Pursuing Citizenship in the Enforcement Era provides readers with the everyday perspectives of immigrants on what it is like to try to integrate into American society during a time when immigration policy is focused on enforcement and exclusion. The law says that everyone who is not a citizen is an alien. But the social reality is more complicated. Ming Hsu Chen argues that the citizen/alien binary should instead be reframed as a spectrum of citizenship, a concept that emphasizes continuities between the otherwise distinct experiences of membership and belonging for immigrants seeking to become citizens. To understand citizenship from the perspective of noncitizens, this book utilizes interviews with more than one-hundred immigrants of varying legal statuses about their attempts to integrate economically, socially, politically, and legally during a modern era of intense immigration enforcement. Studying the experiences of green card holders, refugees, military service members, temporary workers, international students, and

undocumented immigrants uncovers the common plight that underlies their distinctions: limited legal status breeds a sense of citizenship insecurity for all immigrants that inhibits their full integration into society. Bringing together theories of citizenship with empirical data on integration and analysis of contemporary policy, Chen builds a case that formal citizenship status matters more than ever during times of enforcement and argues for constructing pathways to citizenship that enhance both formal and substantive equality of immigrants.

This User’s Guide is intended to support the design, implementation, analysis, interpretation, and quality evaluation of registries created to increase understanding of patient outcomes. For the purposes of this guide, a patient registry is an organized system that uses observational study methods to collect uniform data (clinical and other) to evaluate specified outcomes for a population defined by a particular disease, condition, or exposure, and that serves one or more predetermined scientific, clinical, or policy purposes. A registry database is a file (or files) derived from the registry. Although registries can serve many purposes, this guide focuses on registries created for one or more of the following purposes: to describe the natural history of disease, to determine clinical effectiveness or cost-effectiveness of health care products and services, to measure or monitor safety and harm, and/or to measure quality of care. Registries are classified according to how their populations are defined. For example, product registries include patients who have been exposed to biopharmaceutical products or medical devices. Health services registries consist of patients who have had a common procedure, clinical encounter, or hospitalization. Disease or condition registries are defined by patients having the same diagnosis, such as cystic fibrosis or heart failure. The User’s Guide was created by researchers affiliated with AHRQ’s Effective Health Care Program, particularly those who participated in AHRQ’s DEcIDE (Developing Evidence to Inform Decisions About Effectiveness) program. Chapters were subject to multiple internal and external independent reviews.

A provocative, strategic plan for a humane immigration system from the nation’s leading immigration scholars and activists During the past decade, right-wing nativists have stoked popular hostility to the nation’s foreign-born population, forcing the immigrant rights movement into a defensive posture. In the Trump years, preoccupied with crisis upon crisis, advocates had few opportunities to consider questions of long-term policy or future strategy. Now is the time for a reset. Immigration Matters offers a new, actionable vision for immigration policy. It brings together key movement leaders and academics to share cutting-edge approaches to the urgent issues facing the immigrant community, along with fresh solutions to vexing questions of so-called “future flows” that have bedeviled policy makers for decades. The book also explores the contributions of immigrants to the nation’s identity, its economy, and progressive movements for social change. Immigration Matters delves into a variety of topics including new ways to frame immigration issues, fresh thinking on key aspects of policy, challenges of integration, workers’ rights, family reunification, legalization, paths to citizenship, and humane enforcement. The perfect handbook for immigration activists, scholars, policy makers, and anyone who cares about one of

the most contentious issues of our age, Immigration Matters makes accessible an immigration policy that both remediates the harm done to immigrant workers and communities under Trump and advances a bold new vision for the future.

Public debates about the terms of membership and inclusion have intensified as developed economies increasingly rely on temporary migrant labour. While most agree that temporary migrant workers are entitled to the general protection of employment laws, temporary migrants have, by definition, restricted rights to residence, full social protections and often to occupational and geographic mobility. This book raises important ethical questions about the differential treatment of temporary and unauthorised migrant workers, and permanent residents, and where the line should be drawn between exploitation and legitimate employment. Taking the regulatory reforms of Australia as a key case study, Laurie Berg explores how the influence of immigration law extends beyond its functions in regulating admission to and exclusion from a country. Berg examines the ways in which immigration law and enforcement reconfigure the relationships between migrant workers and employers, producing uncertain and coercive working conditions. In presenting an analytical approach to issues of temporary labour migration, the book develops a unique theoretical framework, contending that the concept of precariousness is a more fruitful way than equality or vulnerability to evaluate and address issues of temporary migrant labour. The book will be of great interest to scholars and practitioners of immigration law and employment law and policy.

Migration and Refugee Law: Principles and Practice in Australia is a comprehensive overview of the legal principles governing the entry of people into Australia. This fully revised third edition provides an accessible analysis of the theory and practice of this complex and controversial area of the law. It considers the social and political context of migration and refugee law in devising innovative policies aimed at creating an equitable and rational immigration system. Migration and Refugee Law: Principles and Practice in Australia combines an astute consideration of theory with the creation of practical policy solutions, and is therefore an essential resource for migration lawyers and agents, government employees, students, judicial officers and policymakers.

Immigration Law is a straightforward, up-to-date and practical introduction to this changing area of law. After a short, practical introduction in Chapter 1 (which includes a list of useful websites), the book deals with British nationality and the right of abode in the United Kingdom in Chapter 2. This is followed by a detailed analysis of immigration controls in Chapter 3. The pre-Brexit immigration status of EU and EEA nationals and their family members is considered in Chapter 4, along with how a family member of a British citizen who has engaged Treaty rights might currently use EU rather than domestic law to enter the UK. Details of the EU Settlement Scheme in Appendix EU of the Immigration Rules are included. The next four chapters address the key immigration categories of entry to the UK, including chapters on visitors, students under Tier 4 of the points-based system and employment under Tier 2. Asylum seekers and refugees are considered in Chapter 9.

Enforcement of immigration law, the appeals system and judicial review applications are dealt with in the last three chapters. The appendices contain key resource documents such as the Immigration Rules, the Immigration (EEA) Regulations 2016 and materials on the points-based system.This new edition includes developments in registration and naturalisation, electronic passport gates; extensions and refusal of leave; the Windrush Scheme; Immigration Health Surcharge; evidential flexibility for the points-based system; EU Settlement Scheme; the new Appendix W Start-Up and Innovator categories; Appendix FM; asylum claims, deportation, removal and appeals.New cases in this edition include: R (on the application of Islam) v Secretary of State for the Home Department [2019] (deprivation of citizenship); Hameed v Secretary of State for the Home Department [2019] and Secretary of State for the Home Department v Balajigari [2019] (refusal of entry clearance); R (Ahmed) v Secretary of State for the Home Department [2019] (long residence); Tarola v Minister for Social Protection [2019] (EU worker); KV (Sri Lanka) v Secretary of State for the Home Department [2019] and AS (Afghanistan) v Secretary of State for the Home Department [2019] (asylum); Secretary of State for the Home Department v PF (Nigeria) [2019] (ECHR Article 3); The Senior President in EYF (Turkey) v Secretary of State for the Home Department [2019] and AM (Somalia) v Secretary of State for the Home Department [2019] (deportation); Robinson v Secretary of State for the Home Department[2019] and UT (Sri Lanka) v Secretary of State for the Home Department [2019] (appeals).

The Australian government's policy to 'turn back the boats' and condemn asylum seekers to indefinite detention is an open and weeping sore. Government standing is undermined. Australia is condemned internationally. Over and over, Tony Abbott proclaims that the only measure of accountability is that the boats have been stopped, even when the price is physical and sexual abuse, profound psychological damage and death in detention centres. And on the sea, return to the dangers that so many have risked everything to escape. How do we stand by and allow this to happen? Why aren't we all marching in the streets? How has the government so skewed the argument that the most needy, courageous and desperate people have become demonised?
