What started in the mid-90s when a few people decided to build (stock Softails+ from aftermarket parts-because they couldn't buy one at the dealer-has evolved into a full-blown industry. Today, every small town has a Chopper or Custom bike shop and every cable TV channel has a Biker Build-Off series. No longer content to build copies of stock motorcycles, today's builder wants a motorcycle that's longer, lower, and sexier than anything approved by a factory design team. Wolfgang Publications and Tim Remus were there at the very beginning of the trend with their Ultimate V-Twin Motorcycle book. Today they're back with their new book, *Advanced Custom Motorcycle Assembly & Fabrication*. Part catalog, part service manual, and part inspiration, this new book offers help with planning the project, getting the right look and actually assembling that custom bike you've dreamed about for years. Three start-to-finish sequences show not just how the best bikes are bolted together, but how the unique one-off gas tanks are shaped and then covered with candy brandywine paint.

Feeling states including emotional experiences are pervasive to human functioning. Feeling states deeply influence the individual's effort, attention, decision making, memory, behavioural responses, and interpersonal interactions. The sporting environment offers an ideal setting for the development of research questions and applied interventions to improve the well-being and well-functioning of the people involved. This ground-breaking book is the first to offer cutting-edge knowledge about contemporary theoretical, methodological, and applied issues with the contributions of leading researchers and practitioners in the field. Feeling states in sports are comprehensively covered by adopting an international and multi-disciplinary perspective. Section I covers most relevant conceptual frameworks including emotion-centred and action-centred approaches, challenge and threat evaluations, an evolutionary approach to emotions, and the role of passion in the experience of emotion. Section II focuses on interpersonal aspects related to emotions and regulation encompassing social and interpersonal emotion influence and regulation, social identity and group-based emotions, and performance experiences in teams. Section III presents applied indications surrounding emotional intelligence training, and emotional regulation strategies including imagery, self-talk, the use of music, mindfulness, motor skills execution under pressure, self-regulation in endurance sports, and the use of technology. Finally, Section IV examines issues related to athlete well-being including the role of emotions in sport injury, emotional eating, and mental recovery. *Feelings in Sport: Theory, Research, and Practical Implications for Performance and Well-being* is an essential source for sport psychology practitioners, researchers, sports coaches, undergraduate, and postgraduate students.

The modern Superbike era began in the 1970s, and was long dominated by Italian marques, particularly Ducati's 750 and 900 Super Sport. Since then, Ducati has produced a long series of sporting bikes, several of them among the most desirable motorcycles ever built. In this new all-color history, with the endorsement of Ducati General Manager Ing. Massimo Bordi, Ian Falloon chronicles the evolution of these exciting motorcycles, from the birth of the 750 GT in 1970, through the Super Sports and Mike Hailwood Replicas, and right up to the marque's latest air-oil cooled, fuel-injected models. Includes full production figures and engine and frame numbers. Native Australian Ian Falloon is a freelance motorcycle journalist and photographer. He has been involved with Ducatis for more than 25 years and has written books like MBI's *Ducati Twins Restoration Guide*. He currently resides in New Zealand.

From the single-cylinder bikes of the 1950s to the high-performance sportbikes of today, The Complete Book of Ducati Motorcycles showcases the entire spectrum of Ducati. Legendary Ducati motorcycles have something of a rags-to-riches story. This Italian motorcycle manufacturer began by selling motorized bicycles to impoverished residents of post-World War II Italy. Today, Ducati is the world's premier manufacturer of street motorcycles whose sales continue to rise year after year. Its svelte, hyper-accelerating motorcycles are two-wheeled wonders that are fluent in the language of speed. The Complete Book of Ducati Motorcycles traces the stunning chronology of the motorcycles dreamed up by Ducati, from the 1950s to present day. Laid out for the first time in

encyclopedia form with gorgeous photography and insights from Ducati expert Ian Falloon, this book offers motorcycle enthusiasts a closer look at the craftsmanship, power, and beauty of these extraordinary motorcycles. The book features all of the motorcycles from Ducati's storied history, including the groundbreaking Desmodromic 750 Super Sport, the Mike Hailwood Replica, the Superbike-dominating 916, and the epic Panigale. From the street bikes that gave birth to the very notion of the modern superbike to the racing motorcycles that dominated tracks in Great Britain, Europe, and North America since the latter part of the twentieth century, *The Complete Book of Ducati Motorcycles* runs the full gamut of sportbikes. It's a collection that demands shelf space in the library of any true motorcycle collector or fan.

Superintendent Mike Yeadings' sergeant, Rosemary Zyczynski, (call her "Z") had a psychic itch about her landlady's celebration dinner. "Did you get a feeling," she asks her lover, Max, "that there's more going on under this roof than readily meets the eye?" Rosemary couldn't have been righter. The dinner was in honor of the new house - a large, once private mansion that had been through numerous changes of face throughout the years. Now Z's landlady had bought it to replace her original dingy building, and Rosemary had moved with her from the old to the new. The party was to welcome the tenants of the several new apartments that had been made in the new house. Z's uneasiness about her fellow tenants was quickly forgotten; she had more pressing problems of her own. Yeadings was about to choose either Rosemary or Beaumont, his other sergeant, to promote to inspector, and the unavoidable subsurface rivalry between the two very different police detectives had raised a barrier that hindered them in their work. The work they did have come close to Rosemary herself and startled her into remembering her words to Max. The body of one of the tenants, a single woman who had moved in with her mother, was found brutally murdered, and the case naturally was Yeadings' responsibility and thus that of Rosemary and Beaumont. Curzon uncannily keeps on bringing her readers believable characters, both the stalwart Yeadings and his Woman Friday, Z, as well as whole groups of once-a-book individuals who set a reader right smack in the middle of the little English town and the puzzling and intriguing crime that can be found there.

It's the thick of the mid-1990s boom, and David M. Gross is racking up billable hours for a Manhattan corporate law firm and thinking that there must be more to life. Out of the blue, a friend calls with a tantalizing and risky proposal: How would he feel about moving to Bologna to help turn around a legendary, down-on-its-luck Italian motorcycle company, known for its dominance on the track and its inability to turn a profit? After a brief soul-search and popping his first (unintentional) wheelie during his maiden ride on the company's monstrous superbike, he signs on. And so Gross heads to Bologna, fabled home of marbled meats, radical leftist politics, and bespoke shoes, diving into his new life as the "corporate image consultant" to gearheads and learning to navigate the giddy mores of Bolognese society. He meets the CEO, who can relax only on planes between meetings; the manic, bellicose bike designer, convinced that only his genius can save the company; and the director of the museum, obsessed by the factory's role in World War II. Gross sparks the business's "spectacularization" with sexy ad campaigns starring factory workers who, when not on strike, strut to the espresso machine clad in Versace. Above all, he falls in love with motorcycles, seduced by speed, and realizes that becoming a better rider means tapping into dormant parts of his self that, as it turns out, were just waiting to be unleashed. And when he picks up a handsome, young—and closeted—skinhead, things really get interesting . . . In sensuous, hilarious, and wildly entertaining prose, Gross pens a wry yet ecstatic love letter to an uproarious city and its style-obsessed denizens, and to the motorcycle that gave him the freedom to live life at its very fastest.
