#1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. groundbreaking and comprehensive history of this much-talked-about but a little-understood condition. The book reveals the perfect storm that led to the sudden increase in diagnosis beginning in the 1990s. It describes how parents were bombarded with conflicting and misleading information on the causes and potential cures of the disease. It also describes how to embrace the concept of neurodiversity to build a better world for autistic people rather than searching for potential causes and risk factors. Read this book and learn more about autism from multiple perspectives—parents, scientists, activists, and the autistic people themselves. In J. L. Carr's deeply charged poetic novel, Tom Birkin, a veteran of the Great War and a broken marriage, arrives in the remote Yorkshire village of Oxbogby where he is to restore a recently discovered medieval mural in the local church. Living in the bell tower, surrounded by the resplendent countryside of high summer, and laboring each day to uncover an anonymous painter's depiction of the apocalypse, Birkin finds that he himself has been restored to a new, and hopeful, attachment to life. But summer ends, and with the work done, Birkin must leave. Now, long after, as he reflects on the passage of time and the power of art, he finds in his memories some consolation for all that has been lost.

Baseball, basketball, football — no matter the game, Jackie Robinson excelled. His talents would have easily landed another man a career in pro sports, but in America in the 1930s and '40s, such opportunities were closed to athletes like Jackie for one reason: his skin was the wrong color. Settling for playing baseball in the Negro Leagues, Jackie chafed at the inability to prove himself where it mattered most: the major leagues. Then in 1946, Branch Rickey, manager of the Brooklyn Dodgers, decided he was going to break the "rules" of segregation: he recruited Jackie Robinson. Fiercely determined, Jackie faced cruel and sometimes violent hatred and discrimination, but he proved himself again and again, exhibiting courage, restraint, and a phenomenal ability to play the game. In this compelling biography, award-winning author Doreen Rappaport chronicles the extraordinary life of Jackie Robinson and how his achievements won over — and changed — a segregated nation.

Reading and Writing to Learn: Strategies across the Curriculum New York Review of Books

Winner of the 1999 Pulitzer Prize for Drama, the New York Drama Critics Circle Award, the Drama Desk Award, the Outer Critics Circle Award, the Lucille Lortel Award, and the Oppenheimer Award Margaret Edson's powerfully

imagined Pulitzer Prize-winning play examines what makes life worth living through her exploration of one of existence's unifying experiences—mortality—while she also probes the vital importance of human relationships. What we as her audience take away from this remarkable drama is a keener sense that, while death is real and unavoidable, our lives are ours to cherish or throw away—a lesson that can be both uplifting and redemptive. As the playwright herself puts it, "The play is not about doctors or even about cancer. It's about kindness, but it shows arrogance. It's about compassion, but it shows insensitivity." In *Wit*, Edson delves into timeless questions with no final answers: How should we live our lives knowing that we will die? Is the way we live our lives and interact with others more important than what we achieve materially, professionally, or intellectually? How does language figure into our lives? Can science and art help us conquer death, or our fear of it? What will seem most important to each of us about life as that life comes to an end? The immediacy of the presentation, and the clarity and elegance of Edson's writing, make this sophisticated, multilayered play accessible to almost any interested reader. As the play begins, Vivian Bearing, a renowned professor of English who has spent years studying and teaching the intricate, difficult *Holy Sonnets* of the seventeenth-century poet John Donne, is diagnosed with advanced ovarian cancer. Confident of her ability to stay in control of events, she brings to her illness the same intensely rational and painstakingly methodical approach that has guided her stellar academic career. But as her disease and its excruciatingly painful treatment inexorably progress,

she begins to question the single-minded values and standards that have always directed her, finally coming to understand the aspects of life that make it truly worth living.

In this daring reexamination of the connections between national politics and Hollywood movies, Lary May offers a fresh interpretation of American culture from the New Deal through the Cold War—one in which a populist, egalitarian ethos found itself eventually supplanted by a far different view of the nation.

"One of the best books ever written about the movies." —Tom Ryan, *The Age*

"The most exhilarating work of revisionist film history since Pauline Kael's *Citizen Kane*. . . . May's take on what movies once were (energizing, as opposed to enervating), and hence can become again, is enough to get you believing in them again as one of the regenerative forces America so sorely needs."—Jay Carr, *Boston Globe*

"A startling, revisionist history of Hollywood's impact on politics and American culture. . . . A convincing and important addition to American cultural criticism."—*Publishers Weekly*

"A controversial overview of 30 years of American film history; must reading for any serious student of the subject."—*Choice*

"A provocative social history of Hollywood's influence in American life from the 1930s to the 1950s. May argues persuasively that movies in the period offered a good deal of tough criticism of economic and social conditions in U.S. society. . . . May challenges us to engage in some serious rethinking about Hollywood's impact on American society in the middle of the twentieth century."—Robert Brent Toplin, *American Historical Review*

The challenges that Western culture keeps posing to the Christian faith are ever new. The goal-posts keep changing. This study guide will equip theology students to understand the culture-shaping beliefs that are driving the kinds of questions it brings to faith. It will be an historical overview of the key stages in the history of Western philosophy with each section carefully tracing the genealogical line of ideas and the Christian responses to them, right up to

the present day. For most theology students, learning abstract philosophical concepts involves literally learning a new language, a language that the initiated converse in with ease but which leaves the uninitiated baffled. Thus, each chapter in this study guide opens with a glossary of terms. Throughout the studyguide students are encouraged to reflect on the ways in which what has been learned might be applied in both explicitly theological and wider cultural contexts - for example, they might be asked to think of a film or book that seems to express elements of existentialism or postmodernism, or to describe how something very like the extreme subjectivity of idealism can sometimes shows itself in Sunday morning worship.

Why does Western civilization dominate the rest of the world? This book is a summary of "Civilization: The West and the Rest," by Niall Ferguson. The central question is: Why did the West dominate the Rest and not vice versa? The book describes six concepts that the West has developed that allow them to leap ahead of the Rest, unleashing the Industrial Revolution and increasing human productivity. Six hundred years ago, Ming China and Ottoman Turkey

dominated the world civilizations, while Western Europe was a miserable backwater, devastated by incessant war and disease. But today, Western civilization has risen to global dominance. How has the West overtaken its Eastern rivals in the past 500 or so years? In *Civilization*, Niall Ferguson argues that beginning in the 15th century, the West developed six powerful concepts that the Rest lacked: competition, science, property rights, medicine, consumerism, and work ethic. These six killer apps allowed the West to leap ahead of the Rest, unleashing the Industrial Revolution and increasing human productivity. Yet now, the days of Western predominance are numbered because the Rest are adopting these same concepts, while the West has lost faith in its own civilization. Read this book and learn how these six killer apps help the West dominate the world. This guide includes * Book Summary—helps you understand the key concepts. * Online Videos—cover the concepts in more depth. Value-added from this guide: * Save time * Understand key concepts * Expand your knowledge
