Implement Oracle Business Intelligence Applications Provide actionable business intelligence across the enterprise to enable informed decision-making and streamlined business processes. Oracle Business Intelligence Applications: Deliver Value Through Rapid Implementations shows how to justify, configure, customize, and extend this complete package of BI solutions. You'll get a technical

walkthrough of Oracle Business Intelligence Applications architecture-- from the dashboard to the data source-- followed by best practices for maximizing the powerful features of each application. You will also find out about stakeholders critical to project approval and success. Optimize performance using Oracle Exalytics In-Memory Machine Deliver timely financial information to managers with Oracle Financial Analytics Enable a streamlined, demand-driven supply chain via Oracle Supply Chain and Order Management Analytics Provide end-to-end visibility into manufacturing operations with Oracle Manufacturing Analytics Optimize supply-side performance through Oracle Procurement and Spend Analytics Use Oracle Human Resources Analytics to provide key workforce information to managers and HR professionals Track the costs and labor required to maintain and operate assets with Oracle Enterprise Asset Management Analytics Maintain visibility into project performance via Oracle Project Analytics Provide actionable insight into sales opportunities using Oracle Sales Analytics Enable superior customer service with Oracle Service

Analytics

### **International Conference on Cognitive based Information Processing and Applications (CIPA 2021)** Integrated Supply Chain Management

This sixth volume deals with a highly topical subject, as it presents the response offered by the broad international Customs community to other interested parties, including trade-related and intergovernmental organizations, to the challenge posed by international terrorism and organized cross-border crime, with regard to security and facilitation of the international supply chain.

### **Business Analytics** IGI Global

The book begins by looking at massive computing tools in Big Data ecosystems with a focus on Hadoop, Mapreduce, Hadoop Distribute File System, and Hadoop Common Components (Pig, Hive, Flume, Oozie, Hbase, Sqoop, Mahout, and others). Job automation and examples developed with SQL Server are discussed below. Apache Ambari's Hadoop ecosystem is also introduced. Additionally, the SAS Big Data Analytics tools are presented (SAS Access Interface to Hadoop, SAS Data Management, SAS

Visual Analytics, SAS Visual Statistics, SAS In Memory Statistics for Hadoop, SAS High Performance Data Mining, SAS High Performance Text Mining, SAS VIYA, etc.) Big Data Analytics tools from Oracle (Big Data Appliance, Big Data Connectors, NoSQL Database, Exadata, Business Analytics, etc.), Microsoft (HDInsight, Azure, etc.) and IBM (IBM Solution for Hadoop Power Systems Edition, IBM AIX Solution Editions for Cognos and SPSS, IBM SPSS Modeler, etc.). The quality and integrity of data in Big Data processes and the movement of data between clusters are addressed below. As an example, the copy and movement of databases between servers in SQL Server is developed. HYPER-V, Hadoop, and Ganglia cluster monitoring tools, as well as web interface and other tools, are covered later. Finally, the techniques of Big Data and Business Intelligence are deepened. The most important Business Intelligence tools (Business Objects, MicroStrategy, Tableau, Power BI, Qlik, Domo, Pentaho, etc.) are analyzed with special attention to dashboards. SAS Visual Analytics tools and SAP tools for dashboards are described. Finally, the implementation of KDD

(Knowledge Discovery in Data Bases) with SAS (SAS Enterprise Miner) and IBM (IBM SPSS Modeler) tools is described through examples.

**InfoWorld** McGraw Hill Professional For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

Financial Statement Analysis CRC Press This book addresses issues associated with the interface of computing, optimisation, econometrics and financial modeling, emphasizing computational optimisation methods and techniques. The first part addresses optimisation problems and decision modeling, plus applications of supply chain and worst-case modeling and advances in methodological aspects of optimisation techniques. The second part covers optimisation heuristics, filtering, signal extraction and time series models. The final part discusses optimisation in portfolio selection and real option

modeling.

T-Byte Platforms & Applications John Wiley & Sons

Technology Forecast: 20032005 is the latest in a series that the PricewaterhouseCoopers Global Technology Centre has published annually for more than a dozen years. This years book provides in-depth coverage of enterprise applications and enabling software and forecasts significant developments in those areas over the next three years. It also contains information of particular interest to senior executives, including CFO Perspectives for each of the chapters and a chapter on business reporting and XBRL. As the pace of business quickens, companies must eliminate information lag and make more timely decisions. Business intelligence technologies business activity monitoring, event notification, and digital dashboards provide executives with real-time information about the status of key business processes, including their relations with customers and suppliers. New business integration technologies, including increased use of XML-based Web services, are making end-to-end

automation of business processes easier to accomplish. Meanwhile, the incorporation of analytic capabilities into virtually all enterprise applications, as well as advances in knowledge management and collaborative technologies, increase the speed and effectiveness of decision-making. *Technology Forecast: 2003/2005* discusses these and other changes under way in enterprise IT. It is divided into three sections, each highlighting a different area of enterprise software, that together comprise ten chapters providing detailed coverage of specific technologies and applications: *Enterprise Applications* contains chapters on enterprise suites, including enterprise suite architectures, supply chain event and performance management, and enterprise resource planning; customer-facing applications; and business intelligence and enterprise analytics, including real-time business intelligence and business activity monitoring. *Information Management* comprises chapters on enterprise content management; knowledge management and e-learning; and collaborative technologies. *Enabling Software* includes chapters on XML and Web services;

component frameworks, including J2EE and Microsoft .Net; application and portal servers; and business integration technologies, including business process modeling, monitoring, and management. In addition, the book features interviews with three leading figures in IT: Vivek Ranadivé Founder, chairman and CEO of TIBCO Software. A recognized industry leader, Ranadivé was selected by InfoWorld as one of the top ten technology innovators in 2002. He was also recognized by Ernst & Young as a 2002 software entrepreneur of the year. His book *The Power of Now: How Winning Companies Sense and Respond to Change Using Real-Time Technology* (McGraw-Hill, 1999) has been widely used as a business school textbook. Tony Scott CTO for General Motors Information Systems and Services organization, where he is responsible for defining the enterprise architecture and standards across all of GMs global business. His work at GM has included the development of its employee portal and wireless strategy, and he directs the companys involvement in IT standards bodies and technology consortium organizations. Ronald Weissman A venture

partner with Apax Partners, a leading international private equity and venture capital firm with offices throughout Europe, the United States, Israel, and Japan. Apax manages more than \$12 billion on behalf of major institutional investors in the United States and abroad. His focus is on U.S. and international opportunities in enterprise and infrastructure software and on Apax portfolio company development. *Automotive Product Development* CRC Press

Managing Global Supply Chains Lulu Press, Inc

Master Oracle Hyperion Financial Management Consolidate financial data and maintain a scalable compliance framework with expert instruction from an Oracle ACE. Oracle Hyperion Financial Management Tips & Techniques provides advanced, time-saving procedures not documented in user manuals or help files. Find out how to configure Oracle Hyperion Financial Management, import and reconcile data, deliver dynamic business reports, and automate administrative tasks. Strategies for supporting, testing,

and tuning your application are also covered in this comprehensive Oracle Press guide. Establish objectives and develop an effective rollout plan Set up and customize Oracle Hyperion Financial Management Create rules using VBScript and the Calculation Manager feature of Oracle Hyperion Foundation Services Load, test, and reconcile your data with Oracle Data Integrator and Oracle Hyperion Financial Data Quality Management Design, update, and distribute Web-based business reports Integrate content from Microsoft Excel, Word, and PowerPoint using SmartView Work with the Lifecycle Management feature of Oracle Hyperion Foundation Services Identify and resolve performance, design, and capacity problems

**Integrated Supply Chain Management** John Wiley & Sons

This book contains papers presented at the International Conference on Cognitive based Information Processing and Applications (CIPA) held during August 21, 2021, online conference (since COVID 19), which is divided into a 2-volume book. The papers in the second volume represent the various technological advancements in

network information processing, graphics and image processing, medical care, machine learning, smart cities. It caters to postgraduate students, researchers, and practitioners specializing and working in the area of cognitive-inspired computing and information processing.

Optimisation, Econometric and Financial Analysis IGI Global

Written by Oracle insiders, this indispensable guide distills an enormous amount of information about the Oracle Database into one compact volume. Ideal for novice and experienced DBAs, developers, managers, and users, Oracle Essentials walks you through technologies and features in Oracle's product line, including its architecture, data structures, networking, concurrency, and tuning. Complete with illustrations and helpful hints, this fifth edition provides a valuable one-stop overview of Oracle Database 12c, including an introduction to Oracle and cloud computing. Oracle Essentials provides the conceptual background you need to understand how Oracle truly works. Topics include: A complete overview of Oracle databases and data stores, and Fusion Middleware products

and features Core concepts and structures in Oracle's architecture, including pluggable databases Oracle objects and the various datatypes Oracle supports System and database management, including Oracle Enterprise Manager 12c Security options, basic auditing capabilities, and options for meeting compliance needs Performance characteristics of disk, memory, and CPU tuning Basic principles of multiuser concurrency Oracle's online transaction processing (OLTP) Data warehouses, Big Data, and Oracle's business intelligence tools Backup and recovery, and high availability and failover solutions *Oracle Business Intelligence Applications* Lulu Press, Inc InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld

also celebrates people, companies, and projects.

**Supply Chain Management Strategies and Risk Assessment in Retail Environments** Elsevier

Unlike Torts and Contracts, in which the facts are relatively consistent, cases that arise under the Constitution spring from a vast array of activities and appear to have little or no common thread.

*Computerworld* Elsevier

The proper understanding and managing of project risks and uncertainties is crucial to any organization. It is paramount that all phases of project development and execution are monitored to avoid poor project results from meager economics, overspending, and reputation. Supply Chain Management Strategies and Risk Assessment in Retail Environments is a comprehensive reference source for the

latest scholarly material on effectively managing risk factors and implementing the latest supply management strategies in retail environments. Featuring coverage on relevant topics such as omni-channel retail, green supply chain, and customer loyalty, this book is geared toward academicians, researchers, and students seeking current research on the challenges and opportunities available in the realm of retail and the flow of materials, information, and finances between companies and consumers.

*Network World* Allied Publishers

This document brings together a set of latest data points and publicly available information relevant for Platforms & Applications. We are very excited to share this content and believe that readers will benefit immensely from this periodic publication immensely.
