 21st Century reader. As well as discussing individuals from the Medici clan, Medicean politics, bloodshed and conspiracies are also examined and relations with the other city states. Much of the material is based upon Medici archives and helps to provide a distinctive view of the Medici mystique.

The House Of Medici Penn State Press

Between 1512 and 1570, Florence underwent dramatic political transformations. As citizens jockeyed for prominence, portraits became an essential means not only of recording a likeness but also of conveying a sitter’s character, social position, and cultural ambitions. This fascinating book explores the ways that painters (including Jacopo Pontormo, Agnolo Bronzino, and Francesco Salviati), sculptors (such as Benvenuto Cellini), and artists in other media endowed their works with an erudite and self-consciously stylish character that made Florentine portraiture distinctive. The Medici family had ruled Florence without interruption between 1434 and 1494. Following their return to power in 1512, Cosimo I de’ Medici, who became the second Duke of Florence in 1537, demonstrated a particularly shrewd ability to wield culture as a political tool in order to transform Florence into a dynastic duchy and give Florentine art the central position it has held ever since. Featuring more than ninety remarkable paintings, sculptures, works on paper, and medals, this volume is written by a team of leading international authors and presents a sweeping, penetrating exploration of a crucial and vibrant period in Italian art.

Death in Florence: The Medici, Savonarola, and the Battle for the Soul of a Renaissance City Routledge

The Renaissance in Florence conjures images of beautiful frescoes and elegant buildings—the dazzling handiwork of the city’s skilled artists and architects. But equally important for the centuries to follow were geniuses of a different sort: Florence’s manuscript hunters, scribes, scholars, and booksellers, who blew the dust off a thousand years of history and, through the discovery and diffusion of ancient knowledge, imagined a new and enlightened world. At the heart of this activity, which bestselling author Ross King relates in his exhilarating new book, was a remarkable man: Vespasiano da Bisticci. Born in 1422, he became what a friend called “the king of the world’s booksellers.” At a time when all books were made by hand, over four decades Vespasiano produced and sold many hundreds of volumes from his bookshop, which also became a gathering spot for debate and discussion. Besides repositories of ancient wisdom by the likes of Plato, Aristotle, and Quintilian, his books were works of art in their own right, copied by talented scribes and illuminated by the finest miniaturists. His clients included a roll-call of popes, kings, and princes across Europe who wished to burnish their reputations by founding magnificent libraries. Vespasiano reached the summit of his powers as Europe’s most prolific merchant of knowledge when a new invention appeared: the printed book. By 1480, the king of the world’s booksellers was swept away by this epic technological disruption, whereby cheaply produced books reached readers who never could have afforded one of Vespasiano’s elegant manuscripts. A thrilling chronicle of intellectual ferment set against the dramatic political and religious turmoil of the era, Ross King’s brilliant *The Bookseller of Florence* is also an ode to books and bookmaking that charts the world-changing shift from script to print through the life of an extraordinary man long lost to history—one of the true titans of the Renaissance.

Imagining the Americas in Medici Florence Beard Books

Having founded the bank that became the most powerful in Europe in the fifteenth century, the Medici gained massive political power in Florence, raising the city to a peak of cultural achievement and becoming its hereditary dukes. Among their number were no fewer than three popes and a powerful and influential queen of France. Their influence brought about an explosion of Florentine art and architecture. Michelangelo, Donatello, Fra Angelico, and Leonardo were among the artists with whom they were socialized and patronized. Thus runs the "accepted view" of the Medici. However, Mary Hollingsworth argues that the idea that the Medici were enlightened rulers of the Renaissance is a fiction that has now acquired the status of historical fact. In truth, the Medici were as devious and immoral as the Borgias--tyrants loathed in the city they illegally made their own. In this dynamic new history, Hollingsworth argues that past narratives have focused on a sanitized and fictitious view of the Medici--wise rulers, enlightened patrons of the arts, and fathers of the Renaissance--but that in fact their past was reinvented in the sixteenth century, mythologized by later generations of Medici who used this as a central prop for their legacy. Hollingsworth's revelatory re-telling of the story of the family Medici brings a fresh and exhilarating new perspective to the story behind the most powerful family of the Italian Renaissance.

The Confessions of Catherine de Medici Penguin UK

Geschiedenis van het geslacht der Medici's die van de 14e-18e eeuw hun stempel drukten op het politieke en culturele leven in het renaissanceistische Italië
The Medici Cambridge Scholars Pub

The enduring fascination of the Medici emanates from their ability as individuals and as a family to control the government of Florence - first, within a quasi-democratic system, and finally through dynastic inheritance. Based on the latest research, Professor Hale's masterly study thus presents an account of the Medici that serves as a history of Florence from the early fifteenth to the early eighteenth century.

Florence and the Plot against the Medici The House Of Medicilt's Rise and Fall

The name Borgia is synonymous with the corruption, nepotism, and greed that were rife in Renaissance Italy. The powerful, voracious Rodrigo Borgia, better known to history as Pope Alexander VI, was the central figure of the dynasty. Two of his seven papal offspring also rose to power and fame - Lucrezia Borgia, his daughter, whose husband was famously murdered by her brother, and that brother, Cesare, who served as the model for Niccolo Machiavelli's *The Prince*. Notorious for seizing power, wealth, land, and titles through bribery, marriage, and murder, the dynasty's dramatic rise from its Spanish roots to its occupation of the highest position in Renaissance society forms a gripping tale. Erudite, witty, and always insightful, Hibbert removes the layers of myth around the Borgia family and creates a portrait alive with his superb sense of character and place. Praise for Christopher Hibbert: 'A pearl of biographers' *New Statesman* 'Perhaps the most gifted popular historian we have' *The Times Educational Supplement*
Godfathers of the Renaissance Oxford University Press

A dazzling piece of Italian history of the infamous family that become one of the most powerful in Europe, weaving its history with Renaissance greats from Leonardo da Vinci to Galileo Against the background of an age which saw the rebirth of ancient and classical learning, *The Medici* is a remarkably modern story of power, money and ambition. Strathern paints a vivid narrative of the dramatic rise and fall of the Medici family in Florence, as well as the Italian Renaissance which they did so much to sponsor and encourage. Strathern also follows the lives of many of the great Renaissance artists with whom the Medici had dealings, including Leonardo, Michelangelo and Donatello; as well as scientists like Galileo and Pico della Mirandola; and the fortunes of those members of the Medici family who achieved success away from Florence, including the two Medici popes and Catherine de' Médicis, who became Queen of France and played a major role in that country through three turbulent reigns. 'A great overview of one family's centuries-long role in changing the face of Europe' *Irish Independent*
[Memory, Family, and Self](#) Apollo

One of the defining moments in Western history, the bloody and dramatic story of the battle for the soul of Renaissance Florence. By the end of the fifteenth century, Florence was well established as the home of the Renaissance. As generous patrons to the likes of Botticelli and Michelangelo, the ruling Medici embodied the progressive humanist spirit of the age, and in Lorenzo de' Medici (Lorenzo the Magnificent) they possessed a diplomat capable of guarding the militarily weak city in a climate of constantly shifting allegiances between the major Italian powers. However, in the form of Savonarola, an unprepossessing provincial monk, Lorenzo found his nemesis. Filled with Old Testament fury and prophecies of doom, Savonarola's sermons reverberated among a disenfranchised population, who preferred medieval Biblical certainties to the philosophical interrogations and intoxicating surface glitter of the Renaissance. Savonarola's aim was to establish a 'City of God' for his followers, a new kind of democratic state, the likes of which the world had never seen before. The battle between these two men would be a fight to the death, a series of sensational events—invasions, trials by fire, the 'Bonfire of the Vanities', terrible executions and mysterious deaths—featuring a cast of the most important and charismatic Renaissance figures. Was this a simple clash of wills between a benign ruler and religious fanatic? Between secular pluralism and repressive extremism? In an exhilaratingly rich and deeply researched story, Paul Strathern reveals the paradoxes, self-doubts, and political compromises that made the battle for the soul of the Renaissance city one of the most complex and important moments in Western history.

An American woman becomes entangled in the intense rivalry between iconic fashion designers Coco Chanel and Elsa Schiaparelli in this captivating novel from the acclaimed author of The

Beautiful American. Paris, 1938. Coco Chanel and Elsa Schiaparelli are fighting for recognition as the most successful and influential fashion designer in France, and their rivalry is already legendary. They oppose each other at every turn, in both their politics and their designs: Chanel's are classic, elegant, and practical; Schiaparelli's bold, experimental, and surreal. When Lily Sutter, a recently widowed young American teacher, visits her brother, Charlie, in Paris, he insists on buying her a couture dress—a Chanel. Lily, however, prefers a Schiaparelli. Charlie's beautiful and socially prominent girlfriend soon begins wearing Schiaparelli's designs as well, and much of Paris follows in her footsteps. Schiaparelli offers budding artist Lily a job at her store, and Lily finds herself increasingly involved with Schiaparelli and Chanel's personal war. Their fierce competition reaches new and dangerous heights as the Nazis and the looming threat of World War II bear down on Paris.
