With its broad spectrum of scholarship on interest groups past and present, *Interest Group Politics* brings together noted political scientists to provide comprehensive coverage and cutting-edge research on the role and impact of interest groups in U.S. politics, all geared to an undergraduate audience. In the wake of the Citizens United decision and the growth of lobbying into a multi-billion dollar industry, this trusted classic provides students with a guide to the influence and reach of interest groups. The Ninth Edition offers 15 new contributions on a variety of topics including organized labor, the LGBT movement, religious lobbying, the Tea Party, the tobacco industry, the role of "dark money" in campaign funding, the profession of lobbying, and advocacy and inequality. Each chapter is written by an expert in the field and carefully edited for clarity and cohesion by the editors Allan J Cigler, Burdett A. Loomis, and Anthony J. Nownes.

Understanding Politics: Ideas, Institutions, and Issues Cengage Learning

This book examines China's striving for a constitutional order in the 20th century from comparative, historical, and theoretical perspectives. Through a comprehensive study of six major constitutional reforms experienced by China in the last century, Shiping Hua explores pragmatism, instrumentalism, statism, and favoritism as the key features of the Chinese legal culture.

Demonstrating that these characteristics have roots in China's ancient past and coincide with modern communist legal theory, it argues that Chinese legal culture has greatly impacted upon the country's move to modernize its legal system. By analyzing key constitutional periods in China's history, this book also evaluates patterns that can be used to better comprehend not only China's present legal reform but its future legal developments too. As the first book to examine how the Chinese legal culture has affected constitutional reform in the 20th century, *Chinese Legal Culture and Constitutional Order* will be useful to

students and scholars of Asian and constitutional law, as well as Chinese Studies more generally.

Power and Citizenship in American Politics - Brief Edition University Press of Colorado

"Mass Media and American Politics is the most comprehensive and best book for political communication. This text has made it easy for my students to learn about research and theory related to political journalism and the political communication system in America. It has great utility and insight while being comprehensive but not overwhelming for students." —Jason Martin, DePaul University Known for its readable introduction to the literature and theory of the field, *Mass Media and American Politics* is a trusted, comprehensive look at media's impact on attitudes, behavior, elections, politics, and policymaking. This Tenth Edition is thoroughly updated to reflect major structural changes that have shaken the world of political news and examines the impact of the changing media landscape. It includes timely examples from the 2016 election cycle to

illustrate the significance of these changes. This classic text balances comprehensive coverage and cutting-edge theory, shows students how the media influence governmental institutions and the communication strategies of political elites, and illustrates how the government shapes the way the media disseminate information. Written by Doris A. Graber—a scholar who has played an enormous role in establishing and shaping the field of mass media and American politics—and Johanna Dunaway, this book sets the standard. FREE POSTER: Fact or Fiction? Use this checklist to avoid the pitfalls posed by the rise of fake news *Environmental Politics and Policy in the West, Revised Edition* ABC-CLIO The United States has not updated the Electoral College system since the Twelfth Amendment was ratified in 1804, despite public opinion polls showing a majority of Americans are in favor of changing or outright abolishing it. So why hasn't the United States reformed this system? Electoral College Reform brings together new essays examining all aspects of this crucial

debate, including the reasons for reform, the issues surrounding a constitutional amendment, the effect of the Electoral College on political campaigns and the possibilities for extra-constitutional avenues to change. The authors consider both the Federalists' vision of balanced representation and a more democratic and equality-based ideal. These competing frameworks, perhaps more than any other factor, account for centuries of American indecision on this key issue. By offering an unprecedented and carefully researched analysis of an always controversial subject, this volume explores the potential for changing a system that many contend is long overdue.

Cities and Suburbs in a Global Age Springer

This rigorous but very accessible guide to the main concepts and techniques of policy analysis is intended for students and in-service professionals who want to become more efficient and effective in their work. The book equips readers with a structured and disciplined step-by-step approach to decision making, defining issues

and applying the powerful techniques of policy analysis - always in the context of uncertainty and limited discretion. Each chapter concludes with notes and a list of supplementary sources for further reading.

Analyzing American Democracy Univ of California Press

Emphasizing that administrative law must be understood within the context of the political system, this core text combines a descriptive systems approach with a social science focus. Author Kenneth F. Warren explains the role of administrative law in shaping, guiding, and restricting the actions of administrative agencies. Providing comprehensive coverage, he examines the field not only from state and federal angles, but also from the varying perspectives of legislators, administrators, and the public. Substantially revised, the fifth edition features approximately one hundred new and current cases that place administrative law in the context of the Obama administration. Each chapter concludes with an edited exemplary case that highlights major themes and helps

students understand important points made in the chapter. Using straightforward prose and avoiding unnecessary legal jargon, *Administrative Law in the Political System*, fifth edition provides students with an informed and accessible overview of a difficult subject matter. [Understanding Global Conflict and Cooperation](#) BRILL

Following one of the most contentious and truth-challenged presidential administrations and elections in U.S. history, there has never been a greater need for an American government text like this--evidence-based, critically thoughtful, and contemporary in tone and touch. This text teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as an introduction to the discipline—covering the Constitution, political behavior, formal and informal institutions, and public policy--by reflecting the theoretical developments and types of empirical inquiry conducted by researchers. For introductory courses

in American government, this text covers theory and methods as well. New to the Fourth Edition Provides 2020 election data updates throughout and examines policy implications of the ensuing changes in election laws across the country. Recaps controversial Trump administration policies and looks into the Biden administration's early days. Offers strategic updates on the Covid-19 pandemic and the resulting economic crisis both in terms of questions of federalism as well as public policy. Considers the rise of new interest groups and social movements as well as the reckoning with racial injustice. Examines contemporary questions of social justice in light of civil rights and liberties as well as in terms of policy. Covers the death of Supreme Court Justice Ruth Bader Ginsberg, the battle to confirm her replacement, the addition of Justice Coney Barrett, and the policy implications of the shift in the ideological balance of the Court. For the fourth edition, a new co-author comes to the book with award-winning experience in diversity and teacher education as well as

research interests in the presidency, women and politics, and foreign policy.

Political Identity and Democratic Citizenship in Turbulent Times Taylor & Francis

We all witness, in advertising and on supermarket shelves, the fierce competition for our food dollars. In this engrossing exposé, Marion Nestle goes behind the scenes to reveal how the competition really works and how it affects our health. The abundance of food in the United States--enough calories to meet the needs of every man, woman, and child twice over--has a downside. Our over-efficient food industry must do everything possible to persuade people to eat more--more food, more often, and in larger portions--no matter what it does to waistlines or well-being. Like manufacturing cigarettes or building weapons, making food is big business. Food companies in 2000 generated nearly \$900 billion in sales. They have stakeholders to please, shareholders to satisfy, and government regulations to deal with. It is nevertheless shocking to learn precisely how

food companies lobby officials, co-opt experts, and expand sales by marketing to children, members of minority groups, and people in developing countries. We learn that the food industry plays politics as well as or better than other industries, not least because so much of its activity takes place outside the public view. Editor of the 1988 Surgeon General's Report on Nutrition and Health, Nestle is uniquely qualified to lead us through the maze of food industry interests and influences. She vividly illustrates food politics in action: watered-down government dietary advice, schools pushing soft drinks, diet supplements promoted as if they were First Amendment rights. When it comes to the mass production and consumption of food, strategic decisions are driven by economics--not science, not common sense, and certainly not health. No wonder most of us are thoroughly confused about what to eat to stay healthy. An accessible and balanced account, *Food Politics* will forever change the way we respond to food industry marketing

practices. By explaining how much the food industry influences government nutrition policies and how cleverly it links its interests to those of nutrition experts, this path-breaking book helps us understand more clearly than ever before what we eat and why.

A Toolkit for Learners

Israel in Comparative Perspective Longman Publishing Group
Population growth and industrial development have put the wide-open spaces and natural resources that define the West under immense stress. Vested interests clash and come to terms over embattled resources such as water, minerals, and even open space. The federal government controls 40 to 80 percent of the land base in many western states; its sway over the futures of the West's communities and environment has prompted the development of unique policies and politics in the West. Zachary A. Smith

and John Freemuth bring together a roster of top scholars to explicate the issues noted above as well as other key questions in this new edition of *Environmental Politics and Policy in the West*, which was first published in 1993. This thoroughly revised and updated edition offers a comprehensive and current survey. Contributors address the policy process as it affects western states, how bureaucracy and politics shape environmental dialogues in the West, how western states innovate environmental policies independently of Washington, and how and when science is involved (or ignored) in management of the West's federal lands. Experts in individual resource areas explore multifaceted issues such as the politics of dam removal and restoration, wildlife resource concerns, suburban sprawl and smart growth, the management of hard-rock mining, and the allocation of the West's tightly limited water resources. Contributors include: Leslie R. Alm, Carolyn D. Baber, Walter F. Baber, Robert V. Bartlett, Hugh Bartling, Matthew A. Cahn, R.

McGreggor Cawley, Charles Davis, Sandra Davis, John C. Freemuth, Sheldon Kamieniecki, Matt Lindstrom, William R. Mangun, Denise McCain-Tharnstrom, Daniel McCool, Jaina L. Moan, and Zachary A. Smith.
