Kentucky Annotated Teacher's Edition
 McDougal Littell
 As in previous editions, the focus in
 INTERMEDIATE ALGEBRA remains on the
 Aufmann Interactive Method (AIM).
 Students are encouraged to be active
 participants in the classroom and in their
 own studies as they work through the How

To examples and the paired Examples and
 You Try It problems. Student engagement
 is crucial to success. Presenting students
 with worked examples, and then providing
 them with the opportunity to immediately
 solve similar problems, helps them build
 their confidence and eventually master
 the concepts. Simplicity is key in the
 organization of this edition, as in all other
 editions. All lessons, exercise sets, tests,
 and supplements are organized around a
 carefully constructed hierarchy of
 objectives. Each exercise mirrors a
 preceding objective, which helps to
 reinforce key concepts and promote skill
 building. This clear, objective-based
 approach allows students to organize their
 thoughts around the content, and supports
 instructors as they work to design syllabi,
 lesson plans, and other administrative
 documents. New features like Focus on

Success, Apply the Concept, and Concept
 Check add an increased emphasis on
 study skills and conceptual understanding
 to strengthen the foundation of student
 success. The Ninth Edition also features a
 new design, enhancing the Aufmann
 Interactive Method and making the pages
 easier for both students and instructors to
 follow. Available with InfoTrac Student
 Collections <http://gocengage.com/infotrac>.
