In From Metaphysics to Midrash, Shaul Magid explores the exegetical tradition of Isaac Luria and his followers within the historical context in 16th-century Safed, a unique community that brought practitioners of Judaism, Christianity, and Islam into close contact with one another. Luria's scripture became a theater in which kabbalists redrew boundaries of difference in areas of ethnicity, gender, and the human relation to the divine. Magid investigates how cultural influences altered scriptural exegesis of Lurianic Kabbala in its philosophical, hermeneutical, and historical

perspectives. He suggests that Luria and his followers were far from cloistered. They used their considerable skills to weigh in on important matters of the day, offering, at times, some surprising solutions to perennial theological problems.

How the occupation of a watch factory became one of the iconic labor struggles after May 1968 In 1973, faced with massive layoffs, workers at the legendary Lip watch firm in Besançon, France, occupied their factory to demand that no one lose their job. They seized watches and watch parts, assembled and sold watches, and paid their own salaries. Their actions recaptured the ideals of May 1968, when 11 million workers had gone on strike to demand greater autonomy and to overturn the status

quo. Educated by '68, the men and women at the Besançon factory formed committees to control every aspect of what became a national struggle. Female employees developed a working-class feminism, combating workplace sexual harassment and male control of the union. The endurance of the Lip movement and its appeal through the 1970s came from its rich democratic, participatory culture. The factory workers welcomed supporters and engaged with them, an expression of solidarity between blue-collar and student activists that built on the legacy of 1968. *Opening the Gates: The Lip Affair, 1968-1981* is the first account of all facets of the experience, drawing extensively on unpublished materials to reconstruct the vision and practice of those involved. The Lip workers' struggle was the last widespread expression in France of the belief that creativity and moral autonomy are the driving force of social transformation. It brought about what Sartre called "the extension of the field of possibilities"—not just for workers, but for all those who gave the movement support and meaning.

The work is a history of Jewish beliefs regarding the concept of the soul, the idea of resurrection, and the nature of the afterlife. The work describes these beliefs, accounts for the origin of these beliefs, discusses the ways in which these beliefs have evolved, and explains why the many changes in belief have occurred. Views about the soul, resurrection, and the afterlife are related to other Jewish views and to broad movements in Jewish thought; and Jewish intellectual history is placed within the context of the history of Western thought in general. That history begins with the biblical period and extends to the present time.

The Bible and the American Myth challenges the academic study of the Bible to orient itself to cultural criticism. The essays model an approach to the study of the Bible that entails efforts to fathom not only the meanings of texts, but the role of texts in the construction of meaning. It is all the more fascinating and poignant that the essayists are students of theology of varied backgrounds. What they have in common is the pursuit of theological studies at the mouth of Harlem. This location at the turn of the century inspired them to think differently about the focus and agenda of theological studies, especially biblical studies. Each essayist is convinced that the study of the Bible should entail the study of cultural construction and deconstruction, the study of the making and unmaking of cultural myths that shape existence.
