The Other End of the Leash Algonquin Books

This book attempts to search for answers to some of the fundamental questions about life on earth that humanity has been asking for thousands of years. The first question is, "Why I am on earth?" Rooted deeply within the human psyche, this question often arises with a belief that there must be some meaning and purpose in life and that human life is more than just being born, getting an education, having jobs, raising families, and eventually dying. The second question is, "Who am I?" When we say "I do this" or "I do that," what is that "I" we are referring to? What actually is meant by the word "I"? Does it mean the body we have that we see walking, seeing, doing

things, or thinking? Or is it something larger than the physical body? When we say "This is good" or "That is good," what is the standard by which we determine that something is good? For example, what you consider to be good in any situation or activity may not be perceived as such by others. Is there any standard that can be generally accepted by humanity despite the difference in people's background and belief systems?

- The extraordinary account of James Garfield's rise from poverty to the American presidency, and the dramatic history of his assassination and legacy, from the

bestselling author of *The River of Doubt*. "Crisp, concise and revealing history.... A fresh narrative that plumbs some of the most dramatic days in U.S. presidential history." —The Washington Post
James Abram Garfield was one of the most extraordinary men ever elected president. Born into abject poverty, he rose to become a wunderkind scholar, a Civil War hero, a renowned congressman, and a reluctant presidential candidate who took on the nation's corrupt political establishment. But four months after Garfield's inauguration in 1881, he was shot in the back by a deranged office-seeker named Charles Guiteau. Garfield survived the attack,

Meticulously researched, epic in scope, and pulsating with an intimate human focus and high-velocity narrative drive, *The Destiny of the Republic* brings alive a forgotten chapter of U.S. history. Dreaming Down Heaven powerhouse Books
From one of Scandinavia's most innovative writers, a shimmering journey into the absurd phenomenality of family life - and the human microbiome

Adorable is a haunting, transmundane portrait of a young family told in four parts, in Copenhagen and London. The love between B and Q is tender but worn. When their daughter Æ is born, the everyday lights up in a new way. In its second part, the dead are animated in B's brain. When B's father dies, the news is delivered to her by phone and an essayistic, collagist meditation on death and transmission ensues. And then, it's finally Friday. B and Q descend below the living room floor and wander through a cracked and skittish underworld. In Ida Marie Hede's porous world, which is our world too, grime, bacteria, and even death are intimately

bound up with health and renewal. Fusing the commonplace and the profound, the material and the spiritual, the elegiac and the conceptual, Adorable powerfully insists that it is impossible to tell where death and life begin or end. Praise for Adorable Ida Marie Hede's Adorable is this incredible, tiny, undead person you can possess and make mouth subconscious astonishments. The transubstantiation of book to wet undead joy comes from Hede's use of words for feelings and experiences fantastically resistant to representation. In its vivid wrangle, Hede's language blooms into dazzling gratuity by anaphoric increments, as it laps hungrily at death and toddlers and

shit and grief and slime and herself. The whole thing glistens and then spontaneously incorporates - Ed Atkins A teeming, fluid book wet with leaking bodies, influences, concerns, memories, moods. Hede's defamiliarising creation brims over with love and broaches our consciousness, making our own world hot and sticky. Viscerally apt reading for the fraught era we find ourselves in: obsessed with contagion and encroachment, yet besotted with connection and touch - Jen Calleja Adorable pulls us between wanting to live and having to die, between child found and parent lost, feeling from inside Hede's brain-womb all that hide and seek within the concaves of

living rooms, telephone calls, and other skins. An urgent, brutally tactile novel that grows boundless in the mind, Adorable achieves life - Mara Coson The reality of bodily fluids is so incisive that what first seems shocking becomes part of the narrative arc, the language of a strange other world. Is the setting of the book B's belly or her brain? Only a fool would separate the two in Hede's prose - Full Stop Adorable is the story of B, Q and their daughter Æ -- one that transcends countries, genres, and is drawn with charm and poetry. Hede's analyses are profound and intellectual. She is unafraid to unpick the grotesqueness of humanity, coupling her descriptions with delicate observations

on love and family. A fascinating and gripping read - Lunate Adorable is a lovely, creative take on both life and death - strikingly and effectively earthy, but also beautiful in its spun-out fantasies. It impresses particularly in its descriptions of young(est) childhood (and parenthood). The presentation is not straightforward, but there is a coherence to the whole, and certainly sufficient story, too, making for an engaging and stimulating work - Michael Orthofer, The Complete Review IDA MARIE HEDE (b. 1980) is the author of seven books and numerous plays. She holds an MA in Art History from the University of Copenhagen and Goldsmiths College and

graduated from the School of Creative Writing in Copenhagen in 2008. Hede has taught at Gladiatorskolen, the Royal Danish Academy of Fine Arts, and is currently a c

 A stunning debut novel on sex, loss, and redemption. It is 1975 and India is in turmoil. American Stanley Harrington arrives to study Sanskrit philosophy and escape his failing marriage. When he finds himself witness to a violent accident, he begins to question his grip on reality. Maya introduces us to an entertaining cast of hippies, expats, and Indians of all walks of life. From a hermit hiding in the Himalayan jungle since

the days of the British Raj, to an accountant at the Bank of India with a passion for Sanskrit poetry, to the last in a line of brahman scholars, Stanley's path ultimately leads him to a Tibetan yogi, who enlists the American's help in translating a mysterious ancient text. Maya, literally "illusion," is an extended meditation on the unraveling of identity. Filled with rich observations and arresting reflections, it mines the porous border between memory and imagination.

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans

are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs

and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

This book “*Movement Of Stillness*” reveals the New Mayan Calendar post 2012 as channeled by Jacqui Derbecker from Edgar Cayce. Cayce was a well-known mystic philosopher, seer, channeler, and author. He lived from 1877-1945. Jacqui felt honoured and privileged to

channel/streamline, through automatic writing, about 100 prophecies which are revealed in complete detail. By channeling Cayce she was able to clearly visualize the authentic and exciting New Mayan Calendar which she states, “it's not exactly what some perceive it to be.” Jacqui explains, “there are only positive high vibrational messages represented by the Mayan's predictions and not ones of mass destruction.” She advises that now is the time to make “*living in Spirit*” a reality as we move into a higher realm of truth and a natural original way of being. These prophecies are called the “*All Truths*” or “*Crystal Messages of Truth*”. Each touch upon the daily living

aspects of: career, relationships, financial, emotional, physical, mind, spirit and our sense of community. They speak directly to each and everyone of us regarding the releasing of old barriers and awakening to your authentic self. Thus creating a sense of stillness and peace.

In this captivating novel, New York Times bestselling author Fiona Davis takes readers into the glamorous lost art school within Grand Central Terminal, where two very different women, fifty years apart, strive to make their mark on a world set against them. For most New Yorkers, Grand Central Terminal is a crown jewel, a masterpiece of design.

But for Clara Darden and Virginia Clay, it represents something quite different. For Clara, the terminal is the stepping stone to her future. It is 1928, and Clara is teaching at the lauded Grand Central School of Art. Though not even the prestige of the school can override the public's disdain for a "woman artist," fiery Clara is single-minded in her quest to achieve every creative success—even while juggling the affections of two very different men. But she and her bohemian friends have no idea that they'll soon be blindsided by the looming Great Depression...and that even poverty and hunger will do little to prepare Clara for the greater tragedy yet to come. By 1974, the

terminal has declined almost as sharply as Virginia Clay's life. Dilapidated and dangerous, Grand Central is at the center of a fierce lawsuit: Is the once-grand building a landmark to be preserved, or a cancer to be demolished? For Virginia, it is simply her last resort. Recently divorced, she has just accepted a job in the information booth in order to support herself and her college-age daughter, Ruby. But when Virginia stumbles upon an abandoned art school within the terminal and discovers a striking watercolor, her eyes are opened to the elegance beneath the decay. She embarks on a quest to find the artist of the unsigned masterpiece—an

impassioned chase that draws Virginia not only into the battle to save Grand Central but deep into the mystery of Clara Darden, the famed 1920s illustrator who disappeared from history in 1931.

The New York Times bestselling author of The Geography of Bliss

embarks on a rollicking intellectual journey, following in the footsteps of history's greatest thinkers and showing us how each—from Epicurus to Gandhi, Thoreau to Beauvoir—offers practical and spiritual lessons for today's unsettled times. We turn to philosophy for the same reasons we travel: to see the world from a different perspective, to unearth hidden beauty, and to find new ways of being. We want to learn how to embrace wonder. Face regrets. Sustain hope. Eric Weiner combines his twin passions for philosophy and travel in a globe-trotting pilgrimage that uncovers surprising life lessons from great thinkers around the world, from Rousseau to Nietzsche, Confucius

to Simone Weil. Traveling by train (the most thoughtful mode of transport), he journeys thousands of miles, making stops in Athens, Delhi, Wyoming, Coney Island, Frankfurt, and points in between to reconnect with philosophy's original purpose: teaching us how to lead wiser, more meaningful lives. From Socrates and ancient Athens to Beauvoir and 20th-century Paris, Weiner's chosen philosophers and places provide important practical and spiritual lessons as we navigate today's chaotic times. In a "delightful" odyssey that "will take you places intellectually and humorously" (San Francisco Book Review), Weiner invites us to voyage alongside

him on his life-changing pursuit of wisdom and discovery as he attempts to find answers to our most vital questions. The Socrates Express is “full of valuable lessons...a fun, sharp book that draws readers in with its apparent simplicity and bubble-gum philosophy approach and gradually pulls them in deeper and deeper” (NPR).

A gripping portrait of life in a Montauk summer house--a debut memoir

of first love, identity and self-discovery among a group of friends who became family. They call Montauk the end of the world, a spit of land jutting into the Atlantic. The house was a ramshackle split-level set on a hill, and each summer thirty one people would sleep between its thin walls and shag carpets. Against the moonlight the house's octagonal roof resembled a bee's nest. It was dubbed The Hive. In 2013, John Glynn joined the share house. Packing his duffel for that first Memorial Day Weekend, he prayed for clarity. At 27, he was crippled by an all-encompassing loneliness, a feeling he had carried in his heart for as long as he could remember. John didn't

understand the loneliness. He just knew it was there. Like the moon gone dark. OUT EAST is the portrait of a summer, of the Hive and the people who lived in it, and John's own reckoning with a half-formed sense of self. From Memorial Day to Labor Day, The Hive was a center of gravity, a port of call, a home. Friendships, conflicts, secrets and epiphanies blossomed within this tightly woven friend group and came to define how they would live out the rest of their twenties and beyond. Blending the sand-strewn milieu of George Howe Colt's *The Big House*, the radiant aching of Olivia Liang's *The Lonely City*, OUT EAST is a keenly wrought story of love and

transformation, longing and escape in our own contemporary moment. "An unforgettable story told with feeling and humor and above all with the razor-sharp skill of a delicate and highly gifted writer." -- Andre Aciman, *New York Times* bestselling author of *Call Me by Your Name* "Out East is full of intimacy and hope and frustration and joy, an extraordinary tale of emotional awakening and lacerating ambivalence, a confession of self-doubt that becomes self-knowledge." -- Andrew Solomon, National Book Award winner
