 March of the Falsettos" is the title song of this act of the show. William Finn planned on calling the show "The Pettiness of Misogyny", but then he decided to go with a less direct and more subtle title, calling it "March of the Falsettos". But what does the title mean? The central theme of the show is the characters lack of maturity (as they also state themselves in this song) and their journey of growing out of their childish behavior. Something that for instance Marvin needs to do to be the father Jason needs. Jason, whose voice hasn't yet changed, sings an octave higher than the other three men throughout the show. This is the only song, that all four men sing in the same register, since Marvin, Medel and Whizzer sing in the falsetto, losing the symbol of manhood - their changed voices. None of these men have grown up yet. All of them are still very self-centered, self-involved and insist on getting whatever they want. The "March of the Falsettos" is their journey from childhood to becoming adults.

In *The Mikado to Matilda*: British Musicals on the New York Stage, Thomas Hischak provides an overview of British musicals that made their way to Broadway, covering their entire history up to the present day. This is the first book to look at the British musical theatre with reference to those London musicals that were also produced in New York City. The book covers 110 British musicals, ranging from 1750 to the present day, including the popular Gilbert and Sullivan comic operettas during the Victorian era, the Andrew Lloyd Webber mega-musicals of the late twentieth century, and today's biggest hits such as *Matilda*. Each London musical is discussed first as a success in England and then how it fared in America. The plots, songs, songwriters, performers, and producers for both the West End and the Broadway (or Off Broadway) production are identified and described. The discussion is sometimes critical, evaluating the musicals and why they were or were not a success in New York.

By the Tony-award winning authors of *Falsettos*, here is an energetic, sardonic, often comical musical about a composer during a medical emergency. Gordon collapses into his lunch and awakes in the hospital surrounded by his maritime-enthusiast lover, his mother, a co-worker, the doctor and the nurses. Reluctantly, he had been composing a song for a children's television show that features a frog - Mr. Bungee - and the specter of this large green character and the unfinished work haunts him throughout his medical ordeal. What was thought to be a tumor turns out to be something more operable and Gordon recovers, grateful for a chance to compose the songs he yearns to produce.

The tale of a bizarre yet familiar triangle involving a moneyed butcher who writes poetry, a poor but idealistic inventor who is interested in security and securities, and a girl forced to decide between love and money, the play is easily recognized as a good-humored allegory on the last several decades of American life presented in the rollicking style of music-hall comedy.
